Jusgym WR01

Jusgym 2-Pack 2x4ft Wall Mounted Garage Shelving

Model: WR01

Introduction **Safety Information** **Package Contents** **Setup & Installation** **Operating Instructions** **Maintenance** **Troubleshooting** **Specifications** **Warranty & Support**

1. Introduction

This manual provides detailed instructions for the assembly, installation, and proper use of your Jusgym 2-Pack 2x4ft Wall Mounted Garage Shelving. Designed for durability and efficient space organization, these heavy-duty steel shelves are suitable for various environments including garages, warehouses, and utility rooms. Please read this manual thoroughly before installation and retain it for future reference.

Image 1.1: Overview of the Jusgym 2-Pack 2x4ft Wall Mounted Garage Shelving.

2. Safety Information

Always prioritize safety during installation and use. Failure to follow these instructions may result in injury or damage to the product or property.

- **Weight Capacity:** Each 2x4ft shelf has a maximum capacity of 250 lbs (evenly distributed). Do not exceed this limit. The combined capacity for the 2-pack is 500 lbs.
- **Wall Type:** These shelves are designed for installation on wood studs or solid walls (concrete/brick). They are **not suitable for metal walls** or drywall without proper stud support.
- **Secure Installation:** Ensure all anchors and screws are securely fastened into appropriate wall structures. For concrete or brick walls, use expansion anchors (provided).
- **Tools:** Use appropriate tools for drilling and fastening. Wear safety glasses during drilling.
- **Leveling:** Use a bubble level to ensure shelves are installed horizontally to prevent items from sliding off.
- **Children:** Keep children away from the installation area. Do not allow children to climb on the shelves.

3. Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

Component	Quantity
2x4ft Shelf Units	2
Mounting Brackets	4
Large Hooks	2
Small Hooks	6
Installation Template	1
Bubble Level	1
Mounting Hardware (screws, expansion anchors)	1 Set

Image 3.1: Illustration of the two 2x4ft shelf units, each capable of holding 250 lbs.

4. Setup & Installation

Follow these steps for a secure and efficient installation of your Jusgym wall-mounted shelving. A single person can complete the installation with the provided tools.

Required Tools (Not Included):

- Drill
- Drill bits appropriate for your wall type and hardware
- Pencil
- Measuring Tape

Installation Steps:

1. **Plan Placement:** Determine the desired location for your shelves. Ensure there are no electrical wires or plumbing

behind the drilling points.

2. **Mark Drilling Points:** Use the provided Installation Template and Bubble Level to accurately mark the drilling points on the wall. The template assists in precise hole positioning.
3. **Drill Holes:** Drill pilot holes at the marked locations. For wood studs, use appropriate wood screws. For concrete or brick walls, use the provided expansion anchors and drill bits suitable for masonry.
4. **Install Brackets:** Securely attach the mounting brackets to the wall using the provided hardware. Ensure they are level and firmly attached.
5. **Attach Shelves:** Place the shelf units onto the installed brackets. The shelves feature a groove design and shelf locks for enhanced stability. Secure the shelves to the brackets using the remaining hardware.
6. **Install Hooks:** Attach the large and small hooks to the underside of the shelves as desired for additional hanging storage.

5. Operating Instructions

Once installed, your Jusgym wall-mounted shelves are ready for use. Follow these guidelines for optimal performance and longevity.

- **Loading:** Distribute weight evenly across the shelf surface. Avoid concentrating heavy items in one small area.
- **Capacity:** Do not exceed the 250 lbs per shelf capacity. Overloading can compromise stability and safety.
- **Hook Usage:** Utilize the 2 large and 6 small hooks for hanging items such as garden tools, sports gear, extension cords, and other accessories. Ensure items hung on hooks do not exceed the shelf's overall weight capacity or obstruct access.
- **Placement:** Store heavier items on lower shelves if possible, and lighter items on higher shelves for better balance

and safety.

Image 5.1: The versatile hooks provide additional storage for various items.

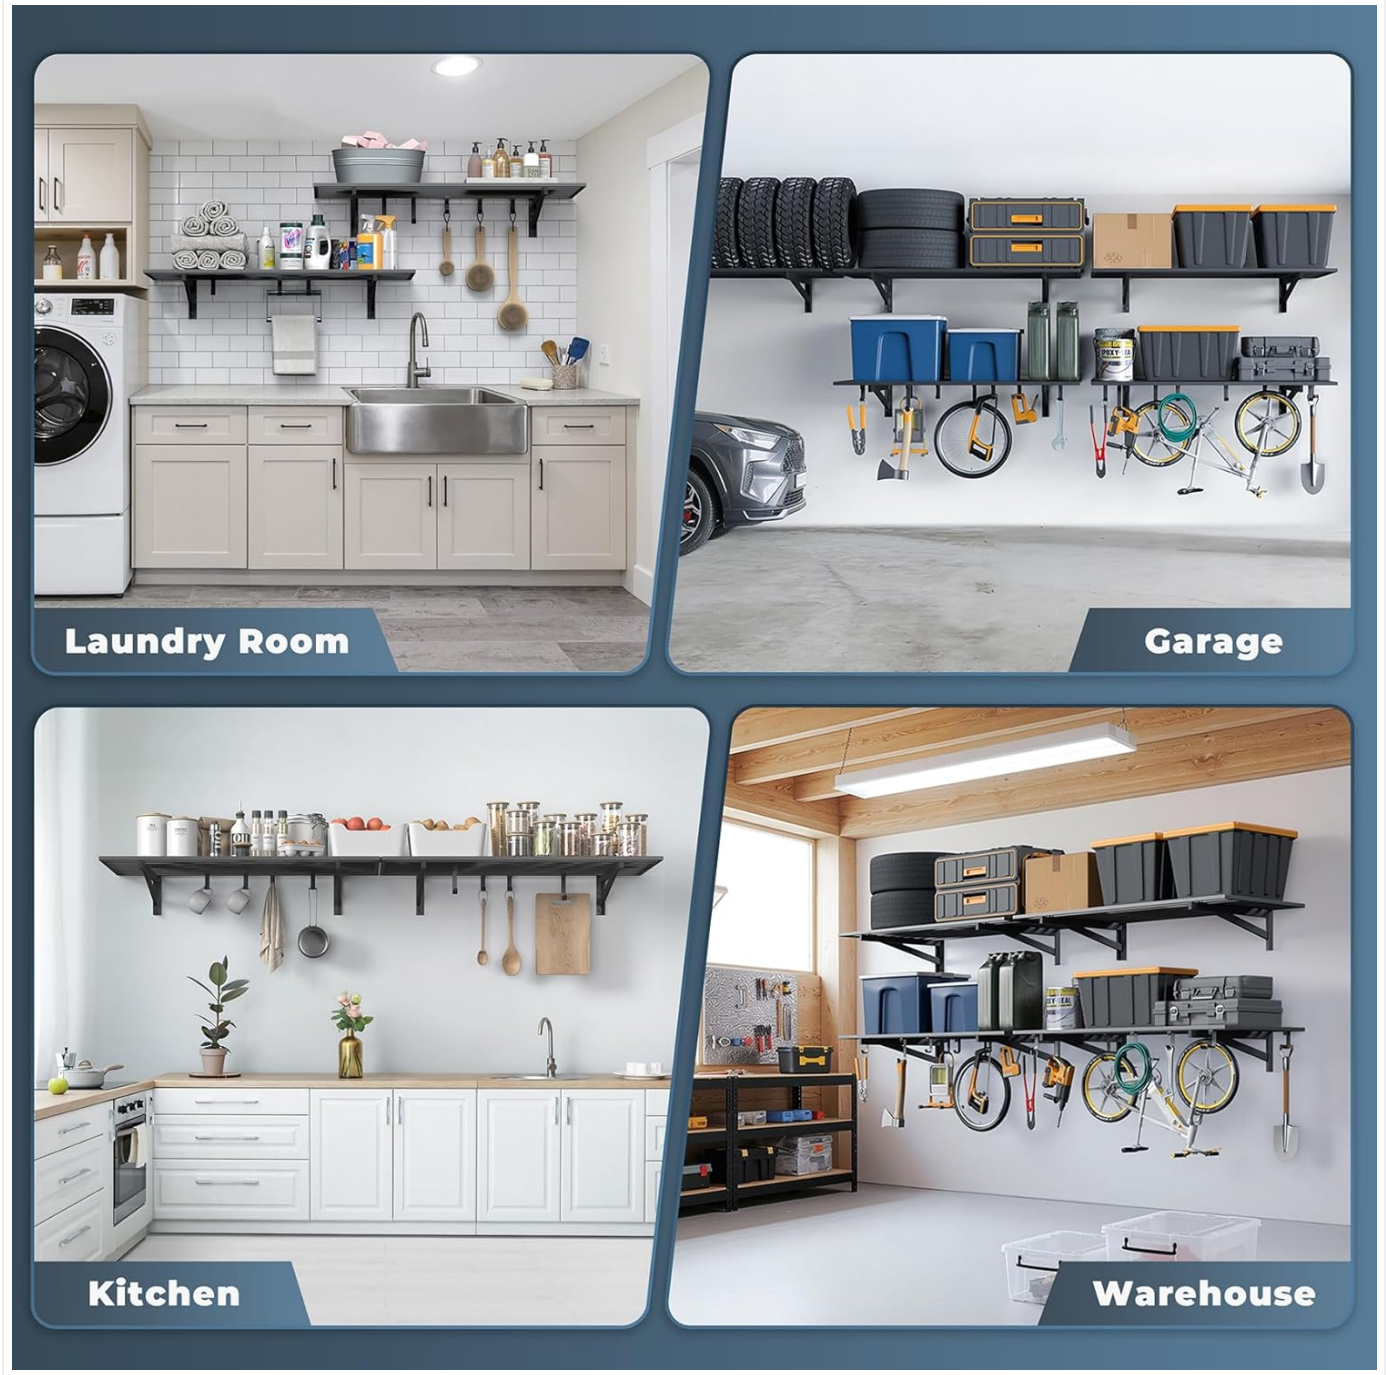

Image 5.2: The shelving is suitable for organizing items in various spaces such as laundry rooms, garages, kitchens, and warehouses.

6. Maintenance

Regular maintenance will help preserve the condition and functionality of your Jusgym garage shelving.

- **Cleaning:** Wipe down the shelves with a damp cloth and mild detergent as needed. Avoid abrasive cleaners that could damage the powder-coated finish.
- **Inspection:** Periodically check all mounting hardware to ensure screws and anchors remain tight. Retighten if necessary.
- **Damage:** Inspect the steel frame and shelves for any signs of damage, rust, or bending. If significant damage is observed, discontinue use and contact customer support.
- **Environment:** While durable, these shelves are designed for indoor use. Avoid prolonged exposure to extreme moisture or corrosive chemicals.

7. Troubleshooting

If you encounter issues with your shelving unit, refer to the following common solutions:

Problem	Possible Cause	Solution
Shelf feels unstable or wobbly	Loose mounting hardware; incorrect wall type; uneven installation.	Ensure all screws and anchors are tightened. Verify installation on wood studs or solid concrete/brick walls. Use a bubble level to check for evenness and adjust if needed.
Shelf sags or bends under load	Exceeding weight capacity; uneven weight distribution.	Reduce the load on the shelf to below 250 lbs. Redistribute items evenly across the shelf surface.
Hooks do not stay in place	Improper hook attachment; hooks are overloaded.	Ensure hooks are correctly seated in the shelf's grid. Reduce the weight of items hung on hooks.

If the problem persists or is not listed here, please contact Jusgym customer support for assistance.

8. Specifications

Feature	Detail
Model Number	WR01
Material	Alloy Steel
Color	Black
Product Dimensions (D x W x H)	23.62"D x 46.06"W x 11.1"H
Number of Shelves	2
Shelf Weight Capacity	250 Pounds (per shelf)
Total Weight Capacity	500 Pounds (for 2-pack)
Mounting Type	Wall Mount
Room Type	Garage
Indoor/Outdoor Usage	Indoor
Finish Type	Powder Coated
Required Assembly	Yes
Item Weight	26 Pounds
