4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your laptop.

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and chassis. For stubborn marks, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.
- **Ventilation:** Ensure the laptop's ventilation openings are not blocked to prevent overheating. Use the laptop on a hard, flat surface.
- **Battery Care:** To maximize battery life, avoid fully discharging the battery frequently. Store the laptop in a cool, dry place if not used for extended periods.
- **Software Updates:** Regularly update your operating system and drivers to maintain security and performance.
- **Data Backup:** Periodically back up important data to an external drive or cloud storage to prevent data loss.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Auusda T160R laptop.

Problem	Possible Cause	Solution
Laptop does not power on.	Low battery, faulty charger, or power issue.	Ensure charger is properly connected and power outlet is working. Allow battery to charge for at least 30 minutes. Try a different power outlet.
Screen is blank or black.	Display settings, external monitor connection, or system crash.	Press Fn + F key (display toggle) to switch display modes. Disconnect external monitors. Perform a hard reset by holding the power button for 10-15 seconds.
Wi-Fi connection issues.	Wi-Fi adapter disabled, incorrect password, or router issue.	Check if Wi-Fi is enabled in Windows settings. Restart your router and modem. Re-enter Wi-Fi password. Update network drivers.
Laptop is running slow.	Too many programs running, low storage space, or outdated drivers.	Close unnecessary applications. Free up disk space. Run a virus scan. Update Windows and drivers.

If the problem persists, please refer to the Warranty and Support section for further assistance.
