FABATO HB020

FABATO Montessori Kids Full Size Bed Frame: Assembly and Care Guide

Model: HB020

Introduction

Thank you for choosing the FABATO Montessori Kids Full Size Bed Frame. This bed frame is designed to provide a safe, comfortable, and imaginative sleeping space for children. Featuring a sturdy metal construction and a unique house-style triangular roof, it encourages both rest and play. This manual provides essential information for proper assembly, safe usage, and maintenance to ensure the longevity and safety of your product.

Important Safety Information

- **Read all instructions carefully before assembly and use.** Keep this manual for future reference.
- **Adult assembly required.** Ensure all parts are present and undamaged before beginning assembly.
- **Do not overtighten screws.** Overtightening can damage the frame.
- **Regularly check all connections.** Ensure all bolts and screws are tight and secure.
- **Place the bed on a level surface.** Uneven surfaces can compromise stability.
- **Maximum weight capacity:** Refer to the specifications section for details. Do not exceed this limit.
- **Keep small parts away from children** during assembly to prevent choking hazards.
- **Do not allow children to climb on the roof structure** as it is not designed for climbing and may cause injury.
- **Mattress not included.** Ensure the mattress used fits the full size dimensions of the bed frame.

Package Contents

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.
(Note: A detailed parts list with corresponding labels is typically included in the physical manual. Please refer to that for specific part identification.)

- Metal Frame Components (various lengths and shapes for base, sides, and roof)
- Bed Slats

- Hardware Pack (screws, bolts, washers, Allen wrench)
- Assembly Instructions Manual (this document)

Assembly Instructions

Assembly requires two adults. Clear a spacious area for assembly. Lay out all components on a soft, clean surface to prevent scratches.

Step 1: Assemble the Bed Base

Connect the side rails and end rails to form the rectangular bed base. Secure with the provided bolts and Allen wrench. Do not fully tighten bolts until all components are aligned.

Image: Bare metal bed frame, illustrating the basic structure before roof assembly.

Step 2: Install Bed Slats

Place the metal slats across the bed base. Ensure they are evenly spaced and securely fastened to the side rails according to the pre-drilled holes. This provides mattress support.

Step 3: Attach Side Railings (if applicable)

Attach the decorative side railings to the bed base using the designated hardware. These railings contribute to the bed's aesthetic and provide a sense of enclosure.

Image: Detailed view of the bed frame's robust structure, security railings, and solid fixation points, highlighting construction quality.

Step 4: Assemble the Triangular Roof Structure

Connect the roof beams to form the triangular house-style top. Attach this assembly to the four corner posts of the bed frame. Ensure all connections are secure and aligned before fully tightening all bolts from previous steps.

Step 5: Final Tightening and Inspection

Once all components are in place and aligned, go back and fully tighten all bolts and screws. Do not overtighten. Perform a final inspection to ensure the bed frame is stable, all parts are securely fastened, and there are no sharp edges or loose components.

Usage Guidelines

- **Mattress Placement:** Place a full-size mattress directly onto the bed slats. No box spring is required.
- **Weight Limit:** Adhere to the maximum weight capacity specified in the 'Specifications' section to ensure safety and prevent damage.
- **Supervision:** Always supervise young children when they are playing around or on the bed frame, especially with the roof structure.
- **Environment:** Position the bed in a safe area of the room, away from windows, heaters, and cords.

Care and Maintenance

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they remain tight. Retighten as necessary.

- **Avoid Moisture:** Keep the bed frame dry to prevent rust or damage to the metal finish.
- **Moving the Bed:** When moving the bed, lift it rather than dragging it to prevent damage to the frame or floor.

Troubleshooting

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose bolts or uneven floor.	Ensure all bolts are securely tightened. Move the bed to a level surface or use shims if necessary.
Squeaking noises.	Loose connections or friction between metal parts.	Retighten all bolts. Apply a small amount of silicone lubricant to connection points if squeaking persists.
Missing parts during assembly.	Packaging error.	Do not proceed with assembly. Contact FABATO customer support for replacement parts.

Product Specifications

Model Number	HB020
Brand	FABATO
Size	Full (Matrimonial)
Product Dimensions (L x W x H)	77.76" x 53.94" x 63.98" (197.5 cm x 137 cm x 162.5 cm)
Material	Metal
Color	Black
Finish Type	Powder Coated
Item Weight	63.8 pounds
Assembly Required	Yes
Special Features	Montessori, Non-slip, Slatted, Triangular Roof
