HOMCOM Bathroom Sink Cabinet Instruction Manual

Introduction

Welcome to your new HOMCOM Bathroom Sink Cabinet. This manual provides essential information for the assembly, safe use, and maintenance of your cabinet. This modern cabinet is designed to maximize storage space under your basin, featuring an adjustable shelf and a 'U' cut-out to accommodate various sink types.

Safety Warnings

WARNING: Ensure the cabinet is assembled strictly following the provided instructions.

- Do not exceed the maximum load capacity of 30 kg for the entire cabinet.
- Utilize the anti-tipping straps and adjustable feet to ensure the stability of the cabinet and prevent accidental tipping.

Package Contents

The package includes:

- 1 x Under Sink Bathroom Cabinet (all components)
- 1 x Instruction Manual

Product Features

- **'U' Cut-Out Design:** A 20 x 23 cm 'U' cut-out is integrated to accommodate both pedestal and non-pedestal sinks, optimizing space under your basin.
- **Adjustable Shelf:** Features a three-level adjustable shelf, allowing flexible storage for items of various sizes.
- **Modern Aesthetic:** High gloss white finish with a contrasting dark grey tabletop, black legs, and handles for a contemporary look.
- **Durable Construction:** Made from quality particle board with a protective melamine coating for everyday use.
- **Enhanced Stability:** Includes anti-tipping straps for safety and adjustable foot pads to maintain balance on uneven floors.

Setup and Assembly

Assembly of your HOMCOM Bathroom Sink Cabinet is required. Please follow the steps carefully, referring to the included manual for detailed diagrams and parts lists.

Step 1: Unpack and Identify Components

Carefully unpack all components and verify against the parts list in your included manual. Ensure all screws and fittings are present. Components are typically labeled for easy identification.

Step 2: Assemble the Cabinet Frame

Follow the numerical and alphabetical labels on each component and hardware package to connect the side panels, bottom, and back panels using the provided fasteners. Ensure all connections are secure.

Image Description: This diagram illustrates the overall dimensions of the cabinet: 60cm width, 34cm depth, and 70cm height. It also shows the 'U' cut-out dimensions (20cm x 23cm) and the internal cabinet height (56cm), along with the leg height (7.5cm).

Step 3: Install Adjustable Shelf

Insert the shelf pins into the desired holes on the cabinet sides. Place the adjustable shelf onto these pins. You can choose from three different height levels.

Image Description: This image demonstrates the three-level adjustable shelf feature. Arrows indicate that the shelf can be moved up or down in 5cm increments to accommodate items of varying heights.

Step 4: Attach Doors and Hinges

Secure the doors to the cabinet frame using the provided hinges. Ensure they are aligned correctly. Minor adjustments can be made to achieve a perfect fit.

Image Description: This diagram explains how to adjust the cabinet hinges. It shows three types of adjustments: (a) Up and Down, (b) Front and Back, and (c) Left and Right, allowing for precise door alignment.

Step 5: Install Adjustable Foot Pads

Screw the adjustable foot pads into the bottom of the cabinet legs. These can be rotated and adjusted to level the cabinet on uneven surfaces, ensuring stability.

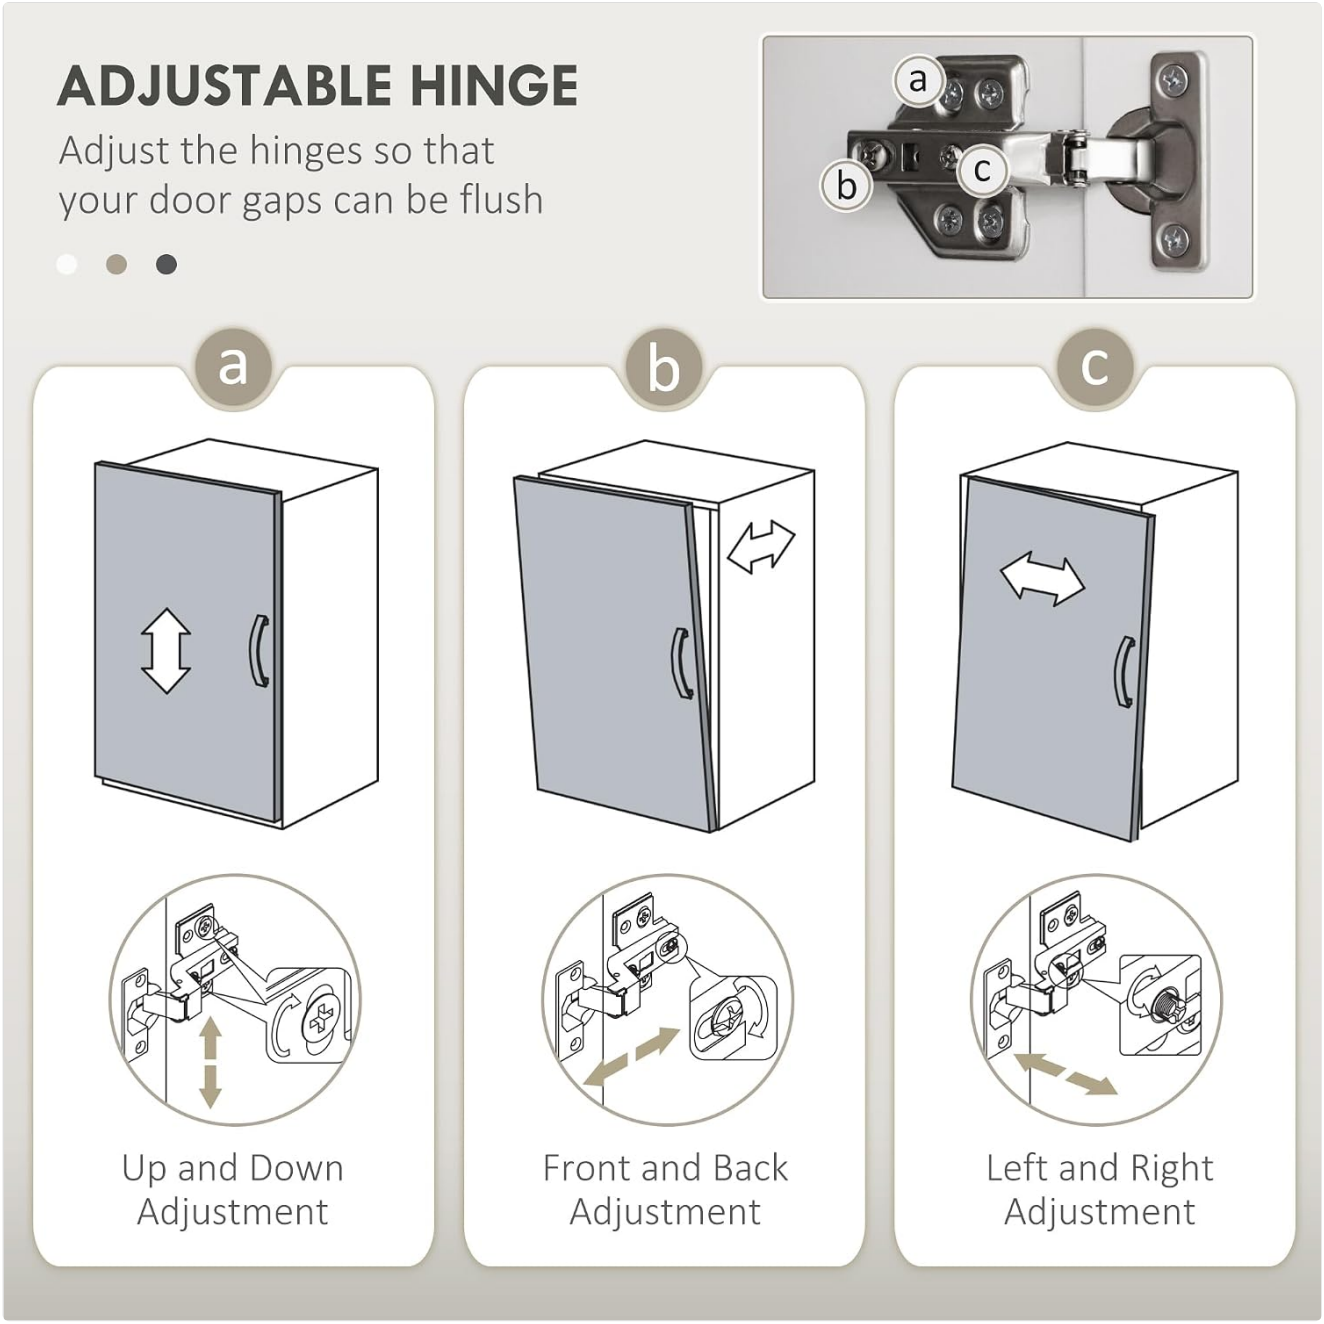

Image Description: A close-up view of the adjustable foot pads. Arrows indicate that the pads can be rotated to raise or lower the cabinet, ensuring stability on uneven floors.

Step 6: Secure Anti-Tipping Straps

For safety, attach the anti-tipping straps to the back of the cabinet and secure them to a wall stud using appropriate hardware. This step is crucial to prevent the cabinet from tipping over, especially in households with children or pets.

Image Description: This diagram illustrates the anti-tipping design, showing how a strap is secured to the top rear of the cabinet and then anchored to a wall to prevent accidental tipping.

Operating Instructions

Positioning the Cabinet

Place the assembled cabinet under your bathroom sink. The integrated 'U' cut-out is specifically designed to fit around the sink's pedestal or plumbing, allowing for a snug fit and maximizing space.

Image Description: This image demonstrates the cabinet's compatibility with different sink types. It shows how the 'U' cut-out allows the cabinet to fit under both pedestal sinks and sinks without a pedestal, highlighting the 20cm x 23cm cut-out dimensions.

Adjusting the Shelf

To adjust the internal shelf height, first remove any items from the shelf. Then, lift the shelf and reposition the shelf pins to the desired level. Finally, place the shelf back onto the pins, ensuring it is stable.

Maintenance

Cleaning

Wipe the cabinet surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents that may damage the high gloss finish or the melamine coating. For stubborn marks, use a mild soap solution and dry the surface immediately with a clean, dry cloth.

General Care

Regularly check all screws, fittings, and hinges to ensure they remain tight. Retighten as necessary to maintain the

cabinet's structural integrity. Avoid prolonged exposure to excessive moisture or direct sunlight to preserve the engineered wood material and finish.

Troubleshooting

Cabinet is Unstable

- Ensure the adjustable foot pads are properly leveled. Rotate them individually to achieve stability on uneven floors.
- Verify that the anti-tipping straps are securely fastened to the wall and the cabinet.

Doors are Misaligned

- Adjust the hinges as shown in the assembly section (Up/Down, Front/Back, Left/Right adjustments) to ensure the doors are flush, close properly, and operate smoothly.

Specifications

Feature	Detail
Brand	HOMCOM
Model Number	UK834-761V00WT
Color	High Gloss White, Dark Grey, Black
Overall Dimensions (L x W x H)	60W x 34D x 70H cm
'U' Cut-Out Size	20W x 23D cm
Suitable Basin Size	≤60W x 34D cm
Suitable Basin Type	Freestanding or Wall-mounted
Cabinet Inner Size	57W x 30D x 56H cm
Bottom Height to Floor	7.5 cm
Weight Capacity (Overall)	30 kg
Weight Capacity (Top)	10 kg
Weight Capacity (Shelf)	5 kg
Material	Particleboard (Engineered Wood)
Item Weight	14 kg

Warranty and Support

For warranty information and customer support, please refer to the contact details provided with your purchase documentation or visit the official HOMCOM website. Please retain your proof of purchase for any warranty claims.
