## Bali Df3w11

# Bali Women's One Smooth U® Underwire Bra Instruction Manual

Model: Df3w11

## INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Bali Women's One Smooth U® Underwire Bra, model Df3w11. Designed for comfort and a smooth silhouette, this bra features an underwire construction with petal-shaped panels for smoothing and concealing. The seamless cups ensure a discreet look under various garments, while the Comfort-U® back design helps keep straps in place and enhances back smoothing.

Key features include:

- **Smoothing Design:** Contoured to minimize bulges from front to back.
- **Concealing Petals:** Integrated petal-shaped panels for modesty and shaping.
- **Comfort-U® Back:** Built-up back design for enhanced smoothing and strap stability.
- **Seamless Cups:** Creates a smooth appearance under clothing.
- **Supportive Underwire:** Provides necessary support without compromising comfort.
- **Adjustable Straps:** Flat, adjustable shoulder straps for a customized and secure fit.

## SETUP AND FIRST USE

To ensure optimal comfort and support, proper fitting and adjustment are crucial for your Bali One Smooth U® bra.

1. **Band Adjustment:** Fasten the bra on the loosest hook-and-eye setting. The band should fit snugly and horizontally around your back, parallel to the floor. You should be able to fit two fingers comfortably under the band. If it feels too tight, try the next hook. If it feels too loose, consider a smaller band size.
2. **Cup Fit:** Ensure your breasts are fully enclosed within the cups without any gaping or spilling over at the top or sides. The center gore (the fabric between the cups) should lie flat against your sternum.
3. **Strap Adjustment:** Adjust the shoulder straps so they provide gentle lift and support without digging into your shoulders. The Comfort-U® back design helps keep the straps in place, preventing slippage during wear.

## OPERATING AND DAILY USE

The Bali One Smooth U® bra is designed for everyday wear, providing comfort and a smooth appearance under various outfits.

- **Smooth Silhouette:** The seamless cups and smoothing design help eliminate visible bra lines and bulges, making it ideal for wearing under t-shirts, blouses, and other fitted garments.
- **All-Day Comfort:** The combination of supportive underwire, soft fabric, and the Comfort-U® back ensures comfort throughout the day.
- **Concealing Function:** The integrated petal-shaped panels provide an extra layer of modesty, preventing show-through.

## MAINTENANCE AND CARE

Proper care will extend the life and maintain the quality of your Bali bra.

- **Washing Instructions:** This bra is machine washable. For best results and to preserve the fabric and shape, it is recommended to wash on a gentle cycle using a lingerie bag.

- **Water Temperature:** Use cold water.
- **Drying:** Air dry your bra by laying it flat or hanging it. Avoid using a machine dryer, as high heat can damage the elastic and fabric, affecting the bra's fit and longevity.
- **Detergent:** Use a mild detergent. Avoid harsh chemicals or bleach.

## TROUBLESHOOTING COMMON FIT ISSUES

If you experience discomfort or an improper fit, review the following common issues and solutions:

- **Band Riding Up:** If the back band rides up, it indicates the band is too loose. Try fastening it on a tighter hook, or consider a smaller band size. The band should be snug and level across your back.
- **Straps Slipping:** Adjust the shoulder straps to be tighter. If they continue to slip, the band might be too large, or the cup size might be too small, causing the bra to shift.
- **Cups Gaping:** If there is space between your breast and the cup, the cup size is too large. Try a smaller cup size.
- **Spilling Over Cups:** If your breast tissue spills over the top or sides of the cups, the cup size is too small. Try a larger cup size.
- **Underwire Digging In:** If the underwire digs into your skin, especially at the sides or front, the band might be too small, or the cup size might be incorrect. Ensure the underwire sits flat against your rib cage and encircles your breast tissue without resting on it.

Refer to the Sizing Guide section for detailed measurement instructions.

## SPECIFICATIONS

Attribute	Detail
Model Number	Df3w11
Department	Womens
Fabric Type (Cup, Back, Center, Belt)	80% Nylon, 20% Spandex
Fabric Type (Center Belt, Lining)	100% Nylon
Fabric Type (Cup, Linings)	100% Polyester
Care Instructions	Machine Wash
Origin	Imported
Closure Type	Hook & Eye

## SIZING GUIDE

To find your correct bra size, follow the instructions below. Accurate measurements are key to achieving the best fit and comfort.

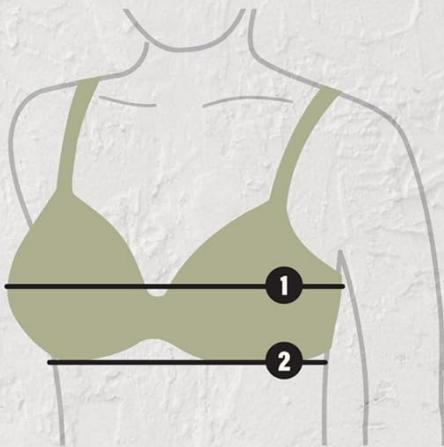

# BALI® BRA FIT & SIZE GUIDE

## 1 MEASURE YOUR BUST

Measure around the fullest part of your bust

## 2 MEASURE YOUR BAND

Take a snug measurement around your rib cage directly under your bust

## 2 UNDER BUST MEASUREMENT (BAND)
