Shark SD201

Shark SD201 Steam Pickup 3-in-1 Steam Mop User Manual

Model: SD201

INTRODUCTION

This manual provides essential instructions for the safe and effective operation, maintenance, and troubleshooting of your Shark SD201 Steam Pickup 3-in-1 Steam Mop. Please read this manual thoroughly before using the appliance.

IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury. This includes:

- Read all instructions before use.
- Use the appliance only for its intended household use as described in this manual.
- Do not use outdoors or on wet surfaces.
- Do not leave the appliance unattended when plugged in.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Use only manufacturer's recommended attachments.
- Do not use with a damaged cord or plug.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners.
- Do not use the appliance in an enclosed space where fumes from oil-based paint, paint thinner, mothproofing substances, flammable dust, or other explosive or toxic vapors are present.
- Do not use on unsealed hardwood floors.

WHAT'S IN THE BOX

Verify that all components are present in your package:

- Shark SD201 Steam Pickup 3-in-1 Steam Mop Unit
- 1x Total Antimicrobial Brushroll
- Storage Tray with Brushroll Holder and Cleaning Tool

What's in the box:

Image: Contents of the Shark SD201 Steam Mop package. This includes the main steam mop unit, an antimicrobial brushroll, and a storage tray designed to hold the brushroll and a cleaning tool.

ASSEMBLY AND SETUP

1. **Attach Handle:** Insert the handle into the main body of the steam mop until it clicks securely into place.
2. **Install Brushroll:** Open the brushroll cover on the cleaning head. Align the antimicrobial brushroll with the slots and press down until it is seated correctly. Close the cover.
3. **Fill Water Tank:** Ensure the appliance is unplugged. Remove the water tank cap. Fill the tank with distilled water up to the MAX fill line. Replace the cap securely.
4. **Position Storage Tray:** Place the storage tray on a flat, dry surface where the mop will rest after use. This tray collects excess moisture and debris from the brushroll.

OPERATING INSTRUCTIONS

Before You Begin

- Ensure the water tank is filled with distilled water.
- Confirm the brushroll is properly installed.
- The Shark SD201 is designed for use on sealed hard floors only, including hardwood, tile, laminate, vinyl, and stone. Do not use on unsealed surfaces.

General Operation

1. **Plug In:** Plug the power cord into a grounded electrical outlet. The appliance will begin to heat up.

2. **Activate Steam:** Once plugged in, the steam mop will automatically generate steam. You may see a light indicator.
3. **Begin Cleaning:** Push the mop forward and backward over the floor surface. The brushroll will rotate, picking up debris, scrubbing, and sanitizing simultaneously.
4. **Sanitization:** For optimal sanitization, move the mop slowly and evenly over the desired area. Refer to the Owner's Guide for specific sanitization instructions and dwell times.
5. **Debris Pickup:** The mop is designed to pick up both wet and dry debris as it steams, eliminating the need for pre-sweeping.

3-in-1 cleaning

Pick up debris. Deep scrub. Steam sanitize*. All at once.

*See sanitization instructions in Owner's Guide for important details on sanitizing floors. Sanitization studies were conducted under controlled test conditions. See the Owner's Guide for details on testing.

Image: The Shark SD201 Steam Mop in action, cleaning a tiled floor covered with dirt and debris. Steam is visible, indicating its sanitizing function, while the brushroll addresses both wet and dry messes.

No pre-sweep required

Captures wet, dry & stuck-on messes as you steam.

2x better stain cleaning

vs. traditional steam mops.

Image: The Shark SD201 Steam Mop actively cleaning a dark, dried stain on a wooden floor, demonstrating its deep scrubbing capability to remove stubborn marks.

Chemical-free sanitization*

Removes 99.99% of common household bacteria.**

*To sanitize floors, be sure to completely follow the product's directions for use. See sanitization instructions in Owner's Guide for important details on sanitizing floors. Sanitization studies were conducted under controlled test conditions. See the Owner's Guide for details on testing. **Kills 99.9% of *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Escherichia coli*, *Salmonella enterica* (typhi), and *Enterobacter aerogenes* when used as directed. Testing conducted in a third-party laboratory under controlled conditions.

Image: An illustration depicting the chemical-free sanitization process of the Shark SD201 Steam Mop, showing bacteria being eliminated on a tiled surface. This highlights the appliance's ability to remove common household bacteria.

For all sealed hard floors

Hardwood. Tile. Marble. Laminate. Vinyl. Stone.

Image: A collage of various sealed hard floor types, including hardwood, tile, marble, laminate, vinyl, and stone, illustrating the versatility of the Shark SD201 Steam Mop across different surfaces.

MAINTENANCE

After Each Use

1. **Unplug and Cool:** Unplug the steam mop from the outlet and allow it to cool down completely before performing any maintenance.
2. **Empty Debris Tank:** Remove the debris tank from the cleaning head. Dispose of collected wet and dry debris into a waste bin. Rinse the tank with water if necessary and allow it to air dry.
3. **Clean Brushroll:** The brushroll is designed to be self-cleaning during operation. However, inspect it for any tangled hair or large debris and remove manually if present.
4. **Store:** Place the steam mop on its storage tray. The tray is designed to hold the wet brushroll without direct contact with the floor.

Image: A detailed view of the Shark SD201 Steam Mop's brushroll, illustrating its self-cleaning mechanism with arrows indicating rotation. This feature helps prevent debris buildup on the brushroll itself.

Mess-free maintenance

Wet and dry debris are separated for easy emptying.

Image: A user demonstrating the mess-free maintenance of the Shark SD201 Steam Mop by easily removing and emptying the debris tank. The image shows separated wet and dry debris for convenient disposal.

Long-Term Storage

Before storing for extended periods, ensure the water tank is empty and the appliance is clean and dry. Store in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No steam or low steam output.	Water tank is empty or low. Appliance not fully heated. Mineral buildup.	Refill water tank with distilled water. Allow 30 seconds for heating after plugging in. If persistent, descale the unit (refer to full Owner's Guide for descaling instructions).
Mop not picking up debris effectively.	Debris tank is full. Brushroll is obstructed.	Empty the debris tank. Check brushroll for obstructions and clean if necessary.

Problem	Possible Cause	Solution
Water leaking from the unit.	Water tank cap not secured. Overfilling the water tank. Unit is defective.	Ensure water tank cap is tightly closed. Do not overfill past the MAX line. If leaking persists, contact customer support.
Mop leaves streaks on floor.	Brushroll is dirty. Floor was excessively dirty.	Clean the brushroll. For heavily soiled floors, multiple passes may be required. Ensure the floor is swept of large debris before steaming.

SPECIFICATIONS

Model Name: Shark SD201

Brand: Shark

Power Source: Corded Electric

Voltage: 120V

Wattage: 1230 watts

Tank Volume: 0.1 Gallons

Product Dimensions: 9.3 x 6.5 x 44.5 inches

Included Components: Antimicrobial brushroll, Storage tray with brushroll holder

Surface Recommendation: Sealed Hard Floors (Hardwood, Tile, Laminate, Vinyl, Stone)

Special Feature: Compact Design, Lightweight, Portable

UPC: 732388828234
