MGA's Miniverse 570455

MGA's Miniverse Make It Mini Dinosaurs Jurassic World Instruction Manual

Introduction

Welcome to MGA's Miniverse Make It Mini Dinosaurs Jurassic World! This kit allows you to create and collect realistic baby dinosaur replicas. Each mystery capsule contains a surprise dinosaur, along with all the necessary mini supplies and accessories from the Jurassic World film series. There are 12 unique dinosaurs to discover and collect.

Important Safety Warnings

- **DISCLAIMER: All ingredients are NOT edible.** Do not consume any contents of this product.
- Not suitable for children under 8 years of age.
- Adult supervision is required during assembly and play.
- This product contains small parts which may pose a choking hazard.

What's Included

Each MGA's Miniverse Make It Mini Dinosaurs Jurassic World capsule includes:

- 1 Mystery Capsule (transforms into an incubator display)
- 1 Dinosaur Egg or Hybrid Cylinder with a surprise dinosaur
- Mini supplies and accessories (e.g., DNA powder, liquid, pipette, spoon, key)
- Collector's Guide with instructions and dinosaur information

Setup and Assembly

1. **Unbox the Capsule:** Open your mystery capsule to reveal the contents. The capsule itself will transform into an incubator display for your mini dinosaur.

Image: The unboxing process, showing the capsule opening to reveal the dinosaur egg/cylinder and various accessories.

2. **Identify Your Dinosaur:** Locate the QR code on the dinosaur egg or the collector's guide. Scan the QR code with a smart device to discover fascinating information about your specific dinosaur.

Image: A smartphone scanning the QR code on a dinosaur egg to access information.

3. **Open the Egg/Cylinder:**
    - If you have a dinosaur egg, use the provided key to open the top of the egg**Do not flip the egg while unlocked.**
    - If you have a hybrid cylinder, twist the top to open it.

4. **Add DNA Powder:** Using the small spoon, add 1-3 scoops of the dry DNA powder into the egg or cylinder.
5. **Add DNA Liquid:** Use the pipette to extract the DNA liquid from its vial. Carefully add the liquid into the egg or cylinder until it reaches the indicated fill line.
6. **Close the Egg/Cylinder:** Securely close the egg with the key or twist the top back onto the cylinder.
7. **Shake to Mix:** Shake the egg or cylinder for approximately 10 seconds to thoroughly mix the DNA powder and liquid.
8. **Reveal Your Dinosaur (Egg Type):** If you have an egg, gently crack it open on a hard surface to reveal your baby dinosaur.

Display Your Dinosaur

Your capsule transforms into an incubator display for your mini dinosaur. Place your newly revealed dinosaur in the display. You can choose to display it open or closed. Allow approximately 5 minutes for the materials to settle and fully reveal your dinosaur.

Image: The capsule transformed into a display stand for the mini dinosaur.

Optimization Tips

- Use the pipette to remove some liquid from inside the egg to create more liquid movement within the egg.
- Clean the pipette and mixing spoon with soap and water after each use.
- Do not leave the egg, sphere, cylinder or liquid DNA container open. Immediately add dry and liquid DNA, then close the containers.
