KagoLing BZH2-02

KagoLing Solar Lanterns (Model BZH2-02)

Instruction Manual

INTRODUCTION

Thank you for choosing KagoLing Solar Lanterns. These outdoor lights are designed to provide a warm and inviting ambiance to your garden, patio, or any outdoor space, utilizing solar energy for efficient and eco-friendly illumination. This manual provides essential information for the proper setup, operation, and maintenance of your lanterns.

Key Features:

- **Unique Rattan Shape Design:** Blends modern and classic elements, mimicking candlelight for a cozy atmosphere.
- **High Efficiency Solar Panel:** Equipped with an upgraded solar panel and a 1000mAh battery for up to 10 hours of illumination after 6-8 hours of sunlight charging.
- **IP65 Waterproof & Durable:** Constructed from high-strength ABS material, designed to withstand rainstorms, snowstorms, heat, and cold.
- **Smart Sensor & Easy Installation:** Features automatic dusk-to-dawn operation. Can be hung or placed on various surfaces.
- **Versatile Outdoor Decor:** Enhances balconies, garden paths, patio dining tables, porch entrances, and more.

PACKAGE CONTENTS

- 2 x KagoLing Solar Lanterns
- 1 x User Manual (this document)

SETUP INSTRUCTIONS

Follow these steps to prepare your KagoLing Solar Lanterns for use:

1. **Initial Charging:** Before the first use, locate the power switch on the solar panel and slide it to the 'ON' position. Place the lanterns in a location that receives direct sunlight for at least 8 hours to ensure the battery is fully charged. This prevents battery depletion during initial use.
2. **Optimal Placement:** For continuous nightly illumination, position the lanterns where the solar panel can

absorb 6-8 hours of direct sunlight daily. Avoid shaded areas.

3. **Assembly:** The lanterns come pre-assembled. Simply ensure the solar panel is clean and the switch is in the 'ON' position.

OPERATING INSTRUCTIONS

Your KagoLing Solar Lanterns are designed for simple, automatic operation:

- **Automatic On/Off:** Once fully charged and the switch is in the 'ON' position, the built-in smart sensor will automatically detect ambient light levels. The lanterns will illuminate at dusk and turn off at dawn, conserving energy.
- **Manual Override:** To turn off the lanterns manually, simply slide the switch on the solar panel to the 'OFF' position. Remember to switch it back to 'ON' for automatic operation.
- **Versatile Use:** These lanterns can be hung from walls, trees, or fences using their sturdy handles, or placed on the ground, tabletops, or steps. They are also portable for evening walks or camping.

MAINTENANCE

To ensure the longevity and optimal performance of your KagoLing Solar Lanterns, consider the following maintenance tips:

- **Clean Solar Panel:** Periodically wipe the solar panel with a soft, damp cloth to remove any accumulated dust, dirt, or debris. A clean panel ensures maximum sunlight absorption and charging efficiency.
- **Weather Resistance:** The lanterns are designed with an IP65 waterproof rating, making them resistant to rain, snow, and extreme temperatures. No special covering or removal is required during adverse weather conditions.
- **Storage:** If storing the lanterns for an extended period, ensure they are fully charged and the switch is in the 'OFF' position. Store them in a cool, dry place.

Water & Rust Resistant for Durability

TROUBLESHOOTING

If your KagoLing Solar Lanterns are not functioning as expected, try the following:

- **Lanterns Not Lighting Up:**

- Ensure the power switch on the solar panel is in the 'ON' position.
- Verify that the lanterns are placed in a location receiving ample direct sunlight for 6-8 hours daily.
- Clean the solar panel surface to remove any obstructions that might be blocking sunlight.
- Check if the battery is fully charged. Allow for a full day of charging in direct sunlight.

- **Short Illumination Time:**

- Ensure the solar panel is clean and free from debris.
- Relocate the lantern to an area with more direct sunlight exposure throughout the day.
- Consider the season; shorter daylight hours in winter may result in reduced illumination time.

SPECIFICATIONS

Feature	Detail
Brand	KagoLing
Model Number	BZH2-02
Material	Metal, Plastic (Rattan-like design)
Power Source	Solar Powered
Light Source Type	Light Emitting Diode (LED)
Color	Gold
Battery Type	1 AA Lithium-Ion (included)
Battery Life	Up to 10 Hours (on full charge)
Water Resistance Level	IP65 Waterproof
Product Dimensions	10.59"L x 7.48"W x 5.51"H
Item Weight	1.87 Pounds
Item Package Quantity	2
