MAINTENANCE

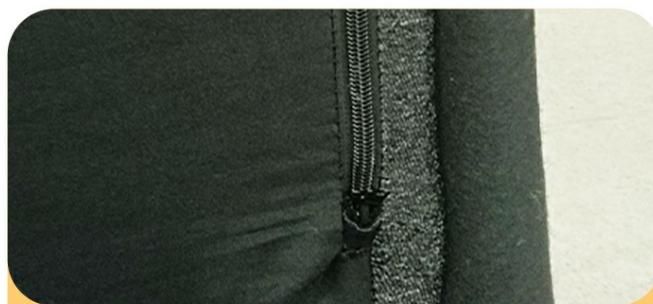

Cleaning:

For general cleaning, spot clean the linen fabric as needed. Use a mild detergent and a damp cloth, then blot dry. Avoid harsh chemicals or abrasive cleaners.

Cushion Button Maintenance:

If a cushion button becomes loose or falls off, it can be re-tied. There is a zipper on the back of the sofa bed backrest. Unzip it to access the button's attachment point and re-tie the button securely.

How to Solve the Problem of Falling Cushion Buttons?

1. There's a zipper on the back of the sofa bed backrest.

2. Unzipped it and re-tied the button.

TROUBLESHOOTING

Common Issues and Solutions:

Problem	Possible Cause	Solution
Cushion buttons becoming loose or falling off.	Normal wear and tear or stress on the button's thread.	Access the zipper on the back of the backrest, locate the loose button's thread, and re-tie it securely. Refer to the Maintenance section for detailed instructions.
Instability or wobbling when in use.	Improper placement or failure to engage anti-slip features. Exceeding weight limit.	Ensure the sofa bed is placed on a flat, stable surface. Always engage the anti-slip features on the support frame. Do not exceed the maximum weight recommendation of 550 lbs.
