MOFII B0DR2NLFYW

MOFII Bluetooth Wireless Keyboard User Manual

Model: B0DR2NLFYW

INTRODUCTION

This manual provides instructions for the MOFII Bluetooth Wireless Keyboard, Model B0DR2NLFYW. This keyboard is designed for multi-device compatibility, featuring a retro typewriter-style design with round keys and Bluetooth 5.1 connectivity.

Please read this manual thoroughly before using the product to ensure proper operation and to prevent damage.

PACKAGE CONTENTS

- MOFII Bluetooth Wireless Keyboard
- User Manual
- Keycap Puller (for maintenance)

SETUP

1. Battery Installation

The keyboard requires batteries for operation. Locate the battery compartment on the underside of the keyboard. Insert the required batteries, ensuring correct polarity.

Type On / Click With The Best Comfort Experience

Image: Underside of the MOFI keyboard, showing the battery compartment and adjustable feet.

2. Adjusting Keyboard Angle

For ergonomic comfort, you can adjust the keyboard's typing angle. Flip the keyboard over and extend the two small feet located at the top corners of the underside.

Refer to the image above for the location of the adjustable feet.

3. Pairing with Devices (Bluetooth)

The MOFI Bluetooth Wireless Keyboard supports connecting up to three Bluetooth devices simultaneously. Follow these steps to pair your keyboard:

1. Ensure the keyboard is powered on.
2. Press and hold one of the Bluetooth channel buttons (BT1, BT2, or BT3) for 3 seconds until the indicator light flashes, indicating pairing mode.
3. On your device (iPad, Laptop, PC, Mac, Smartphone), navigate to Bluetooth settings.
4. Search for "CANDY BT" or a similar device name and select it to connect.
5. Once connected, the indicator light for the selected channel will stop flashing and remain solid.

One Step Pair

Connecting to 3 Devices at the same time

Press One Of Bluetooth
Buttons For 3 Seconds

OPERATING INSTRUCTIONS

1. Switching Between Connected Devices

To switch between your three paired Bluetooth devices, simply press the corresponding BT1, BT2, or BT3 button. The keyboard will automatically connect to the selected device.

2. Keyboard Layout and Special Functions

The keyboard features a full-size layout with round, retro-style keys. It includes standard alphanumeric keys, a numeric keypad, and function keys (F1-F12) with additional multimedia and system control functions accessible via the Fn key.

Full Size Universal Keyboard

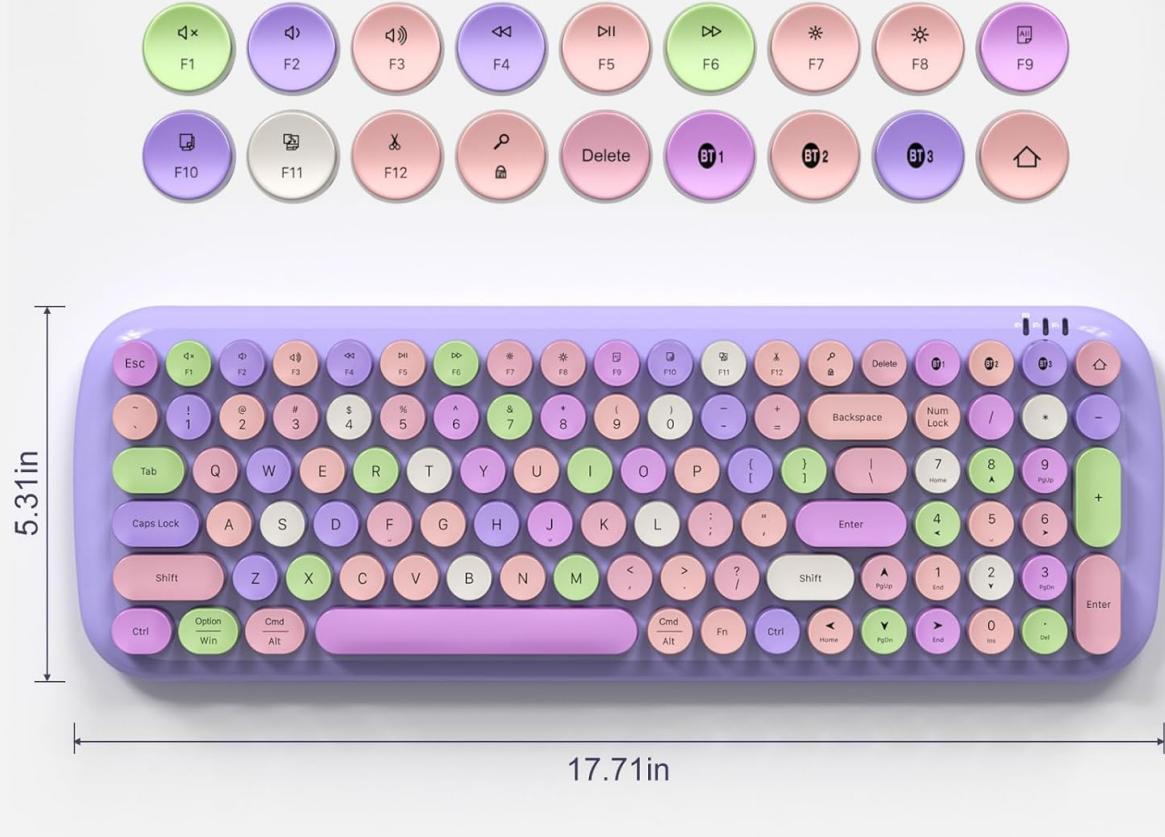

Image: Overview of the full-size MOFI keyboard layout, highlighting the function keys and their secondary actions.

3. Power Saving Mode

To conserve battery life, the keyboard will automatically enter sleep mode after 5 minutes of inactivity. To wake it up, press any key.

4. Compatibility

This keyboard is compatible with a wide range of operating systems and devices, including:

- Windows
- Mac OS
- iOS (iPad, iPhone)
- Android (Tablets, Smartphones)

Wireless Keyboard For Smart TV

Enjoy the TV Control with the keyboard up to 10m

MAINTENANCE

1. Cleaning the Keyboard

To clean the keyboard, gently wipe the surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.

2. Detachable Keycaps

The keycaps are detachable for easier cleaning. Use the provided keycap puller to carefully remove individual keycaps. Reattach them by aligning and pressing firmly until they click into place.

Image: A close-up view of the MOFI keyboard showing detachable keycaps and the keycap puller tool for easy cleaning.

3. Battery Replacement

When the keyboard's performance diminishes or it fails to power on, it may be time to replace the batteries. Open the battery compartment on the underside and replace with new batteries of the correct type and size.

TRROUBLESHOOTING

Keyboard Not Connecting/Pairing:

- Ensure the keyboard has fresh batteries and is powered on.
- Make sure Bluetooth is enabled on your device.
- Confirm the keyboard is in pairing mode (indicator light flashing) by pressing and holding a BT channel button for 3 seconds.
- Try unpairing and re-pairing the keyboard from your device's Bluetooth settings.
- Ensure the keyboard is within the 33-foot (10-meter) operating range of your device.

Keys Not Responding:

- Check battery level and replace if necessary.
- Ensure the keyboard is properly connected to your device.
- Clean under the keycaps if debris is suspected to be interfering with key presses.

Keyboard Enters Sleep Mode Too Quickly:

- This is a power-saving feature. Press any key to wake the keyboard. This setting is not user-adjustable.
