## Outsunny 84H-025V02GN

# Outsunny 4' x 12' Crop Cage Instruction Manual

Model: 84H-025V02GN

Brand: Outsunny

## PRODUCT OVERVIEW

The Outsunny 4' x 12' Crop Cage is designed to protect your plants, vegetables, fruits, and flowers from birds and other small animals. Its mesh design allows for essential sunlight and rain exposure while providing a protective barrier. The structure features a durable galvanized steel frame and a convenient zippered walk-in door for easy access and plant care.

## SAFETY INFORMATION

---

### WARNING:

- Always assemble and secure the crop cage into the ground with the help of at least one other person to prevent injury.
- Be cautious of sharp edges on the alloy steel frame during assembly and use.
- Always follow the manufacturer's instructions for proper assembly, use, and maintenance.

## SETUP AND ASSEMBLY

---

Assembly of the Outsunny Crop Cage typically requires 1-2 people for easier setup. Follow these steps for proper installation:

1. **Unpack Components:** Carefully unbox all parts and verify against the included parts list (not provided in this manual, refer to product packaging).
2. **Assemble the Frame:** Connect the galvanized steel tubes using the provided connectors. Ensure all connections are secure.
3. **Attach Mesh Cover:** Drape the HDPE mesh netting over the assembled frame. Ensure it is evenly distributed and covers the entire structure.
4. **Secure to Ground:** Insert the bottom frame legs deeply into the soil. This action is crucial for providing a secure grip and stability, especially in windy conditions. Utilize any provided fixing straps to further anchor the structure.

## OPERATING INSTRUCTIONS

The Outsunny Crop Cage provides effective plant protection while allowing for easy access and plant care.

- **Plant Protection:** The fine mesh netting acts as a barrier, preventing birds, rabbits, and other small critters from accessing and damaging your plants.
- **Environmental Benefits:** The mesh design allows sunlight, fresh air, and rain to reach your plants, ensuring they receive necessary natural elements without compromising protection.
- **Accessing Plants:** Utilize the zippered walk-in door for convenient entry and exit. Unzip the door to prune, water, tend, or harvest your plants.

## MAINTENANCE

---

Proper maintenance will extend the lifespan of your Outsunny Crop Cage.

- **Cleaning:** Periodically clean the mesh netting with mild soap and water to remove dirt and debris. Rinse thoroughly.
- **Frame Inspection:** Regularly inspect the galvanized steel frame for any signs of damage or rust. While the frame is designed to resist surface rust, prolonged exposure to harsh conditions may require attention.
- **Netting Inspection:** Check the HDPE mesh for tears or holes. Small tears can be repaired with appropriate mesh repair kits to maintain effectiveness.
- **Seasonal Storage:** In regions with harsh winter conditions (e.g., heavy snow, extreme cold), it is recommended to disassemble and store the crop cage indoors to prevent damage and prolong its life.

## TROUBLESHOOTING

---

Common issues and their solutions for the Outsunny Crop Cage.

- **Instability in Wind:** If the crop cage appears unstable in windy conditions, ensure the bottom frame legs are inserted deeply into the soil. For additional stability, consider using extra ground anchors or weights (not included) around the base.
- **Difficulty Assembling:** If you encounter difficulty during assembly, ensure all connectors are correctly aligned and fully inserted. Assembly is easier with two people. Refer to the assembly diagrams for visual guidance.
- **Pests Entering:** If pests are still entering the cage, inspect the netting for any gaps or tears. Ensure the bottom edge of the netting is flush with the ground or buried slightly to prevent entry from underneath.

## SPECIFICATIONS

<b>Overall Dimensions</b>	47.2" W x 141.7" D x 74" H (120 x 360 x 188 cm)
<b>Door Size</b>	27.6" W x 68.5" H (70 x 174 cm)
<b>Frame Material</b>	Galvanized Alloy Steel (19mm diameter)
<b>Cover Material</b>	High Density Polyethylene (HDPE) Mesh
<b>Number of Doors</b>	1 (Zippered Walk-in Door)
<b>Item Weight</b>	8.62 kg
<b>Special Features</b>	Tear Resistant, Wind Resistant (when properly secured), Zippered Walk-in Door
<b>Model Number</b>	84H-025V02GN
