2. SETUP GUIDE

2.1 Unboxing and Initial Inspection

Upon receiving your Auusda laptop, carefully open the packaging and ensure all components are present and undamaged. The standard package includes the laptop, a universal 100-240V charger, and this user manual.

Figure 2.1: Main Product and Accessories

This image displays the Auusda laptop alongside its included accessories: the power adapter and the user manual, ready for initial setup.

2.2 Powering On and Operating System Setup

Connect the charger to the laptop and a power outlet. Press the power button to turn on the device. The laptop comes with Windows 11 Pro preinstalled. Follow the on-screen prompts to complete the initial setup, including

language selection, network connection, and user account creation.

This video demonstrates the initial setup steps for the Auusda laptop, including navigating the Windows 11 Pro installation and configuration screens.

3. OPERATING INSTRUCTIONS

3.1 Keyboard and Input

The laptop features a full-size keyboard with a numeric keypad for enhanced productivity. It also includes a backlit keyboard for comfortable typing in low-light conditions and a glass-like touchpad for precise navigation.

Backlit Keyboard Activation:

To adjust the brightness of the backlit keyboard, press the **"Fn"** key and then press the **"F5"** key 1-3 times. Each press cycles through different brightness levels. The fourth press will turn off the backlight.

Figure 3.1: Backlit Keyboard Activation

Fingerprint Reader:

For secure and quick login, the laptop is equipped with a fingerprint reader. Set up your fingerprint through Windows Hello in the system settings for one-touch access.

Figure 3.2: Fingerprint Reader Location

3.2 Display Features

The 15.6" Full HD (1920x1080) IPS screen offers vibrant visuals with a narrow 0.2-inch bezel. The 180-degree hinge allows for flexible viewing angles. The integrated UHD Graphics supports up to three 4K@60Hz external displays for expanded workspace.

Figure 3.3: Laptop with 180-degree Hinge

This image highlights the laptop's 180-degree hinge, demonstrating its flexibility for various viewing and working positions.

3.3 Connectivity and Ports

Your Auusda laptop provides versatile connectivity options for all your devices. It features dual-band 5GHz Wi-Fi (802.11ac/g/n) and Bluetooth 5.0 for wireless connections. Physical ports include:

- 2x USB 3.0 ports for high-speed data transfer.
- 1x MicroSD slot (supports up to 2TB).
- Mini HDMI output for connecting to external displays.
- 3.5mm audio jack for headphones or external speakers.
- DC 3.5mm power port for charging.

Video 3.2: Auusda Business Laptop Connectivity

This video highlights the connectivity options and ports available on the Auusda laptop, demonstrating its versatility for various peripherals and external displays.

3.4 Performance and Storage

The laptop is powered by an N95 processor (4C/4T, up to 3.40GHz) and comes with 16GB DDR4 memory, upgradable to 32GB. It includes a 1TB PCIe SSD for fast storage, which is upgradable to 8TB. An additional 2TB Micro SD card can also be used for expanded storage.

More Speed, Space, and Upgradeability

16GB
DDR4 RAM

With 16GB RAM, you have the capacity to run 50 extra apps than with 8GB RAM.

1TGB
M.2 NVMe

20x faster than a SATA SSD, a NVMe SSD can handle more write cycles and data.

32GB
+10TB

To achieve the best performance, you can boost your memory to DDR4 32GB and increase your storage to 8TB SSD + 2TB Micro SD Card.

Figure 3.5: Memory and Storage Upgrade Options

This graphic details the laptop's memory (16GB DDR4, upgradable to 32GB) and storage (1TB NVMe SSD, upgradable to 8TB SSD + 2TB Micro SD Card) capabilities.

Video 3.3: Auusda Laptop Performance Overview

This video showcases the performance capabilities of the Auusda laptop, including its processing power and suitability for various tasks like gaming.

3.5 Battery Management

The laptop is equipped with an 8000mAh, 61.6Wh battery for extended use. To maximize battery life, adjust power settings in Windows 11 Pro, reduce screen brightness, and close unnecessary applications when not in use. For optimal battery health, avoid frequently discharging the battery completely.

4. MAINTENANCE

4.1 Cleaning and Care

To keep your laptop in optimal condition, regularly clean the screen with a microfiber cloth and a screen-safe cleaning solution. Use a soft, dry cloth to wipe down the keyboard and chassis. Avoid using harsh chemicals or abrasive materials. Ensure the cooling fan vents are clear of dust and debris to maintain efficient cooling.

16GB+1TB 4-Core CPU Fan Cooling 15.6'' FHD

More Efficiency, More Silence

Experience peak performance with the built-in silent fan cooling technology, ensuring optimal temperatures for your Intel Processor N95 and Intel UHD Graphics.

Figure 4.1: Built-in Cooling Fan

This image highlights the laptop's built-in cooling fan system, which helps maintain optimal temperatures during operation.

4.2 Software Updates

Regularly check for and install Windows updates to ensure your system has the latest security patches and performance improvements. You can find update options in the Windows Settings menu.

4.3 Storage Management

While the laptop comes with a generous 1TB SSD, you can expand storage further. Consider regularly backing up important data to external drives or cloud storage. For physical upgrades, consult a professional or refer to detailed upgrade guides available online to ensure proper installation of additional SSDs or Micro SD cards.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Auusda laptop. For more complex problems, please refer to the support section.

Problem	Possible Cause	Solution
Laptop does not power on.	Low battery, faulty charger, or power issue.	Ensure charger is securely connected and power outlet is functional. Allow laptop to charge for at least 30 minutes before attempting to power on again.
Screen is blank or flickering.	Display driver issue, external display conflict, or hardware problem.	Restart the laptop. If connected to an external display, disconnect it. Update display drivers via Windows Update or Auusda support website.
Wi-Fi connection issues.	Incorrect Wi-Fi password, router issue, or driver problem.	Verify Wi-Fi password. Restart your router and laptop. Check Wi-Fi drivers in Device Manager.
Keyboard backlight not working.	Backlight feature is off or brightness is set to minimum.	Press **Fn + F5** repeatedly to cycle through brightness levels and turn on the backlight.
