Aoxun 8'x8' Hardtop Gazebo Instruction Manual

Model: IG402GR02A-MJ

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Aoxun 8'x8' Hardtop Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

Always follow the assembly instructions carefully. Ensure the gazebo is assembled on a stable, level surface. Do not exceed the weight limit of 44 lbs on the roof. Be cautious when handling sharp edges and heavy components during assembly and disassembly.

3. PRODUCT FEATURES

- **Double Top Galvanized Steel Roof:** Provides effective heat insulation and ventilation, creating a cooler space. The galvanized steel top is rust-resistant, fade-resistant, and durable, designed to withstand heavy weather conditions including snow and wind. The double-roof structure also enhances airflow.
- **Integrated Netting and Curtains:** Features netting with zippers and tracks for easy sliding, offering an open view and excellent ventilation. The curtains include three binding belts, providing privacy and warmth.
- **Multifunctional Top Design:** Equipped with hooks to facilitate hanging lights, fans, or other decorative items.
- **Sturdy Aluminum Frame:** Constructed with a thick, powder-coated aluminum frame for strong load-bearing capacity and increased wind resistance. Includes 4 ground piles and expansion screws for enhanced durability and safety.
- **All-Weather Use:** Designed for UV protection, waterproof performance, and snow resistance.

4. SETUP AND ASSEMBLY

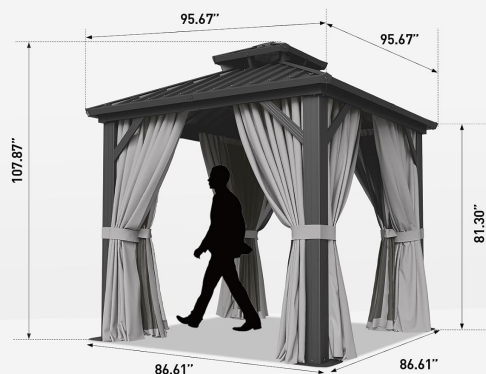

Assembly of the Aoxun Hardtop Gazebo typically requires 3-4 people and takes approximately 2-4 hours. Clear instructions and all necessary hardware are included with the product. It is recommended to sort and organize all parts before beginning assembly.

When assembling the roof panels, ensure they are oriented correctly by comparing screw hole placements with the manual's diagrams. Do not fully tighten screws until all components are in place to allow for minor adjustments.

Assembly Tips:

- Do not fully tighten all screws until the very end of the assembly process.
- Use two ladders and at least two people for assembly; three people are ideal.
- Set aside 1-2 hours to sort and organize all parts before starting construction.
- When assembling roof pieces, lay them out on the ground first for easier handling.
- Utilize a drill driver with the appropriate hex bit, set to a low setting to prevent stripping screws.

5. OPERATING INSTRUCTIONS

The gazebo is designed for versatile use, serving as an outdoor dining area, a gathering spot for social events, a relaxing lounge, or even a parking shed. The integrated netting and curtains offer flexible options for use:

- **Fully Open:** Retract both netting and curtains for maximum ventilation and an unobstructed view.
- **Half-Open (Netting Only):** Close the netting to keep insects out while maintaining airflow.
- **Fully Closed (Curtains and Netting):** Close both the netting and curtains for enhanced privacy and protection from elements like wind or light rain.

Image: The gazebo demonstrating its three operational modes: fully open for ventilation, half-open with netting for mosquito protection, and fully closed for privacy.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Aoxun Hardtop Gazebo, regular maintenance is recommended:

- **Cleaning:** Periodically clean the galvanized steel roof and aluminum frame with mild soap and water. Rinse thoroughly and dry to prevent water spots or residue buildup.
- **Fabric Care:** The netting and curtains can be cleaned according to their fabric care instructions. Ensure they are completely dry before storing or closing for extended periods to prevent mildew.
- **Hardware Check:** Regularly inspect all screws, bolts, and anchoring points to ensure they are secure. Tighten any loose fasteners as needed.
- **Snow Removal:** While the roof is designed to withstand snow, it is advisable to remove heavy snow accumulation to prevent excessive stress on the structure. Do not exceed the roof's weight limit of 44 lbs.

7. TROUBLESHOOTING

If you encounter any issues with your gazebo, consider the following common solutions:

- **Stability Issues:** Ensure the gazebo is installed on a level surface and all anchoring screws are properly secured. Check for any loose connections in the frame.
- **Water Leakage:** Verify that all roof panels are correctly installed and sealed. Inspect the drainage system for any blockages.
- **Curtain/Netting Malfunction:** Check the zipper and track for any obstructions or damage. Ensure the fabric is properly aligned within the tracks.
- **Missing Parts:** If any parts are missing upon delivery, contact customer support immediately.
