2. SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Ensure the greenhouse is assembled on a level, stable surface.
- Securely anchor the greenhouse to the ground using the provided spiral ground anchors to prevent wind damage.
- Wear appropriate safety gear, such as gloves, during assembly.
- Keep children and pets away from the assembly area.
- Do not hang heavy objects from the greenhouse frame.
- Regularly inspect the structure for any loose parts or damage.

3. PACKAGE CONTENTS

Your ANTSKU 8x8 FT Greenhouse package includes the following components:

- 1 x Greenhouse (complete kit)
- Heavy-duty aluminum frame components
- 4mm thick polycarbonate panels
- Sliding double door assembly
- Adjustable roof vent mechanism
- Rain gutter system components
- Spiral ground anchors
- All necessary fasteners and hardware
- Assembly instructions

PRODUCT SIZE

Important Notice: The greenhouse will be delivered in 2 boxes. These boxes may arrive on different days. Please ensure you have received all packages before beginning assembly.

Visual notice indicating that the greenhouse ships in two separate boxes, which may arrive at different times.

4. SETUP AND ASSEMBLY

The ANTSKU greenhouse features a quick-install system with slide-in panels, designed for efficient assembly. Follow the detailed instructions provided in your package for step-by-step guidance.

4.1 Key Assembly Features

- **Heavy-Duty Aluminum Frame:** The powder-coated aluminum frame provides a strong and durable structure.
- **Tight Triangular Structure:** Enhances overall stability and rigidity of the greenhouse.
- **Slide-in Panels:** Polycarbonate panels are designed to slide easily into deepened grooves for quick and secure installation.
- **Spiral Ground Anchors:** Essential for securing the greenhouse against strong winds and severe weather conditions.

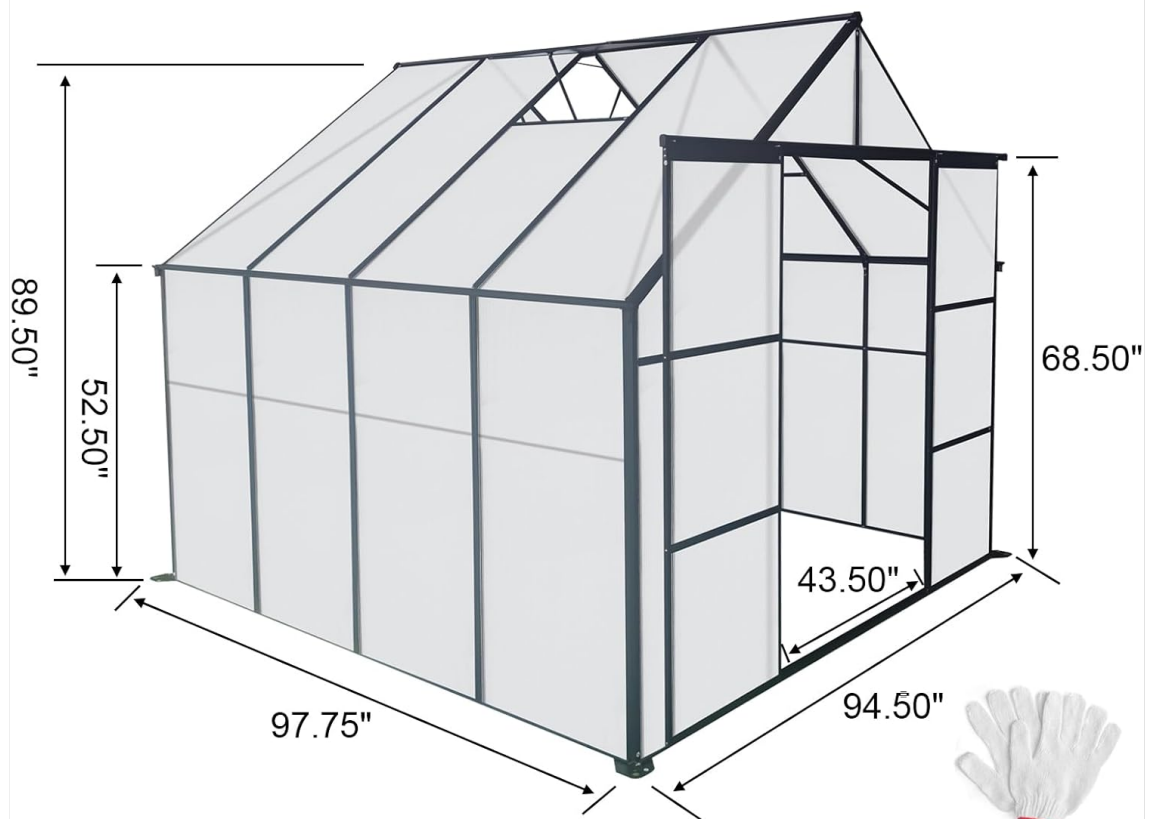

DOUBLE DOOR GREENHOUSE

this greenhouse is ideal for the casual gardener or flower enthusiast for growing a wide variety of vegetables, plants.

Detailed diagram highlighting the adjustable roof vent, reinforced structure, upper drainage, smoothly sliding door, and ground fixation points of the greenhouse.

PRODUCT SIZE

2 Pairs of Gloves
Size:Inch

Product size diagram indicating the overall dimensions of the 8x8 FT greenhouse in inches.

4.2 Structural Details

The interface is fixed with multiple screws for strong stability.

The deepened groove makes the panel easier to slide in.

Added triangular connection board to protect the greenhouse connection and enhance stability.

5. OPERATING INSTRUCTIONS

Your ANTSKU greenhouse is designed to provide an optimal environment for plant growth with user-friendly features.

5.1 Ventilation and Access

- **Adjustable Roof Vent:** The roof vent can be adjusted to 15 different angles to control airflow and temperature, ensuring proper ventilation and preventing overheating.
- **Sliding Double Door:** Provides easy access to the greenhouse interior. Ensure the door slides smoothly and is kept clear of obstructions.

The smoothly sliding double door allows for convenient entry and exit.

5.2 Water Management

- **Rain Gutter System:** The integrated rain gutter system collects rainwater from the sloped roof, preventing accumulation and directing it to 4 drainage ports.
- **Rainwater Collection:** The drainage ports support the extension of 0.79-inch water pipes, allowing you to collect rainwater for watering plants inside the greenhouse.

5.3 Plant Protection

- **UV Guard Panels:** The polycarbonate panels feature a UV coating to protect plants from harmful solar radiation while maximizing beneficial sunlight exposure.
- **Weather Resistance:** The greenhouse is designed to be sun-proof, moisture-proof, and frost-proof, handling various weather conditions.

The durable and UV-resistant twin-wall polycarbonate panels offer protection against UV rays, birds, and water.

5.4 Applicable Scenarios

This greenhouse is versatile and suitable for various gardening activities:

- Vegetable Cultivation
- Planting Flowers
- Seed Cultivation
- Heat Preservation for sensitive plants

Applicable to Multiple Scenarios

Provides multiple uses for the family

Vegetable Cultivation

Plant Flowers

Cultivate Seed

Heat Preservation

The greenhouse provides multiple uses for the family, including vegetable cultivation, planting flowers, cultivating seeds, and heat preservation.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your greenhouse.

- **Cleaning Panels:** Periodically clean the polycarbonate panels with mild soap and water to maintain light transmission. Avoid abrasive cleaners.
- **Frame Inspection:** Check the aluminum frame and all fasteners regularly for any signs of loosening or corrosion. Tighten screws as needed.
- **Gutter Clearance:** Ensure the rain gutters and drainage ports are free from leaves and debris to prevent water accumulation.
- **Vent and Door Operation:** Lubricate sliding door tracks and roof vent mechanisms if they become stiff.
- **Ground Anchors:** Verify that ground anchors remain securely in place, especially after strong winds.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Poor Ventilation / Overheating	Roof vent closed; insufficient airflow.	Open or adjust the roof vent to allow more air circulation. Ensure sliding door is not fully sealed if more airflow is needed.

Problem	Possible Cause	Solution
Water Accumulation on Roof	Clogged rain gutters or drainage ports.	Clear gutters and drainage ports of debris. Ensure the sloped roof is correctly installed.
Panels Seem Loose	Panels not fully seated in grooves; frame fasteners loose.	Ensure all panels are correctly slid into their grooves. Check and tighten all frame screws and fasteners.
Door Sticking / Hard to Slide	Debris in track; track needs lubrication.	Clean the door tracks thoroughly. Apply a silicone-based lubricant to the tracks if necessary.
Greenhouse Instability	Ground anchors not properly installed or loose.	Verify that all spiral ground anchors are fully inserted and secure. Ensure the greenhouse is on a level surface.

8. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	ANTSKU
Model Number	NA250-BM
Size	8x8 FT
Color	Black
Frame Material	Aluminum
Cover Material	Polycarbonate (PC), 4mm thickness
Number of Vents	2 (Adjustable)
Door Type	Sliding Double Door
Rain Gutter System	Included, with 4 drainage ports
Ground Fixation	Spiral ground anchors
Indoor/Outdoor Usage	Outdoor
Included Components	1 x Greenhouse Kit
GTIN/UPC	709544663947
