## DrDent B0DR7KCN31

# DRDENT Professional Teeth Whitening Strips Instruction Manual

Model: B0DR7KCN31

## INTRODUCTION

The DRDENT Professional Teeth Whitening Strips are designed to provide an effective and convenient at-home teeth whitening experience. This kit includes 44 strips (22 treatments) and a mouth opener, formulated to be safe for enamel and suitable for sensitive teeth. Follow these instructions carefully to achieve optimal whitening results.

## SAFETY INFORMATION

### Warning:

- Keep out of the reach of children.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

## PACKAGE CONTENTS

- 44 Teeth Whitening Strips (22 Treatments)
- 1 Mouth Opener
- Instruction Manual
- Shade Guide (for tracking progress)

## SETUP

1. **Prepare Your Teeth:** Ensure your teeth are clean and dry before application. You may gently wipe your teeth with a clean cloth to remove excess moisture.
2. **Optional Mouth Opener:** For easier application and to keep lips away from the strips, you may use the provided mouth opener.

# Gentle & Safe On Sensitive Teeth

✓ Professional Whitening Without Sensitivity

✓ Uniquely Formulated for Sensitive Teeth

✓ Maximum Whitening, Zero Compromise

## OPERATING INSTRUCTIONS

Follow these steps for effective application of the whitening strips:

1. **Open Pouch:** Open the foil pouch and carefully remove the two whitening strips. One strip is for the upper teeth, and one is for the lower teeth.
2. **Apply Lower Strip:** Peel the longer strip from its backing. Apply the gel side of the strip to your lower teeth, aligning it with the gum line. Gently press and mold the strip to ensure good contact with the teeth.
3. **Apply Upper Strip:** Peel the shorter strip from its backing. Apply the gel side of the strip to your upper teeth, aligning it with the gum line. Gently press and mold the strip to ensure good contact with the teeth.
4. **Wear Time:** Keep the strips on your teeth for 30 to 60 minutes. Avoid eating or drinking during this period.
5. **Remove and Discard:** After the recommended time, carefully remove both strips and discard them.
6. **Rinse:** Rinse your mouth thoroughly with water to remove any remaining gel.

# Tired of Strips That Slip & Slide?

SUPERIOR ADHESION FOR PERFECT FIT

- ✓ Stays Put - Advanced Micro-Grip Technology
- ✓ Continue Your Day While Whitening

## MAINTENANCE

After each whitening session, maintain good oral hygiene by brushing and flossing regularly. For best long-term results, avoid consuming highly staining foods and beverages such as coffee, tea, red wine, and dark sodas immediately after treatment.

## TROUBLESHOOTING

### Strips Not Sticking Properly

- **Ensure Teeth are Dry:** The most common reason for strips not sticking is moisture on the teeth. Before applying, thoroughly dry your teeth with a clean cloth or tissue.

- **Proper Application:** Press the strip firmly against the teeth, molding it to the contours of your teeth and gum line to ensure maximum contact.

## Tooth Sensitivity

- **Reduce Wear Time:** If you experience sensitivity, try reducing the wear time to 30 minutes per session.
- **Skip a Day:** If sensitivity persists, skip a day or two between treatments to allow your teeth to recover.
- **Use Sensitive Toothpaste:** Consider using a toothpaste designed for sensitive teeth during your whitening regimen.

## SPECIFICATIONS

Feature	Detail
Brand	DrDent
Model Number	B0DR7KCN31
