FirFurd P438

FirFurd Kitchen Cabinet with LED Buffet and Power Strip

Model: P438

Brand: FirFurd

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your FirFurd Kitchen Cabinet, Model P438. Please read all instructions carefully before assembly and use to ensure safe and proper functionality.

Safety Warnings

- Ensure the cabinet is securely fixed to the wall using the provided anti-tipping devices to prevent accidental tipping.
- Use the integrated power strip with caution. Do not overload it and avoid contact with water to prevent electrical hazards.
- Do not use the cabinet as a climbing aid.
- Avoid placing objects that exceed the specified weight capacity on shelves or in drawers to prevent damage or collapse.
- Keep small parts and packaging materials away from children.

Product Features

- **Versatile Storage:** Features glass display cabinets, a spacious bottom cabinet, and three convenient drawers for organizing various kitchen items.
- **Adjustable Shelving:** Interior shelves within the glass cabinets are adjustable to accommodate items of different heights. Each adjustable shelf supports approximately 10 kg. The bottom cabinet shelves support up to 20 kg each.
- **Integrated LED Lighting:** Warm LED lights illuminate the worktop, providing clear visibility and creating a pleasant ambiance.
- **Built-in Power Strip:** A certified power strip on the worktop includes 2 USB ports and 2 standard outlets, with a

maximum power capacity of 3600W, suitable for various appliances and charging devices.

- **Durable Construction:** Constructed from high-quality wood and tempered glass. The surface is waterproof and easy to clean.
- **Safety Mechanisms:** Equipped with anti-tipping devices for enhanced stability and safety.

Setup and Assembly

The FirFurd Kitchen Cabinet is designed for straightforward assembly. Please follow these steps carefully:

1. **Unpacking:** The product is delivered in 2 packages. Please wait until both packages have arrived before beginning assembly. Carefully unpack all components and verify against the parts list in your instruction manual.
2. **Preparation:** Clear a spacious area for assembly. Ensure you have the necessary tools (e.g., screwdriver, hammer).
3. **Follow Instructions:** Refer to the clear, step-by-step assembly instructions provided in the included manual. All parts are numbered for easy identification.
4. **Wall Anchoring:** Once assembled, securely attach the cabinet to the wall using the anti-tipping devices. This is a critical safety step.

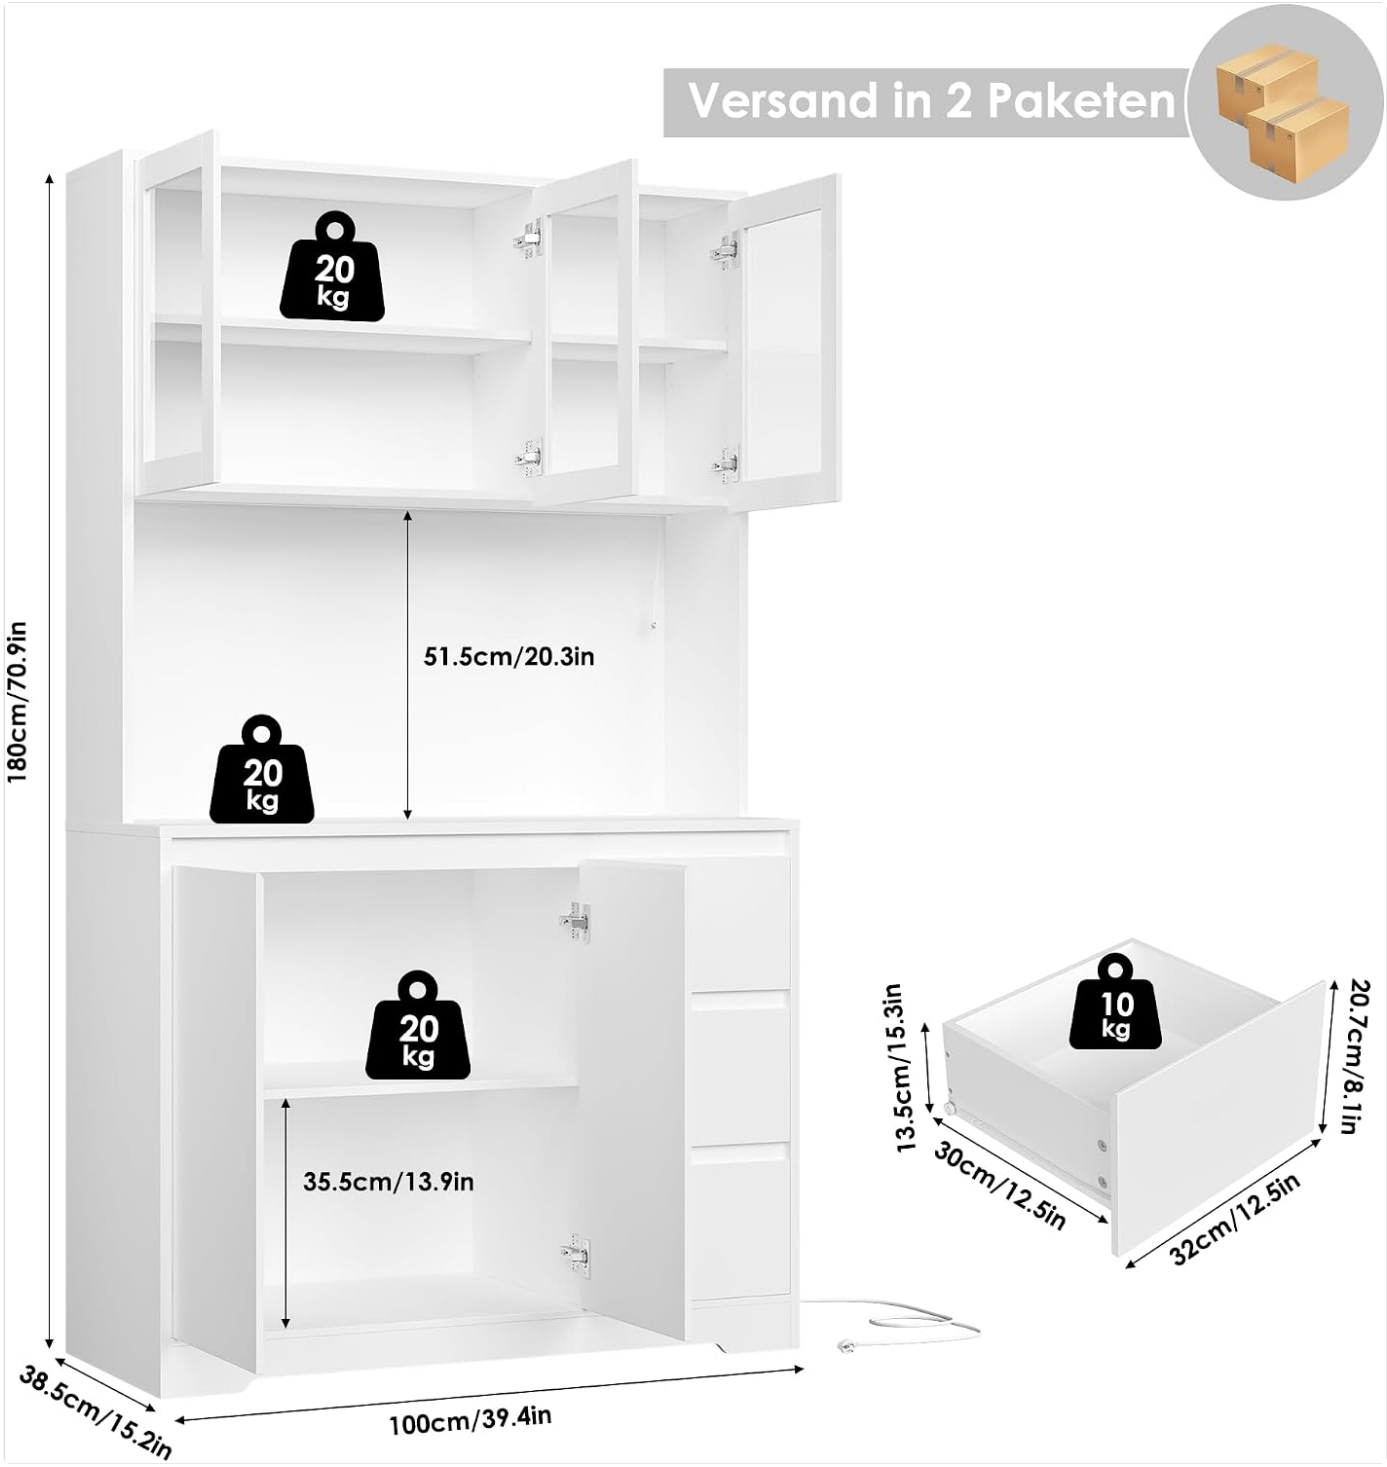

Figure 1: Dimensions and Weight Capacities. This diagram illustrates the overall dimensions of the cabinet (180cm height, 100cm width, 38.5cm depth) and the weight limits for different sections: 20kg for upper shelves, 20kg for lower shelves, and 10kg for each drawer.

Figure 2: Internal Storage View. This image shows the cabinet with its doors open, revealing the various storage compartments, including the adjustable shelves in the upper glass cabinets and the spacious lower cabinet, along with the three drawers.

Operating Instructions

Using the LED Lighting

The integrated LED lighting can be activated to illuminate the worktop area. This provides clear visibility for tasks and enhances the aesthetic appeal of your kitchen space. The warm light can also serve as a night light or table lamp.

Figure 3: LED Lighting Functionality. This image demonstrates the effect of the LED lighting, showing the cabinet with the lights off on the left and with the warm LED lights illuminating the work surface on the right.

Utilizing the Power Strip

The power strip located on the worktop provides convenient access to electrical outlets and USB charging ports. It includes 2 standard outlets and 2 USB ports. The maximum power capacity is 3600W.

- **Charging Devices:** Use the USB ports to charge mobile phones, tablets, and other electronic devices.
- **Powering Appliances:** The standard outlets can power small kitchen appliances such as coffee makers, toasters, or blenders, provided their combined wattage does not exceed 3600W.

Figure 4: Integrated Power Strip. A detailed view of the worktop area, highlighting the built-in power strip with two electrical outlets and two USB ports, shown with a coffee machine and a wireless charger in use.

Adjusting Shelves

The shelves within the glass display cabinets can be adjusted to different heights. To adjust, carefully remove the shelf, reposition the shelf supports to the desired height, and then place the shelf back onto the supports.

Maintenance and Care

To ensure the longevity and appearance of your FirFurd Kitchen Cabinet, follow these maintenance guidelines:

- **Cleaning:** The cabinet's surface is waterproof and easy to clean. Use a soft, damp cloth with a mild cleaner. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** Wipe up spills immediately to prevent staining or water damage, especially on the worktop. The back panel

helps protect the wall from splashes.

- **Hinges and Drawers:** The hinges are designed for smooth operation. Periodically check and tighten any loose screws on hinges or drawer slides if necessary.
- **LED Lights:** The LED lights are designed for long-term use. If a light fails, contact customer support for assistance. Do not attempt to replace the LED components yourself.

Troubleshooting

If you encounter any issues with your FirFurd Kitchen Cabinet, consider the following common solutions:

- **Assembly Difficulties:** If you struggle with assembly, re-check the instruction manual to ensure all steps are followed correctly and all parts are oriented properly. Verify that all numbered parts correspond to the diagram.
- **Wobbly Cabinet:** Ensure all screws are tightened. Confirm that the anti-tipping devices are securely installed and anchored to the wall. Uneven floors may require shims under the cabinet feet.
- **Power Strip Not Working:** Check if the power strip is properly plugged into a functional wall outlet. Ensure no circuit breakers have tripped. Do not exceed the maximum wattage of 3600W.
- **LED Lights Not Functioning:** Verify that the LED power cable is securely connected and plugged in. Check for any visible damage to the cable.
- **Drawers Sticking:** Ensure drawer slides are correctly installed and free from obstructions. Lubricate slides with a silicone-based lubricant if necessary.

For persistent issues or concerns not addressed here, please contact FirFurd customer support.
