**Redragon GS515**

# Redragon GS515 RGB Desktop Soundbar User Manual

Model: GS515

## Introduction

Thank you for purchasing the Redragon GS515 RGB Desktop Soundbar. This manual provides essential information for the proper setup, operation, and maintenance of your device. Please read it thoroughly before use to ensure optimal performance and longevity.

## Package Contents

- Redragon GS515 RGB Desktop Soundbar
- Quick Start Guide

## Product Overview

The Redragon GS515 is a 2.0 channel stereo soundbar designed for desktop use, featuring dual 50mm full-range drivers for clear audio. It offers versatile connectivity options including Bluetooth 5.3 and a wired USB-C/USB connection. The soundbar also includes customizable RGB lighting with multiple preset modes, controlled via an intuitive dial.

## Setup

### 1. Power Connection

Connect the soundbar to a power source using the integrated USB-C/USB cable. The soundbar is USB powered and designed for plug-and-play functionality.

### 2. Audio Connection Options

- **Wired Mode:** Connect the soundbar directly to your computer or audio device using the USB-C/USB cable. This mode is generally recommended for stable audio transmission and can resolve potential Bluetooth reconnection issues when switching audio outputs.
- **Bluetooth Mode:** For wireless audio, ensure the soundbar is powered on. Activate Bluetooth on your smartphone, tablet, or other compatible device and search for 'Redragon GS515'. Select it to pair. The Bluetooth range is approximately 10 meters.

## Operating Instructions

### Control Dial Functions

The intuitive control dial on the top of the soundbar allows for easy adjustment of various settings:

- **Turn:** Rotate the dial to adjust the volume level.
- **Click:** Press the dial to cycle through different RGB light effect modes.
- **Long Press:** Press and hold the dial to turn the soundbar On or Off.
- **Side Buttons:** Use the dedicated buttons around the dial for 'Connection Mode', 'Next Track', 'Play/Pause', and 'Previous Track'.

## Maintenance

To ensure the longevity and optimal performance of your Redragon GS515 soundbar, follow these simple maintenance guidelines:

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the soundbar to excessive moisture, dust, or extreme temperatures.
- Do not use harsh chemicals or abrasive cleaners.
- Store the soundbar in a cool, dry place when not in use for extended periods.

## Troubleshooting

| Problem | Possible Cause | Solution |
| --- | --- | --- |

| Problem | Possible Cause | Solution |
|---|---|---|
| No sound or low volume | Volume too low; incorrect input selected; loose connection; device volume settings. | Increase volume using the control dial and your device's volume settings. Ensure the correct audio output is selected on your computer/device. Check all cable connections. |
| Bluetooth connection issues | Soundbar not in pairing mode; device out of range; interference; previous connection conflict. | Ensure the soundbar is in Bluetooth pairing mode. Move your device closer to the soundbar (within 10 meters). Try restarting both the soundbar and your Bluetooth device. Consider using the wired connection for consistent performance, especially when switching between audio outputs. |
| RGB lights not working | Lighting mode off; power issue. | Press the control dial to cycle through lighting modes. Ensure the soundbar is properly powered. |
| Sound quality is not as expected | Audio source quality; placement; expectations. | Ensure your audio source is of high quality. Adjust the soundbar's placement on your desk. While the GS515 offers clear stereo sound, it is a compact desktop soundbar; adjust expectations accordingly. |

## Specifications
