## PACKAGE CONTENTS

---

Ensure all items are present in the package:

- Quantron Computer Speaker (2 units)

## SETUP INSTRUCTIONS

---

1. **Placement:** Place the two speaker units on a stable, flat surface, ensuring they are positioned to provide optimal stereo sound for your listening area.
2. **Connect USB Power:** Insert the USB 2.0 connector into an available USB port on your computer, laptop, or a compatible USB power adapter (not included). This provides power to the speakers.
3. **Connect Audio Jack:** Insert the 3.5mm audio jack into the audio output port (headphone jack) of your computer,

laptop, smartphone, or other audio device.

4. **Verify Connection:** Ensure both the USB and 3.5mm audio connections are securely seated.

Image: Diagram showing the 3.5mm audio jack, USB connector, and inline volume controller for the speakers.

## OPERATING INSTRUCTIONS

1. **Power On:** Once connected to a USB power source, the speakers are typically powered on automatically. There is no separate power button.
2. **Volume Control:** Adjust the volume using the inline volume controller located on the speaker cable. Rotate the dial to increase or decrease the audio output.
3. **Audio Playback:** Play audio from your connected device. The sound will be routed through the Quantron QWS-1205 speakers.
4. **Power Off:** To turn off the speakers, simply disconnect the USB power cable from its source.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the speaker surfaces. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the speakers in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the speakers or subjecting them to strong impacts.

## TROUBLESHOOTING

---

Problem	Possible Solution
No sound from speakers.	<ul style="list-style-type: none"><li>◦ Ensure the USB cable is securely connected to a powered USB port.</li><li>◦ Verify the 3.5mm audio jack is fully inserted into the audio output port of your device.</li><li>◦ Check the volume level on the inline controller and on your connected device.</li><li>◦ Ensure your device's audio output is set to the correct port.</li></ul>
Sound is distorted or unclear.	<ul style="list-style-type: none"><li>◦ Reduce the volume on both the speakers and your connected device.</li><li>◦ Ensure the audio cable is not damaged or kinked.</li><li>◦ Test with another audio source or device to rule out source issues.</li></ul>
Only one speaker is working.	<ul style="list-style-type: none"><li>◦ Check the 3.5mm audio jack connection for proper seating.</li><li>◦ Ensure your device's audio balance settings are centered.</li></ul>
