

## EGLO Naples 52" 3-Blade Fan

# EGLO Naples 52" 3-Blade Ceiling Fan User Manual

Model: Naples 52"

## 1. INTRODUCTION

Thank you for choosing the EGLO Naples 52" 3-Blade Ceiling Fan. This manual provides essential information for the safe installation, operation, and maintenance of your new ceiling fan. Please read these instructions thoroughly before installation and retain them for future reference.

## 2. SAFETY INFORMATION

Always follow basic safety precautions when installing and operating electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the power is turned off at the circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unsure about wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting the weight of the fan (minimum 35 lbs / 15.9 kg).
- Maintain a minimum clearance of 7 feet (2.1 meters) from the floor to the fan blades.
- Do not operate the fan with damaged blades or housing.
- Avoid placing objects in the path of the fan blades.
- This fan is designed for indoor use only.

## 3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Fan Motor Assembly
- Fan Blades (3)
- Downrod
- Canopy

- Mounting Bracket
- Remote Control with Wall Mount
- LED Light Kit
- Hardware Pack (screws, washers, wire nuts)

## 4. SETUP AND INSTALLATION

---

Professional installation by a qualified electrician is recommended to ensure proper and safe setup. Follow these general steps:

1. **Turn Off Power:** Before starting, ensure the power supply to the installation location is turned off at the main circuit breaker.
2. **Mounting Bracket Installation:** Secure the mounting bracket to the ceiling junction box. Ensure the junction box is securely fastened to the building structure and can support the fan's weight.
3. **Downrod Assembly:** Insert the downrod through the canopy and connect it to the fan motor assembly. Secure with pins and screws as instructed.
4. **Wiring Connections:** Carefully connect the fan's electrical wires to the household wiring according to the wiring diagram provided in the separate installation guide. Use the supplied wire nuts.
5. **Attach Fan Body:** Lift the fan assembly and hang it on the mounting bracket. Ensure the downrod ball is properly seated in the bracket.
6. **Blade Attachment:** Attach the three fan blades to the motor housing using the provided screws. Ensure they are securely fastened.
7. **LED Light Kit Installation:** Connect the LED light kit wiring to the fan motor assembly and secure the light kit to the fan housing.
8. **Canopy Installation:** Slide the canopy up to the ceiling and secure it to the mounting bracket with the provided screws.
9. **Restore Power:** Once installation is complete and all connections are secure, restore power at the circuit breaker.

## 5. OPERATING INSTRUCTIONS

---

Your EGLO Naples ceiling fan is operated using the included remote control.

- **Power Button:** Press to turn the fan and light ON or OFF.

- **Fan Speed Buttons:** Select from multiple fan speeds (e.g., Low, Medium, High) to adjust airflow. The 52-inch blade span and variable pitch ensure optimal air circulation for medium to large rooms.
- **Light ON/OFF:** Independently control the LED light.
- **Dimming Function:** Press and hold the light button to dim or brighten the LED light.
- **Fan Direction (Reverse) Button:** If available, this button changes the direction of blade rotation. A downward airflow creates a cooling effect, while an upward airflow circulates warm air in winter. (Refer to specific remote instructions for this feature).

The fan is designed for quiet operation, ensuring comfort without disruptive noise.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** Periodically wipe the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish. Ensure power is off before cleaning.
- **Tighten Fasteners:** Check all screws and fasteners on the fan and mounting hardware annually. Tighten any loose connections.
- **Blade Balance:** If the fan wobbles, ensure all blades are securely attached and use a blade balancing kit (not included) if necessary.
- **Light Kit:** The integrated LED light kit does not require bulb replacement. If the light malfunctions, consult the troubleshooting section or contact customer support.

## 7. TROUBLESHOOTING

If you encounter issues with your EGLO Naples ceiling fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Remote control battery low or not paired; Loose wire connections.	Check circuit breaker; Replace remote battery or re-pair; Verify all wire connections are secure (power off first).
Fan wobbles excessively	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Use a blade balancing kit; Ensure mounting bracket is securely fastened to the ceiling.
Light does not work	Loose wire connection to light kit; Remote control issue.	Check light kit wiring (power off first); Ensure remote battery is good and remote is paired.
Remote control not working	Dead battery; Not paired with fan.	Replace battery; Follow pairing instructions (usually involves pressing a button on the remote within a few seconds of turning fan power on).

## 8. SPECIFICATIONS

Brand	EGLO
