Image: Contents of the STUDIOFINIX 8-inch Outdoor Rock Speaker package, including the speaker, power adaptor, charging cable, and user manual.

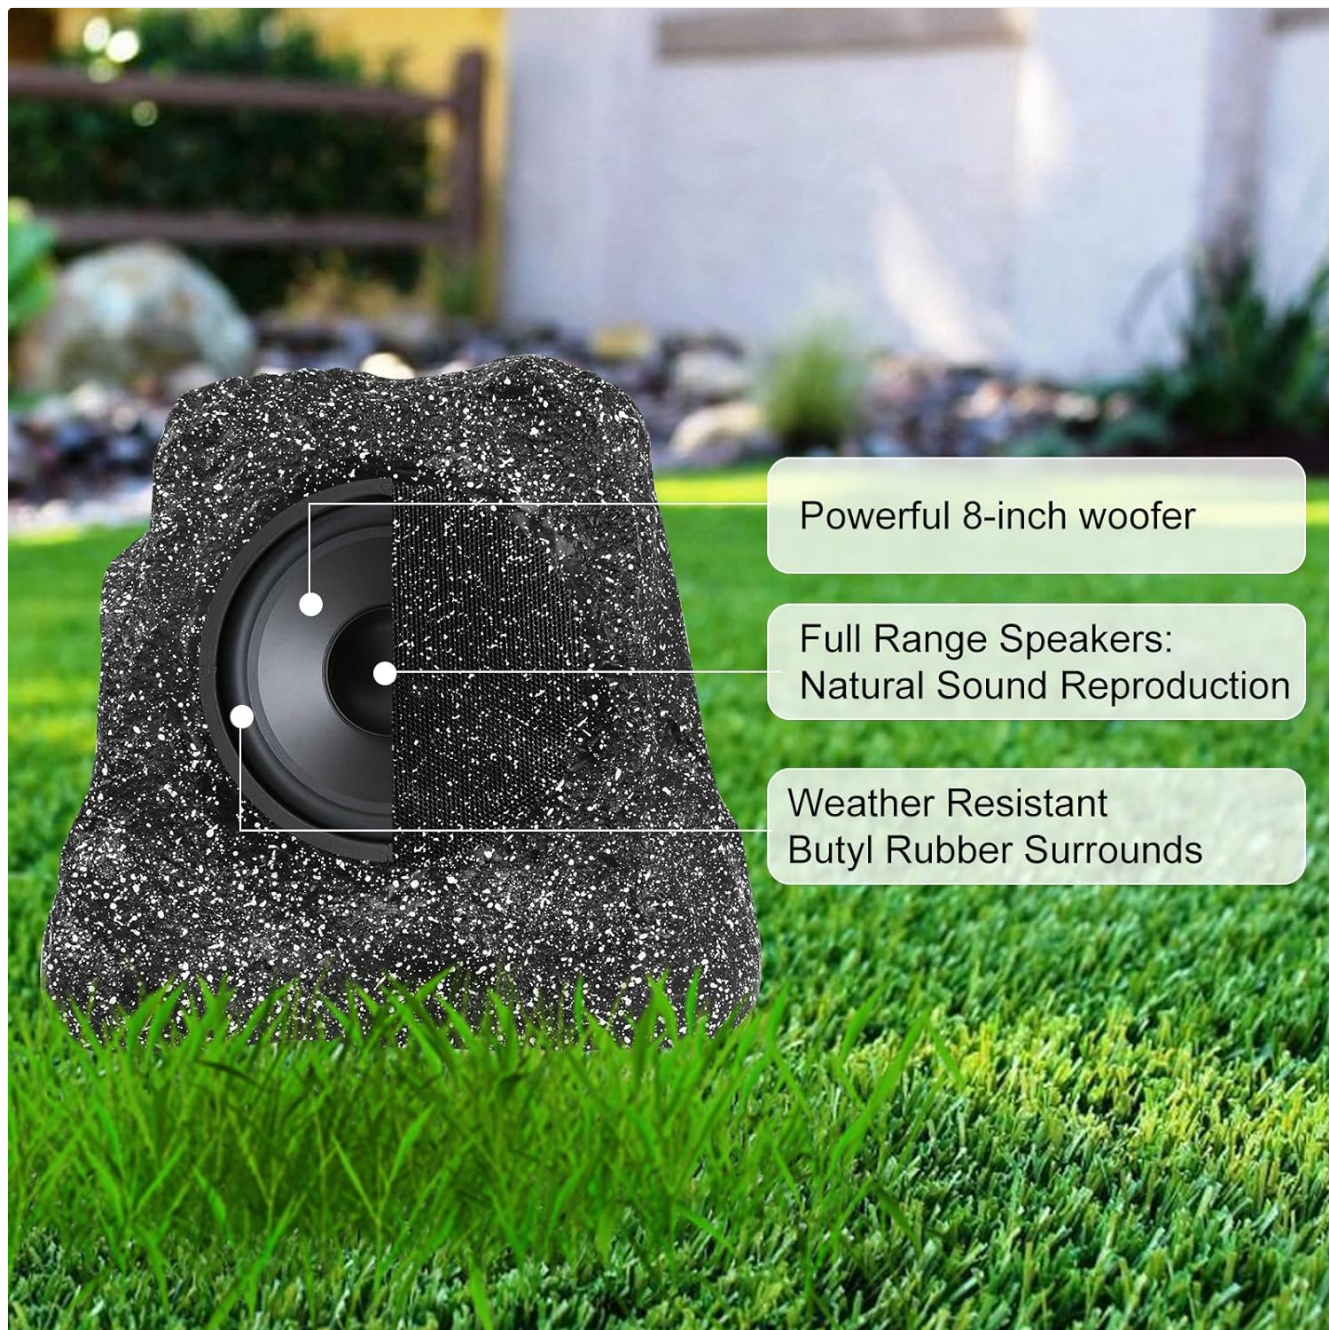

- Main Rock Speaker (1)
- USB A+C Power Adapter (1)
- 1M Fast Charging Cable (1)
- Instruction Manual (1)

KEY FEATURES

Solar & Type-C Rechargeable

The speaker is equipped with a high-performance battery that supports both solar and Type-C charging. Type-C charging takes approximately 4 hours for a full charge. Playback time varies based on volume and sunlight exposure:

up to 10 hours at 80% volume, 8 hours at maximum volume, and even longer at the lowest volume setting.

Bluetooth 5.3 & TWS Pairing

Utilizing Bluetooth 5.3, this speaker offers quick pairing and a stable connection up to 49 feet. It features True Wireless Stereo (TWS) mode, allowing you to sync two same-model speakers for an immersive stereo sound experience, ideal for larger outdoor spaces.

Seamless Connectivity within 49 Feet

Keep music smooth via Bluetooth, anytime, anywhere.

SETUP GUIDE

1. Initial Charging

Before first use, it is recommended to fully charge the speaker using the provided USB A+C Power Adapter and 1M Fast Charging Cable. A full charge via Type-C takes approximately 4 hours. The speaker will also charge via its solar panel when exposed to direct sunlight.

2. Powering On/Off

Locate the control panel on the back of the speaker. Press and hold the Power button  for 3 seconds to turn the speaker on or off. A sound indicator will confirm the power status.

3. Bluetooth Pairing

1. Ensure the speaker is powered on and in Bluetooth pairing mode (indicated by a flashing blue LED).
2. On your device (smartphone, tablet, etc.), enable Bluetooth and search for available devices.
3. Select "STUDIOFINIX Rock Speaker" from the list.
4. Once connected, the LED indicator will turn solid blue, and you will hear a confirmation tone.

4. TWS (True Wireless Stereo) Pairing (for two speakers)

To achieve stereo sound with two STUDIOFINIX 8-inch Rock Speakers:

1. Turn on both speakers. Do not connect either speaker to your Bluetooth device yet.
2. On one speaker (this will be your primary speaker), double-press the Bluetooth button (⏻). It will enter TWS pairing mode.
3. The two speakers will automatically search for and connect to each other. You will hear a confirmation tone once TWS pairing is successful.
4. Now, connect your Bluetooth device to the primary speaker as described in step 3. Both speakers will play audio in stereo.

OPERATING INSTRUCTIONS

Volume Control

Adjust the volume directly from your connected Bluetooth device (smartphone, tablet, etc.).

Playback Control

Control music playback (play, pause, skip tracks) directly from your connected Bluetooth device.

Placement

For optimal solar charging, place the speaker in an area that receives direct sunlight for several hours a day. The realistic rock design allows it to blend naturally into garden beds, by pools, or on patios.

MAINTENANCE

- **Cleaning:** Wipe the speaker with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Solar Panel:** Periodically clean the solar panel surface to ensure maximum charging efficiency. Dust and debris can reduce its effectiveness.
- **Storage:** If storing the speaker for an extended period, ensure it is fully charged. Store in a cool, dry place away from extreme temperatures.
- **Battery Care:** To prolong battery life, avoid completely draining the battery frequently. Recharge the speaker regularly, especially if not used for long periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not power on.	Low battery.	Charge the speaker using the Type-C cable or place it in direct sunlight.

Problem	Possible Cause	Solution
Cannot pair via Bluetooth.	Speaker not in pairing mode; device Bluetooth off; too far from speaker.	Ensure speaker is in pairing mode (flashing blue LED). Turn on Bluetooth on your device. Move device closer to speaker (within 49 ft).
No sound or low volume.	Volume too low on speaker or device; speaker not connected.	Increase volume on both the speaker (via connected device) and your audio source. Re-establish Bluetooth connection.
TWS pairing fails.	Speakers already connected to a device; incorrect pairing sequence.	Ensure both speakers are disconnected from any Bluetooth devices. Follow TWS pairing steps precisely.
