Care and Maintenance

To ensure the longevity and optimal performance of your TourBox Elite Plus, follow these care guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the device. Avoid harsh chemicals or abrasive materials.
- **Battery Replacement:** When the batteries are low, replace them with two fresh AA batteries. Ensure correct polarity.
- **Storage:** Store the device in its provided storage case when not in use to protect it from dust and damage.
- **Environment:** Avoid exposing the device to extreme temperatures, humidity, or direct sunlight.

Troubleshooting

If you encounter issues with your TourBox Elite Plus, consider the following:

- **Connectivity Issues:** Ensure Bluetooth is enabled on your host device and the TourBox is powered on. Try re-pairing the device. For wired connection, ensure the USB cable is securely connected.
- **Software Not Responding:** Restart the TourBox Console application and the creative software you are using. Check for any available software updates for both the console and your creative applications.
- **Buttons/Knobs Not Working:** Verify that the correct preset is active for your current application. Check the TourBox Console settings to ensure buttons are correctly assigned.
- **iPadOS Specific Issues:** Some users have reported occasional hiccups with certain iPadOS applications where shortcuts didn't trigger reliably. Re-pairing the device or restarting the application may resolve this.
