3.2 SD Card Insertion

1. Locate the SD card slot, usually near the battery compartment or on the side.
2. Insert the 32GB SD card with the metal contacts facing the correct direction until it clicks into place.
3. To remove, gently push the card until it springs out.

3.3 Initial Power On

Press and hold the power button (usually on the top) for a few seconds until the screen illuminates and displays "Welcome".

4. OPERATING INSTRUCTIONS

4.1 Basic Photography

1. **Power On:** Press and hold the power button.
2. **Focus:** Half-press the shutter button to activate autofocus. The focus frame will turn green when focused.
3. **Capture Photo:** Fully press the shutter button to take a picture.
4. **Zoom:** Use the 'W' (Wide) and 'T' (Telephoto) buttons to zoom in and out. The camera supports 18X digital zoom.

Autofocus Camera

Half-press the shutter button for autofocus

Video 2: Demonstration of camera functions including photo and video modes, zoom, and menu navigation.

4.3 Menu Navigation and Settings

1. **Access Menu:** Press the 'MENU' button to enter the settings menu.
2. **Navigate:** Use the directional buttons (Up, Down, Left, Right) to scroll through options.
3. **Select:** Press the 'OK' button to select an option.
4. **Exit Menu:** Press the 'MENU' button again to exit.

Adjust settings such as photo resolution (up to 64MP), timed shooting (3/5/10/20S), continuous shooting, loop recording, and various creative filters (20 options available).

20 Filter Effects

A wide variety of filter styles

Figure 6: Various filter effects and flash functionality.

4.4 Using the Flash and Selfie Mirror

- **Flash:** The camera features both a pop-up flash and a fill light for low-light conditions. Activate or deactivate through the menu settings.
- **Selfie Mirror:** A small mirror is located on the front of the camera next to the lens, allowing for easy self-portraits.

4.5 Webcam Functionality

Connect the camera to a computer using the USB-C cable. Select "Webcam Mode" from the options that appear on the camera screen. This allows the camera to function as a webcam for video calls, live streaming, or online teaching.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera body. For the lens, use a specialized lens cleaning cloth and solution. Avoid abrasive materials.
- **Battery Care:** Store batteries in a cool, dry place. Do not expose to extreme temperatures. Charge fully before extended storage.

- **Storage:** When not in use, store the camera in its provided storage bag to protect it from dust and scratches.

6. TROUBLESHOOTING

Problem	Solution
Camera does not power on.	Ensure the battery is correctly inserted and fully charged. Try using the spare battery.
Pictures are blurry.	Ensure autofocus is engaged (half-press shutter). Check for sufficient lighting. Clean the lens if smudged.
SD card error.	Reinsert the SD card. Format the SD card via the camera's menu (this will erase all data). Ensure the card is not locked.
Cannot connect to computer.	Ensure the USB-C cable is securely connected. Select the correct USB mode (e.g., "Mass Storage" or "Webcam") on the camera.
