TANGJEAMER THMJL-TJM

TANGJEAMER Large Wooden Chicken Coop

Model: THMJL-TJM

Brand: TANGJEAMER

1. PRODUCT OVERVIEW

The TANGJEAMER Large Wooden Chicken Coop (Model THMJL-TJM) is designed to provide a secure and comfortable habitat for poultry and small animals. This spacious unit features a double-layer design, offering ample resting and activity space for 2 to 8 chickens. Its construction utilizes high-quality, thick wood with a waterproof and sun-resistant coating, ensuring durability for outdoor use. The design incorporates multiple access points and a removable sliding tray for simplified cleaning and maintenance. Galvanized wire fencing promotes adequate ventilation throughout the enclosure.

This versatile poultry house is suitable for various small animals, including chickens, rabbits, and guinea pigs. It measures approximately 161.5 inches (L) x 26 inches (W) x 44.5 inches (H) and includes a separate nesting box for egg collection.

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembling and using the chicken coop. Failure to follow these instructions may result in injury to animals or damage to the product.

- **Proper Placement:** Position the coop on a level, stable surface. Ensure it is not placed in areas prone to flooding or excessive wind.
- **Predator Protection:** While the coop offers protection, regularly inspect for any signs of damage or weak points that could allow predators access. Consider additional measures if local predator activity is high.
- **Ventilation:** Ensure all ventilation points remain clear to provide adequate airflow for the animals.
- **Regular Inspection:** Periodically check all latches, hinges, and structural components for wear, damage, or loose connections. Tighten or replace as necessary.
- **Animal Capacity:** Do not overcrowd the coop. Adhere to the recommended capacity of 2-8 chickens to ensure animal welfare and proper ventilation.
- **Child Supervision:** Children should be supervised when interacting with the coop and animals.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support.

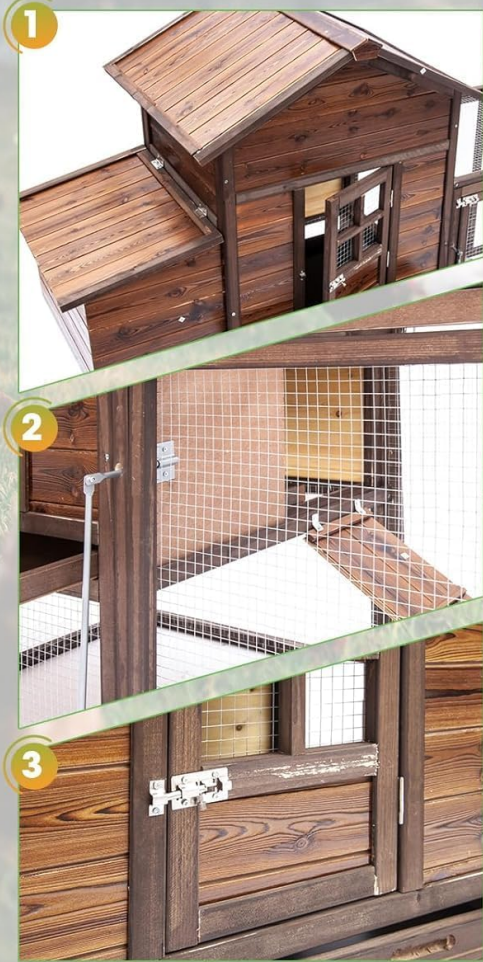

- Chicken Coop Panels (various sizes)
- Nesting Box Assembly
- Ramp(s)
- Removable Tray(s)
- Galvanized Wire Mesh Panels
- Hardware (screws, bolts, latches, hinges)
- Assembly Instructions Manual

4. ASSEMBLY INSTRUCTIONS

Assembly of the TANGJEAMER Chicken Coop requires careful attention to detail. It is recommended to have at least two people for assembly. Ensure you have a clear, flat workspace and the necessary tools (e.g., screwdriver, wrench).

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the parts list in your included manual to identify each piece.
2. **Assemble Base Frame:** Begin by constructing the base frame of the coop and run sections, ensuring all connections are secure.
3. **Attach Wall Panels:** Secure the wooden wall panels to the base frame. Pay attention to the orientation of panels with access doors or windows.
4. **Install Wire Mesh:** Attach the galvanized wire mesh panels to form the enclosed run areas. Ensure the mesh is taut and securely fastened to prevent gaps.
5. **Construct Housing Units:** Assemble the elevated housing units, including the floor and roof sections.
6. **Integrate Nesting Boxes:** Attach the nesting box assemblies to the designated side of the housing units.
7. **Install Ramps and Trays:** Position the ramps to allow animal access between the housing and run areas. Insert the removable trays into their respective slots beneath the housing units.
8. **Attach Doors and Latches:** Install all access doors, ensuring hinges operate smoothly and latches provide secure closure.
9. **Final Inspection:** Once assembled, perform a thorough inspection to ensure all screws are tightened, all parts are correctly aligned, and the structure is stable.

Durable materials

1 Quality Carbonized Wood
(with waterproof coating)

2 Non-rusting wire mesh

3 Sturdy metal latches and door bolts

5. OPERATING INSTRUCTIONS

Once assembled, the TANGJEAMER Chicken Coop is ready for use. Follow these guidelines for optimal operation:

- **Animal Introduction:** Carefully introduce your chickens or other small animals to their new habitat. Allow them time to explore and become accustomed to the coop.
- **Access Doors:** Utilize the multiple access doors for daily feeding, watering, and checking on your animals. Ensure all doors are securely latched when not in use to prevent escapes and protect against predators.
- **Nesting Box:** The separate nesting box is designed for egg laying. Access the eggs easily through the exterior lid.
- **Ramp Usage:** Animals will use the provided ramps to move between the elevated housing area and the ground-level run. Ensure ramps are clear of obstructions.
- **Ventilation:** The galvanized wire fencing provides natural ventilation. Monitor the internal temperature and airflow, especially during extreme weather conditions.

6. MAINTENANCE

Regular maintenance is essential to ensure the longevity of your chicken coop and the health of your animals.

- **Daily Cleaning:** Remove droppings and soiled bedding from the housing area and run daily.
- **Removable Tray:** The sliding removable tray facilitates easy cleaning of the main housing area. Pull out the tray, empty waste, clean with appropriate disinfectant, and replace.
- **Deep Cleaning:** Perform a thorough cleaning of the entire coop weekly or bi-weekly. This includes scrubbing surfaces, disinfecting, and replacing all bedding.
- **Wood Inspection:** Periodically inspect the wooden components for signs of wear, rot, or insect damage. Apply a non-toxic, animal-safe wood sealant annually to maintain weather resistance.
- **Roof Integrity:** Check the waterproof roof for any leaks or damage, especially after heavy rain or snow. Repair as needed to keep the interior dry.
- **Hardware Check:** Ensure all latches, hinges, and screws remain tight and functional. Lubricate moving parts if necessary.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your chicken coop.

- **Issue: Poor Ventilation.**
Solution: Ensure no debris is blocking the wire mesh or other ventilation points. If the coop is placed in a very sheltered area, consider relocating it slightly to improve natural airflow.
- **Issue: Difficulty Cleaning.**

Solution: Utilize the removable sliding tray for easy waste removal. For deeper cleaning, the multiple access doors allow for better reach into all areas.

- **Issue: Animals Not Using Nesting Box.**

Solution: Ensure the nesting box is clean, dark, and filled with comfortable bedding. Some animals may take time to adapt.

- **Issue: Structural Instability.**

Solution: Re-check all assembly connections. Tighten any loose screws or bolts. Ensure the coop is on a completely level surface.

- **Issue: Water Accumulation Inside.**

Solution: Inspect the roof for any damage or gaps. Ensure the coop is not placed in a depression where water can pool. Verify that the waterproof coating on the wood is intact.

8. SPECIFICATIONS

Feature	Detail
Model Name	THMJL-TJM
