SETUP

Before beginning, ensure your workspace is prepared and all components are ready.

1. Unpack all components from the Slime Mart Small Basket Pizza Slime Kit.
2. Lay out the provided tablecloth on a clean, flat surface to protect your workspace.
3. Ensure all slime ingredients and tools are within easy reach.

OPERATING INSTRUCTIONS: CREATING YOUR SLIME PIZZA

Follow these steps to create your realistic slime pizza:

1. **Prepare the Dough:** Remove the dough slime from its packaging. Knead the dough until it is soft and pliable. Shape it into a round ball.
2. **Form the Pizza Base:** Press the dough ball onto a flat surface, flattening it into a circular pizza base. Create a raised edge for the crust.
3. **Add the Eggs (Slime):** Carefully crack the egg slime into the center of the dough base. Mix the egg slime into the dough to create a unique texture.
4. **Apply Charring Powder:** Use the provided brush and charring powder to lightly dust the edges of the pizza crust for a baked appearance. Tap off any excess powder before applying.
5. **Spread Tomato Puree:** Using the plastic knife, spread the tomato puree slime evenly over the pizza base, leaving the crust clear.
6. **Add Parmesan Cheese:** Place small pieces of parmesan cheese slime over the tomato puree.
7. **Arrange Pepperoni:** Place the pepperoni slime pieces on top of the cheese.
8. **Garnish with Basil:** Add the basil slime pieces as a final garnish.

9. **Drizzle Olive Oil:** Lightly drizzle the olive oil slime over the assembled pizza.

10. **Activate Slime (if needed):** If the slime becomes too sticky, add a small amount of slime activator and knead until the desired consistency is achieved.

Video: Official ZURU Slime Mart video demonstrating the creation and play with the Pizza Slime Kit. Duration: 3 minutes 20 seconds.

MAINTENANCE

To maintain the quality of your slime, store it in an airtight container after each use. This prevents drying and preserves its texture. Residue from the slime can be rubbed off surfaces or dissolved in warm water for easy cleanup.

TROUBLESHOOTING

- **Slime is too sticky:** Add a few drops of the provided slime activator and knead thoroughly until the desired non-sticky consistency is achieved.
- **Slime is too stiff:** If the slime feels too stiff, try kneading it with warm hands for a few minutes to soften it. A very small amount of water can also be added, but sparingly.

- **Slime has residue on surfaces:** Rub off any residue or use warm water to dissolve and clean the affected area.

SPECIFICATIONS

Feature	Detail
Product Dimensions	4.06 x 4.06 x 7.87 inches
Item Weight	1 pounds
Item Model Number	15905
Manufacturer	ZURU
Manufacturer Recommended Age	6 years and up
Release Date	June 1, 2025

WARRANTY AND SUPPORT

For warranty information or product support, please contact Slime Mart customer service through the official ZURU website or your retailer's support channels. Keep your purchase receipt for proof of purchase.
