VINGLI RIV001

VINGLI Tall Adirondack Chairs Set of 2 with Dual Trays

Model: RIV001

1. PRODUCT OVERVIEW

The VINGLI Tall Adirondack Chairs Set of 2 with Dual Trays provides comfortable and durable outdoor seating. Constructed from all-weather HDPE material, these chairs are designed for longevity and minimal maintenance. The set includes two tall Adirondack chairs and a connecting dual tray table, suitable for various outdoor environments.

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or product damage.

- Always assemble the chairs according to the provided instructions.
- Keep all small parts and tools away from children during assembly.
- Do not overload the chair. Each chair has a maximum weight capacity of 350 lbs. The connecting tray supports up to 55 lbs.
- Exercise caution with sharp edges during assembly and use to prevent cuts or scrapes.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners.

3. SETUP AND ASSEMBLY

Assembly of the VINGLI Tall Adirondack Chairs is designed to be straightforward. Two people can typically complete the installation in approximately 20 minutes. Detailed instructions are provided in the packaging. All screws and bolts are

made of stainless steel for durability.

Assembly Tips:

- Review all steps in the instruction manual before beginning. Some users have found it helpful to start with step 2 and then refer back to step 1 for certain components.
- Pay close attention to the orientation of parts, especially the legs and seat components, as there can be subtle curvatures or specific alignments required for proper fit. Marking left and right components with masking tape can prevent errors.
- Do not fully tighten all fasteners until the entire structure is assembled and aligned correctly. This allows for minor adjustments to ensure all parts fit together without strain.
- An electric drill with appropriate bits can expedite the assembly process, but exercise caution to avoid overtightening and stripping screws.
- Ensure all hardware is accounted for before starting. Contact customer support if any parts are missing or damaged.

SIMPLE INSTALLATION STEPS

4. OPERATING INSTRUCTIONS

Once assembled, the VINGLI Tall Adirondack Chairs are ready for use. These chairs are designed for comfort and functionality in various outdoor settings.

Ergonomic Comfort:

The chairs feature a contoured seat, supportive high back, and spacious armrests to enhance relaxation. The robust backrest and sloping seat are designed for an ergonomic seating experience.

5. MAINTENANCE

The VINGLI Tall Adirondack Chairs are constructed from all-weather HDPE material, designed for minimal maintenance and long-lasting performance.

Material Properties:

The HDPE material is resistant to various environmental conditions, including sunlight, snow, and strong winds. It is designed to resist fading, denting, cracking, peeling, and rotting, unlike traditional wood furniture.

HDPE WEATHER RESISTANT MATERIAL

No fading

No cracking

No decaying

Image: Graphic illustrating the weather-resistant properties of HDPE material, including no fading, no cracking, and no decaying.

Cleaning Instructions:

To clean the chairs, simply wipe them with a damp cloth. For more stubborn dirt, a mild soap solution can be used, followed by rinsing with water and drying with a clean cloth.

6. TROUBLESHOOTING

This section addresses common issues that may arise during the use or assembly of your VINGLI Tall Adirondack Chairs.

Assembly Difficulties:

- **Problem:** Parts do not align or fit together easily.
- **Solution:** Ensure all screws are only finger-tightened initially. This allows for flexibility to align all components before fully tightening. Double-check the orientation of each piece against the instruction manual, as some parts may have subtle differences that affect fit.
- **Problem:** Screws or bolts strip during tightening.
- **Solution:** Avoid overtightening, especially if using power tools. If a fastener strips, it may need to be replaced. Contact customer support for replacement hardware if necessary.

Stability Issues:

- **Problem:** Chair feels wobbly after assembly.
- **Solution:** Ensure all fasteners are securely tightened. If the issue persists, loosen all screws slightly, sit in the chair to settle the components, and then re-tighten all screws while the chair is under slight load. This can help square the frame.

Missing or Damaged Parts:

- **Problem:** Components are missing or damaged upon arrival.
- **Solution:** Carefully check all packaging for small parts. If parts are genuinely missing or damaged, contact VINGLI customer support immediately for assistance and replacements.

7. SPECIFICATIONS

Feature	Detail
Brand	VINGLI
Model Number	RIV001
Color	Black
Material Type	High Density Polyethylene (HDPE)
Item Dimensions (L x W x H)	52.5 x 25 x 51 inches
