## OPERATING INSTRUCTIONS: STRAWBERRY CAKE SLIME CREATION

Follow these steps to create your realistic strawberry cake slime:

1. **Unpack:** Carefully remove all components from the packaging. Lay out the included tablecloth to protect your work surface.
2. **Prepare the Base:** Take the pastry crust slime and shape it into a round cake base.
3. **Add Cream Filling:** Use the cream filling slime to create a layer on top of your pastry crust base. You can use the provided knife or your fingers to spread it evenly.
4. **Apply Strawberry Jam:** Gently pour or spread the strawberry jam slime over the cream filling. Allow it to naturally drip down the sides for a realistic effect.
5. **Mold Strawberries:** Take a small portion of the red slime and press it into the strawberry mold. Carefully remove the molded strawberries.

6. **Decorate:** Place the molded strawberries on top of your cake. You can also add small green stems if included.
7. **Squish and Play:** Once your creation is complete, enjoy the satisfying squishy texture. You can gently squish and stretch your slime cake.

To keep your Slime Mart creations clean and in good condition:

- **Cleaning Slime Residue:** Any residue from the slime can typically be rubbed off surfaces or dissolved in warm water.
- **Storage:** Store slime in its original containers or airtight containers to prevent it from drying out.
- **Hand Washing:** Wash hands thoroughly with soap and water after playing with slime.

## TROUBLESHOOTING

If you encounter any issues with your Slime Mart kit, consider the following:

- **Slime is too sticky:** If your slime becomes overly sticky, add a small amount of the provided slime activator. Mix thoroughly until the desired consistency is achieved. Do not add too much at once.
- **Slime is too stiff/dry:** If the slime feels too stiff, try kneading it with warm hands for a few minutes. A very small drop of water can sometimes help, but use sparingly.
- **Missing components:** Double-check the packaging. If a component is genuinely missing, please contact customer support.
