7. Troubleshooting

- **Trimmer does not turn on:** Ensure the battery is charged. Connect the trimmer to the charging base and allow it to charge for at least 15 minutes before attempting to turn it on again.
- **Reduced trimming performance:** Clean the trimmer head and comb thoroughly. Hair buildup can affect performance. Ensure the blades are not damaged.
- **Trimmer gets hot:** This can be normal during extended use. If it becomes excessively hot, turn it off and allow it to cool down. Ensure the air vents are not blocked.
