3. Product Overview

Familiarize yourself with the main components of your NETVUE Peekababy Baby Camera:

Figure 3.1: NETVUE Peekababy Baby Camera and App Interface

- **Camera Unit:** Contains the lens, microphone, speaker, and sensors.
- **Flexible Arm:** Allows for versatile positioning and mounting.
- **Base/Mounting Clamp:** Provides stability for desktop use or attachment to cribs/surfaces.
- **USB-C Port:** For power connection.
- **MicroSD Card Slot:** For local video storage (card not included).

4. Setup

4.1 Mounting Options

The NETVUE Peekababy camera offers versatile installation options to suit various environments:

- **Wall Mount:** Securely attach the camera to a wall using the provided hardware.
- **Desktop Placement:** Use the flexible arm to position the camera on any flat surface.
- **Crib Clip:** Attach the camera directly to the crib railing using the adjustable clamp.
- **Winding Mount:** Utilize the flexible arm to wrap around poles or other structures for unique angles.

4.2 Power Connection

1. Connect the USB-C cable to the camera's USB-C port.
2. Connect the other end of the cable to the USB-A wall plug.
3. Plug the wall plug into a standard power outlet. The camera will power on automatically.

4.3 App Download and Initial Pairing

1. Download the "Netvue Next - In Sight In Mind" app from your device's app store (Google Play Store for Android or Apple App Store for iOS).
2. Create a new account or log in with an existing one.
3. Follow the in-app instructions to add your new Peekababy camera. This typically involves scanning a QR code on the camera or manually selecting the device type and following prompts for Wi-Fi connection.
4. Ensure your Wi-Fi network is 2.4GHz, as the camera may not support 5GHz networks.

5. Operating Instructions

5.1 Live View and Monitoring

Once paired, open the Netvue app to access the live video feed from your camera. You can monitor your baby in real-time from anywhere.

5.2 Two-Way Talk

Use the two-way talk feature to communicate with your baby or comfort them remotely.

1. On the live view screen, tap the microphone icon.
2. Speak into your phone's microphone. Your voice will be transmitted through the camera's speaker.
3. Tap the microphone icon again to end the two-way talk session.

Figure 5.1: Two-Way Talk Functionality

5.3 Lullabies and Night Vision

The camera includes pre-set lullabies to soothe your baby and clear night vision for monitoring in low-light conditions.

- **Lullabies:** Access the lullaby feature within the app to play soothing sounds.
- **Night Vision:** The camera automatically switches to night vision mode in low light, providing a clear black-

and-white image.

Figure 5.2: Lullaby and Night Vision Features

5.4 Temperature and Humidity Monitoring

The camera provides real-time environmental insights, including temperature and humidity, to ensure your baby's comfort.

- View the temperature and humidity readings directly on the app's live view screen.

Figure 5.3: Temperature & Humidity Detection

5.5 Sleep Analysis and Notifications

The camera tracks sleep quality (wakefulness, light sleep, deep sleep) and provides instant notifications for crying or hunger signals.

- Access sleep analysis reports within the app.
- Enable push notifications for crying detection and other alerts in the app settings.

5.6 Storage Options

The NETVUE Peekababy camera supports both local and cloud storage for recording precious moments.

- **MicroSD Card:** Insert a MicroSD (TF) card (not included) into the camera's slot for continuous local recording.
- **Cloud Storage:** Optional cloud storage plans are available for 30-day retention of recorded events (subscription may be required for full features).

Figure 5.4: Archiving Precious Moments

5.7 Sharing Access

Share live stream access with family and friends, allowing up to 20 people to view simultaneously.

- Use the sharing feature within the Netvue app to invite others to view your camera feed.

6. Maintenance

Proper maintenance ensures the longevity and optimal performance of your NETVUE Peekababy camera.

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using harsh chemicals or abrasive materials.
- **Cable Management:** Ensure the power cable is routed safely and out of reach of children to prevent choking hazards. Utilize the anti-winding cable slot design on the mount.
- **Software Updates:** Regularly check the Netvue app for firmware updates for your camera to ensure you have the latest features and security enhancements.

7. Troubleshooting

If you encounter issues with your NETVUE Peekababy camera, refer to the following common solutions:

Problem	Possible Cause	Solution
Camera offline/Cannot connect to Wi-Fi	Incorrect Wi-Fi password; Camera too far from router; Router is 5GHz only.	Verify Wi-Fi password; Move camera closer to router; Ensure router supports 2.4GHz.
No video feed	Camera not powered on; App issue.	Check power connection; Restart camera; Restart app.
Two-way audio not working	Microphone/speaker permissions not granted; Volume too low.	Check app permissions in phone settings; Adjust volume in app.
Notifications not received	App notifications disabled; Feature not enabled.	Enable notifications in app and phone settings; Ensure motion/sound detection is active.

For further assistance, please refer to the support information provided in your package or visit the NETVUE official website.
