  - Ensure the power adapter is securely plugged into both the mirror and a working electrical outlet.
  - Check if the outlet is functional by plugging in another device.
  - Verify that the power button on the mirror is being pressed correctly (short press for on/off, long press for brightness).
- **Drawers Sticking or Not Sliding Smoothly:**
  - Check for any obstructions in the drawer slides.
  - Ensure the drawer slides are properly aligned and not bent.
  - Lightly lubricate the drawer slides with a silicone-based lubricant if needed.
