

AVATTO AVATTO

AVATTO Smart WLAN Roller Shutter Switch User Manual

Model: AVATTO

1. INTRODUCTION

Thank you for choosing the AVATTO Smart WLAN Roller Shutter Switch. This device allows you to control your blinds and roller shutters remotely via the Smart Life/Tuya app, voice commands through Alexa or Google Assistant, and directly via its touch-sensitive glass surface. This manual provides detailed instructions for installation, setup, operation, and troubleshooting to ensure optimal performance and safety.

2. SAFETY INFORMATION

WARNING: Electrical installation should only be performed by a qualified electrician. Ensure power is disconnected at the circuit breaker before installation to prevent electric shock.

- Do not install with wet hands.
- Do not exceed the maximum load rating of 10 Amps / 800W.
- Operate only within the specified voltage range of 100-240V AC, 50-60Hz.
- This device is designed for indoor use only.
- Keep out of reach of children.

3. PRODUCT SPECIFICATIONS

Feature	Specification
Product Dimensions	8 x 8 x 4 cm
Weight	360 g

Operation Mode	ON-OFF-ON
Current Rating	10 Amps
Operating Voltage	100-240 Volts AC, 50-60Hz
Contact Type	Normally Closed
Switch Type	Capacitive Touch Switch
Material	Plastic, Glass Surface
Wireless Frequency	WiFi 2.4GHz
Max Power	800W/Gang

4. INSTALLATION

4.1 Wiring Diagram

Before proceeding, ensure your motor has 4 wires, as this switch is compatible with 4-wire roller shutter motors. Disconnect power at the circuit breaker before wiring.

Verdrahtungsschema

Bitte bestätigen Sie, dass Ihr Motor 4 Drähte hat, da unser Rollo-Schalternur mit Motoren kompatibel ist, die 4 Drähte haben.

Max. Power: 800W/Gang
Frequency: WiFi 2.4GHz
FCC CE RoHS Made in China

Image Description: A detailed wiring diagram showing the connections for the AVATTO roller shutter switch. The

diagram illustrates connections for Live (L), Neutral (N), L1 (Ascending line for roller shutter motor), and L2 (Descending line for roller shutter motor). An optional ground wire connection is also shown. The switch itself has input and output terminals clearly labeled.

1. **Phase Conductor (Live):** Connect the Live wire (typically brown or black) to the 'L in' terminal.
2. **Neutral Conductor:** Connect the Neutral wire (typically blue) to the 'N in' terminal.
3. **Ascending Line (Motor Up):** Connect the motor's ascending wire to the 'L1 out' terminal.
4. **Descending Line (Motor Down):** Connect the motor's descending wire to the 'L2 out' terminal.
5. **Grounding Cable:** Connecting the grounding cable (green and yellow wire) is not strictly necessary for the switch's operation but is recommended for safety if available.

4.2 Physical Installation

The AVATTO switch is designed for flexible installation and fits standard 55mm frames. It can be installed independently or combined with other AVATTO modules.

Das AVATTO Lichtschalter, Rollladenschalter, Steckdose, Thermostat 55 Standard passt auf den Gira Abdeckrahmen

Image Description: This image displays the modular design of the AVATTO switch, showing the main switch unit, the mounting frame, and the glass cover. It illustrates how the switch can be installed independently in an 80x80mm frame, combined with other AVATTO modules (like light switches, sockets, thermostats) in multi-gang frames, and how damaged switches can be replaced.

1. After wiring, secure the switch module into the wall box.
2. Attach the removable cover frame (80 x 80 mm) to the switch module.

3. Snap the glass touch surface onto the frame.
4. Restore power at the circuit breaker.

5. SETUP AND CONNECTIVITY

5.1 App Remote Control (Smart Life / Tuya App)

The AVATTO Smart WLAN Roller Shutter Switch can be controlled remotely using the Smart Life or Tuya app.

1. Download the "Smart Life" or "Tuya Smart" app from your smartphone's app store (available for iOS and Android).
2. Register or log in to your account.
3. Ensure your smartphone is connected to a 2.4GHz Wi-Fi network.
4. In the app, tap "+" to add a new device.
5. Follow the in-app instructions to put the switch into pairing mode (usually by pressing and holding a button on the switch until an indicator light flashes).
6. Select the device type (e.g., "Curtain Switch" or "Roller Shutter Switch") and complete the pairing process.

Image Description: An image showing the AVATTO Smart WLAN Roller Shutter Switch alongside a smartphone displaying the control app. The app interface features "Open," "Pause," and "Close" buttons, a Wi-Fi indicator, and a

percentage slider for precise control of the roller shutter position. The physical switch is shown with its glass touch surface and internal components.

5.2 Voice Control (Alexa / Google Assistant)

Once the switch is added to the Smart Life or Tuya app, you can link it to Amazon Alexa or Google Assistant for voice control.

1. Open the Alexa or Google Home app.
2. Navigate to the "Skills & Games" (Alexa) or "Works with Google" (Google Home) section.
3. Search for "Smart Life" or "Tuya Smart" and enable the skill/service.
4. Link your Smart Life/Tuya account when prompted.
5. Discover devices. Your roller shutter switch should now appear and be controllable by voice.

Unterstützen Alexa, Google Assistant und Smart Life App Fernbedienung

① Sie können das Rolladenschalter so steuern, dass es jederzeit und überall über die APP geöffnet oder geschlossen wird.

② Wenn Sie zu Hause sind, können Sie Ihr Gerät über Echo/Alexa/Google Assistant ein- oder ausschalten

"Alexa , set the curtain to 55%"

"Okay"

Works with Yandex Alice

works with alexa

works with Google Home

works with Smart Life

works with Tuya

Image Description: This image illustrates the voice control capabilities of the AVATTO switch, showing a user interacting with an Alexa device (Echo Dot) to control curtains. Text bubbles show commands like "Alexa, set the curtain to 55%." Logos for Alexa, Google Home, Smart Life, and Tuya are displayed, indicating compatibility.

6. OPERATING INSTRUCTIONS

6.1 Manual Touch Control

The glass touch surface of the switch allows for direct control:

- Tap the **Up arrow** to open the blinds.
- Tap the **Down arrow** to close the blinds.
- Tap the **Center circle** to pause the blinds at their current position.

The LED indicators on the switch show the current open percentage of the blinds.

Image Description: An image demonstrating the precise percentage control feature. The AVATTO switch is shown with its LED indicators, which light up to represent different open percentages (0%, 30%, 40%, 50%, 60%, 80%, 100%). A smartphone app interface also shows a slider for setting the curtain position by percentage, with a visual representation of blinds opening to 50%.

6.2 App Control

Using the Smart Life or Tuya app, you can:

- Open, close, or pause your blinds from anywhere.
- Set the blinds to a specific percentage of openness using a slider.
- **Timer Function:** Create personalized schedules to automatically open or close your blinds at specific times (e.g., open at 7:00 AM, close at 10:00 PM).
- **Group Control:** Combine multiple AVATTO roller shutter switches into a group within the app for simultaneous control.
- **Intelligent Linking:** Connect the switch with other Tuya smart devices to create automated scenes (e.g., "Good Morning" scene opens blinds and turns on lights).

- **Backlight Control:** The backlight of the switch can be switched on or off via the app settings.

Timing-Steuerung

Ein Zeitplan kann so eingestellt werden, dass die Vorhänge automatisch zu einer bestimmten Zeit geöffnet oder geschlossen werden, um eine intelligente, komfortable und energieeffiziente Wohnumgebung zu schaffen.

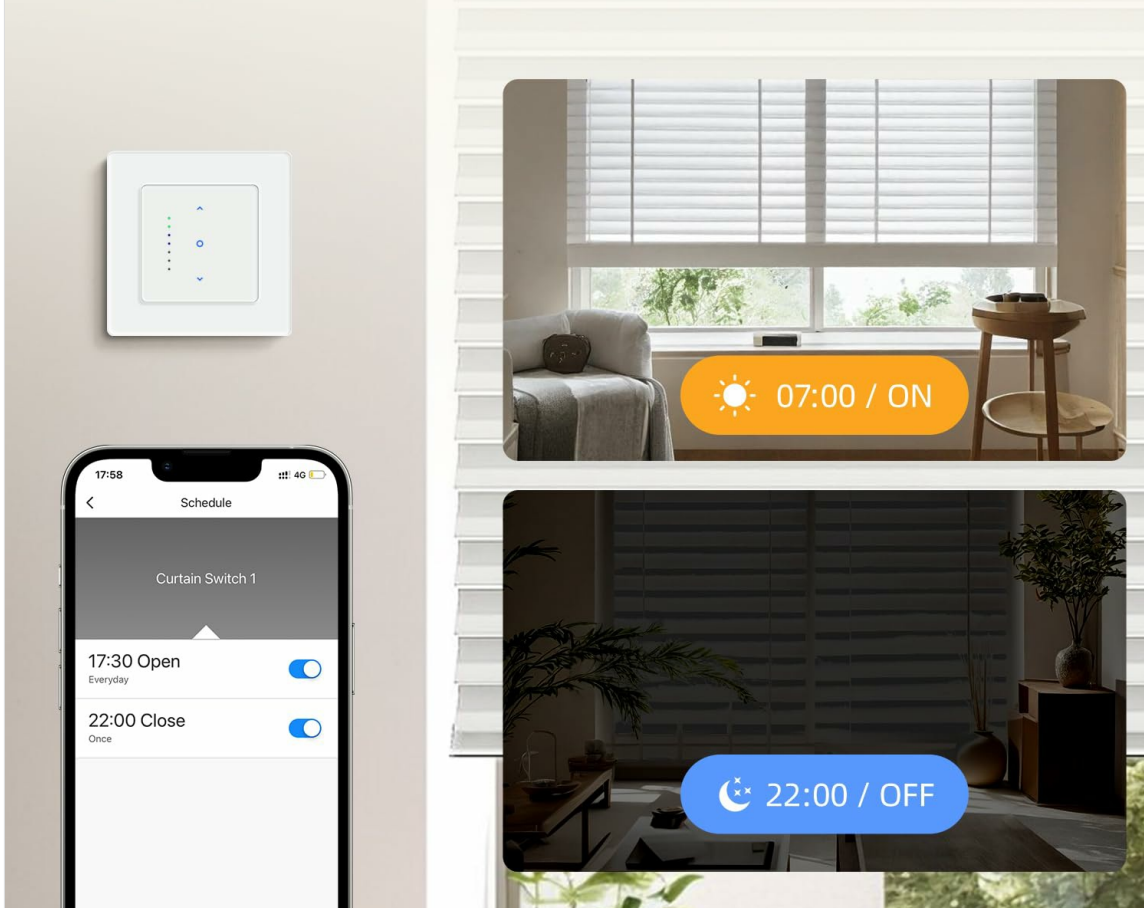

Image Description: This image demonstrates the timer control feature. A smartphone screen shows the "Schedule" interface in the Smart Life app, with entries for "17:30 Open Everyday" and "22:00 Close Once." Visuals of a window with blinds illustrate the effect of these schedules, showing blinds opening in the morning (07:00 ON) and closing at night (22:00 OFF).

7. MAINTENANCE

To ensure the longevity and proper functioning of your AVATTO Smart WLAN Roller Shutter Switch:

- Clean the glass surface with a soft, dry, or slightly damp cloth. Avoid abrasive cleaners or solvents.
- Do not expose the device to excessive moisture or extreme temperatures.
- Regularly check for any loose connections during routine electrical inspections (performed by a qualified professional).

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Switch is unresponsive / Offline in app	No power; Wi-Fi disconnected; App issue.	Check circuit breaker. Ensure 2.4GHz Wi-Fi is active and strong. Restart router. Restart the switch by briefly turning off power at the breaker. Re-pair if necessary.
Blinds only partially open/close (calibration issue)	Incorrect motor travel limits or calibration.	Check the motor's own limit settings. Some motors require manual calibration. If the switch has an automatic calibration feature, ensure it's performed correctly. Consult motor manual if issue persists.
Voice control not working	Incorrect voice command; Skill not linked; Device not discovered.	Use precise commands (e.g., "Alexa, open [device name]"). Ensure Smart Life/Tuya skill is enabled and linked in Alexa/Google Home app. Re-discover devices.
Touch controls not responding	Power issue; Software glitch.	Check power. Briefly cycle power to the switch at the circuit breaker.

9. WARRANTY AND SUPPORT

AVATTO products are designed for reliability and performance. For specific warranty information, please refer to the documentation provided with your purchase or contact AVATTO customer support. For technical assistance or further inquiries, please visit the official AVATTO website or contact their customer service department. Keep your purchase receipt for warranty claims.
