6.2 Battery Care

- To prolong battery life, avoid fully discharging the battery frequently.
- Charge the tablet regularly, ideally keeping the charge between 20% and 80%.
- Do not expose the tablet to extreme heat, as this can degrade battery performance.

6.3 Storage Management

Regularly manage your tablet's storage to maintain optimal performance:

- Delete unnecessary apps and files.
- Clear cache data for apps in **Settings > Apps > [App Name] > Storage & cache**.
- Utilize the TF card slot for additional storage of media files.

6.4 Software Updates

Keep your tablet's software up to date to benefit from the latest features, security patches, and performance improvements.

1. Go to **Settings > System > System update**.
2. Check for available updates and follow the on-screen instructions to install them.

7. TROUBLESHOOTING

Problem	Solution
Tablet does not power on.	Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
Cannot connect to Wi-Fi.	Check if Wi-Fi is enabled in settings. Restart the tablet and your Wi-Fi router. Ensure you are entering the correct password.
4G cellular data not working.	Verify the SIM card is correctly inserted and active. Check mobile data settings and ensure your plan has data. Restart the tablet.
Apps are running slowly or crashing.	Close unused apps. Clear app cache. Check for system updates. Consider freeing up storage space.
Screen is unresponsive.	Restart the tablet by holding the power button. If unresponsive, perform a forced restart (refer to device-specific instructions if available, usually holding power for 10-15 seconds).
