roborock roborock QV 35A

roborock QV 35A Robot Vacuum Cleaner User Manual

Model: roborock QV 35A
Brand: roborock

1. Introduction

Welcome to the user manual for your new roborock QV 35A Robot Vacuum Cleaner. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your device to ensure optimal performance and longevity. Please read this manual thoroughly before using the product.

Key Features:

- **HyperForce 8000Pa Suction:** Designed for powerful cleaning, effortlessly capturing embedded dirt, stubborn debris, and pet hair from various surfaces.
- **All-in-One Docking Station:** Offers automated dust emptying (2.7L bag, up to 7 weeks), water refilling (4L tank for 3552 m² coverage), and thorough mop washing and drying.
- **Dual Rotating Mops with 10mm Lift:** Two high-speed mops (200 RPM) tackle tough stains, with 30 adjustable water levels and a 10mm auto-lift feature for seamless transitions over carpets.
- **Tangle-Free Brush System:** Features an improved asymmetrical side brush (SGS certified 0% hair entanglement) and an all-rubber spiral main brush to prevent hair and debris from tangling.
- **Reactive Tech Obstacle Avoidance:** Precisely detects and avoids obstacles like furniture, cords, and shoes, and intelligently identifies no-go zones.
- **PreciSense LiDAR Navigation and Mapping:** Scans 360° to create detailed real-time maps for efficient navigation and supports multi-floor mapping (up to 4 levels).
- **Versatile Roborock App:** Provides customized routes, cleaning schedules, child locks, map management, device status checks, and compatibility with third-party voice control devices.

2. What's in the Box

Upon unboxing your roborock QV 35A, please verify that all components listed below are present and in good condition:

- Robot Vacuum x 1
- Dock (with pre-installed disposable dust bag) x 1
- Docking Station Base x 1
- Mop Module x 1
- Power Cord x 1
- User Manual x 1

A visual representation of the roborock QV 35A package contents, including the robot, dock, and accessories, with dimensions.

3. Setup

3.1 Docking Station Placement

Place the all-in-one docking station on a hard, level surface against a wall, ensuring there is adequate space around it for the robot to maneuver. Keep the area clear of obstacles, power cords, and direct sunlight. The station requires a stable Wi-Fi signal for optimal performance.

3.2 Initial Charging

Before first use, fully charge the robot by placing it on the docking station. The robot will automatically align itself. A full charge typically takes several hours. The app will indicate the charging status.

The roborock QV 35A supports faster charging and can be set to charge during off-peak hours to save energy.

3.3 App Installation and Connection

Download the Roborock app from your device's app store. Follow the in-app instructions to connect your robot vacuum cleaner to your home Wi-Fi network. This will enable smart features, remote control, and access to advanced settings.

4. Operating Instructions

4.1 Cleaning Modes and Performance

The roborock QV 35A offers versatile cleaning capabilities to suit various floor types and cleaning needs.

- **HyperForce 8000Pa Suction:** Experience superior vacuuming performance that effortlessly lifts dirt, debris, and pet hair from carpets, rugs, and hard-to-reach corners.
- **Dual Rotating Mops:** Two high-speed rotating mops (200 RPM) effectively scrub and remove stubborn stains. With 30 adjustable water levels, the robot adapts to delicate hardwood floors and tiles.
- **10mm Mop Lift:** The automatic mop lifting feature allows the robot to seamlessly transition from hard floors to low-pile carpets without wetting them, ensuring versatile cleaning.
- **Carpet Cleaning Strategies:** The robot can boost suction on carpets, perform deep cleaning by cleaning carpets twice, or prioritize vacuuming with dry mops before mopping.
- **Quiet Operation:** Designed to clean effectively while maintaining a low noise level, making it suitable for homes with pets.

The HyperForce 8000Pa suction power of the roborock QV 35A effectively cleans various types of debris.

The roborock QV 35A features 10mm mop elevation and specialized carpet cleaning strategies for optimal performance.

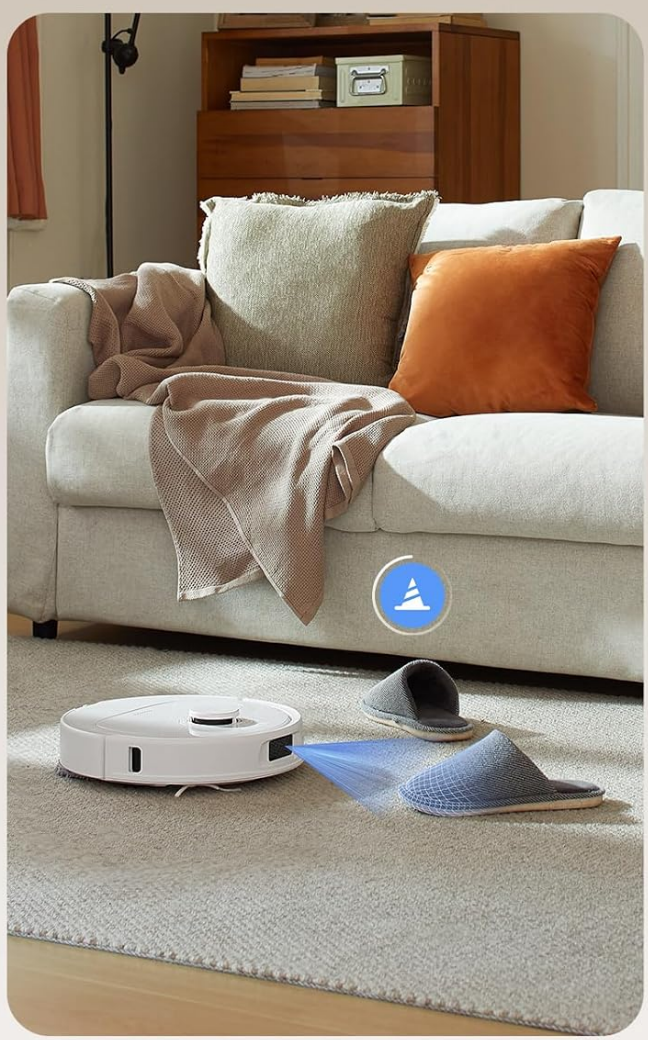

4.2 Navigation and Mapping

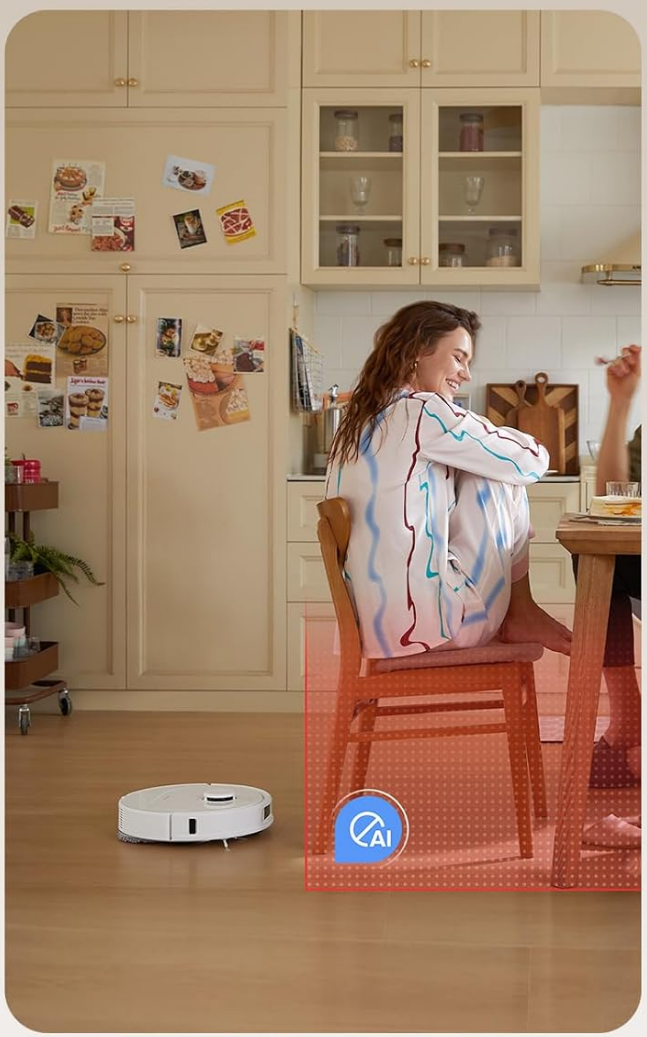

The robot utilizes advanced technology for efficient and precise navigation:

- **Reactive Tech Obstacle Avoidance:** Equipped with Reactive Tech, the robot accurately detects and avoids common household obstacles such as furniture, cords, and shoes. It also intelligently identifies and suggests no-go zones to prevent getting stuck.
- **PreciSense LiDAR Navigation:** The LiDAR system performs a 360° scan to create detailed real-time maps, ensuring precise navigation and efficient cleaning paths.
- **Multi-Floor Mapping:** The robot can remember and adapt to maps of multiple floors (up to 4 levels), making it suitable for multi-story homes.
- **Threshold Climbing:** Capable of effortlessly gliding over thresholds and door sills up to 2 cm for uninterrupted cleaning.

Évitement d'obstacles Reactive Tech

Il est toujours prêt à détecter et à contourner les obstacles sans effort, et à donner des suggestions intelligentes pour les zones interdites.

The Reactive Tech system allows the roborock QV 35A to detect and bypass obstacles, providing intelligent suggestions for restricted areas.

The PreciSense LiDAR navigation system enables the roborock QV 35A to map your home quickly and accurately.

4.3 Smart Features and App Control

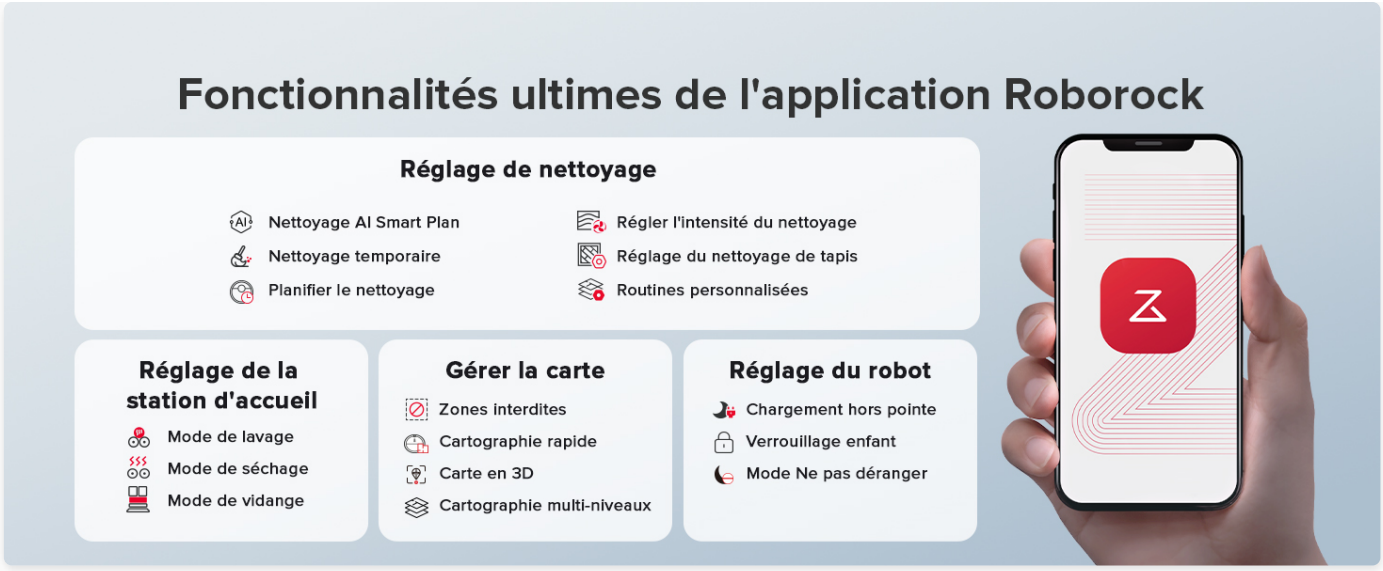

The Roborock app provides comprehensive control and customization options for your robot vacuum cleaner:

- **Customized Cleaning:** Set personalized cleaning routes, schedules, and define specific areas for cleaning or no-go zones.
- **SmartPlan:** By defining rooms and floor types in the app, the robot adapts its water flow and suction power for perfect cleaning.
- **Scheduling:** Program daily cleaning routines and save frequently used operations as shortcuts for quick activation via the app or home screen widgets.
- **Temporary Cleaning:** Add or temporarily ignore zones based on your needs, then resume the original cleaning task seamlessly.
- **One-Click Area Selection:** Easily choose specific rooms, full house cleaning, or spot cleaning areas directly from the app.
- **Comprehensive Control Methods:** Control your robot using third-party voice commands (Amazon Alexa, Siri

Shortcuts, Google Home), launch widgets for quick access, or use the dedicated Apple Watch app to start cleaning or check device status.

The versatile Roborock app puts total control of your cleaning, including customizable programs and map management, at your fingertips.

The Roborock app offers ultimate features for cleaning adjustments, map management, and robot settings.

The roborock QV 35A can be controlled through comprehensive methods including third-party voice commands, launch widgets, and an Apple Watch app.

5. Maintenance

Regular maintenance ensures your roborock QV 35A continues to perform at its best. Follow these guidelines for cleaning and upkeep:

5.1 All-in-One Docking Station Maintenance

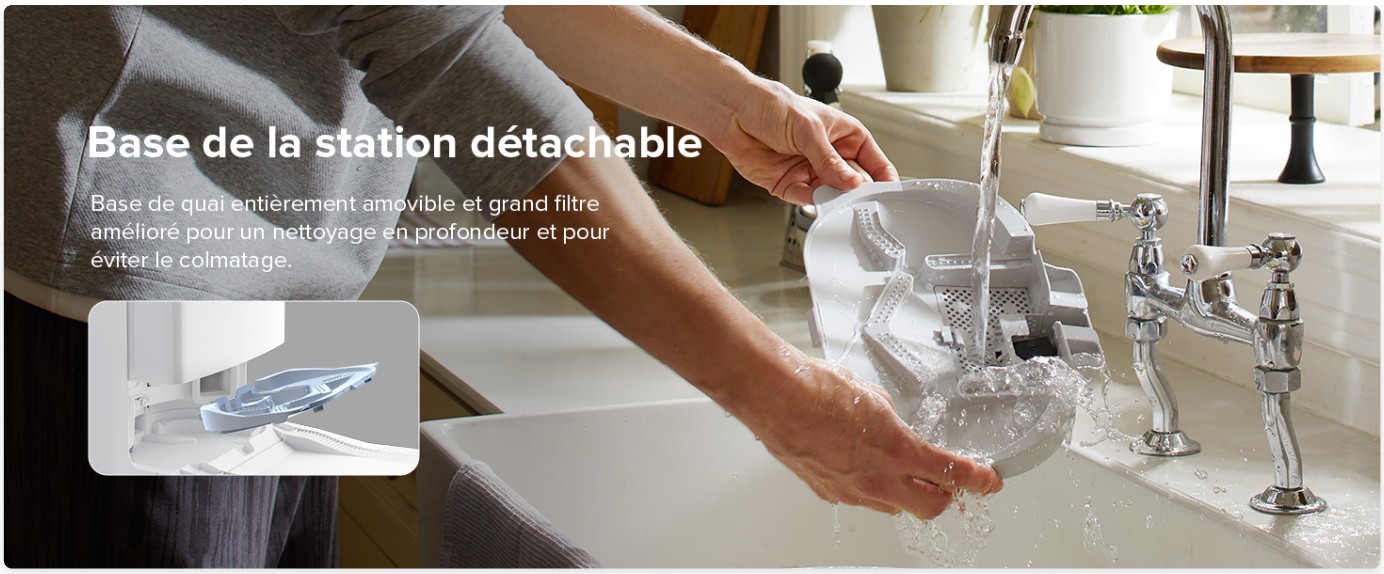

The advanced docking station is designed for minimal hassle, but periodic checks are recommended:

- **Auto Mop Washing and Drying:** The station automatically washes and dries the mops, ensuring they are clean and ready for the next cleaning cycle.
- **Auto Dust Emptying:** The robot automatically empties dust into a sealed 2.7-liter bag, which can last up to 7 weeks without manual intervention.
- **Auto Water Refilling:** The station refills the robot's water tank from its 4-liter reservoir, covering large areas without manual refills.

- **Detachable Station Base:** The fully removable dock base and improved large filter allow for deep cleaning and prevent clogging.

The roborock QV 35A's all-in-one multifunctional station provides a truly hands-free cleaning experience.

The detachable base of the docking station can be easily removed and cleaned to prevent clogging and ensure thorough maintenance.

5.2 Brush System Cleaning

The roborock QV 35A features a tangle-free brush system, but occasional cleaning is still necessary:

- **Anti-Tangle Brushes:** The asymmetrical side brush is SGS certified for 0% hair entanglement, and the all-rubber spiral main brush effectively prevents hair from wrapping around it.
- Periodically check and clean the main brush and side brush for any accumulated hair or debris. Use the cleaning tool provided to cut and remove tangled hair.

The superior anti-tangle technology of the roborock QV 35A ensures efficient cleaning, with an SGS certified 0% hair entanglement rate for the side brush. For more details, visit the SGS certification page.

6. Troubleshooting

If you encounter any issues with your roborock QV 35A, please refer to the following common troubleshooting steps. For more complex problems, consult the Roborock app or contact customer support.

- **Robot not charging:** Ensure the docking station is powered on and the robot is correctly aligned with the charging contacts. Clean the charging contacts on both the robot and the dock.
- **Robot stuck or lost:** Clear any obstacles around the robot. If it's lost, manually place it back on the dock. Check the app for error messages and map issues.
- **Poor cleaning performance:** Check the dustbin and empty it if full. Clean the main brush, side brush, and filter. Ensure the water tank is filled for mopping.
- **App connectivity issues:** Ensure your Wi-Fi network is stable and the robot is within range. Restart the robot and your router. Re-pair the robot with the app if necessary.
- **Unusual noises:** Check for any foreign objects caught in the brushes or wheels. Clean the brushes and ensure they are properly installed.

7. Specifications

Feature	Specification
Brand	roborock
Model Number	roborock QV 35A
Color	QV 35A White
Product Dimensions (L x W x H)	48.7 x 35 x 52.1 cm
Item Weight	11.8 Kilograms
Capacity	370 Milliliters (Water Tank)
Power	60 Watts
Noise Level	64 dB
Special Features	Smart Mapping, HyperForce 8000Pa, Auto Mop Washing, LiDAR Navigation, Advanced Customized Cleaning, Obstacle Avoidance
Surface Recommendation	Engineered Wood, Ceramic Tile, Carpet
Controller Type	App Control, Voice Control, Button Control
Filter Type	HEPA Filter
Battery Composition	Lithium-ion (1 included)

8. Warranty and Support

For information regarding the product warranty, please refer to the warranty card included in your package or visit the official roborock website. Warranty terms and conditions may vary by region.

If you require technical assistance, have questions about product features, or need to report an issue, please contact roborock customer support. You can typically find contact information on the official roborock website or within the Roborock app.
