Supershieldz A26 (6.7 inch)

Supershieldz Tempered Glass Screen Protector User Manual

Model: Samsung Galaxy A26 (6.7 inch)

1. Introduction

Thank you for choosing the Supershieldz Tempered Glass Screen Protector for your Samsung Galaxy A26 (6.7 inch). This premium screen protector is designed to provide maximum scratch protection, maintain original touch experience, and reduce fingerprints, ensuring your device's screen remains pristine. This manual will guide you through the installation process and provide essential care instructions.

2. Product Features

- Made from high-quality tempered glass for maximum scratch protection.
- Leaves no residue when removed.
- Features 2.5D rounded edges for comfortable handling.
- 9H hardness rating for superior durability.
- 99.99% HD clarity, preserving the original screen display.
- Maintains the original touch experience and sensitivity.
- Hydrophobic and oleophobic coating to reduce sweat and fingerprints.
- Includes 2 pieces of tempered glass screen protectors.

3. Package Contents

Your Supershieldz Tempered Glass Screen Protector package includes:

- 2 x Supershieldz Tempered Glass Screen Protectors
- Installation accessories (e.g., wet wipes, dry wipes, dust removal stickers).

4. Setup and Installation Guide

For optimal results, please follow these steps carefully. Ensure you are in a dust-free environment.

1. **Clean Your Screen:** Use the provided wet wipe to thoroughly clean your phone's screen, removing all dirt, oil, and smudges.
2. **Dry Your Screen:** Use the dry wipe to dry the screen completely. Ensure no water marks or streaks remain.
3. **Remove Dust:** Use the dust-absorber sticker to remove any remaining dust particles from the screen. Inspect the screen carefully under light to ensure it is perfectly clean.
4. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Hold the screen protector by its edges and align it precisely with your phone's screen, paying attention to cutouts for the speaker, camera, and home button (if applicable).
5. **Apply the Protector:** Once aligned, gently lower the screen protector onto the phone's screen. The adhesive will start to spread automatically.

6. **Remove Bubbles:** If any bubbles appear, gently push them towards the edges of the screen using a clean cloth or the provided squeegee card. Small bubbles may disappear naturally within 24-48 hours.

5. Operating and Usage

Once installed, the Supershieldz Tempered Glass Screen Protector is designed to be virtually unnoticeable, maintaining the original touch sensitivity and display clarity of your Samsung Galaxy A26. You can continue to use your device as normal, enjoying enhanced protection against scratches and impacts.

6. Maintenance and Care

To ensure the longevity and effectiveness of your screen protector:

- **Cleaning:** Wipe the screen protector regularly with a soft, lint-free cloth. For stubborn smudges, use a screen cleaner specifically designed for electronics. The oleophobic coating helps resist fingerprints and smudges.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or ammonia-based solutions, as these can damage the oleophobic coating.
- **Protection:** While the protector offers significant protection, avoid placing your phone face down on rough surfaces

or with sharp objects.

Image: Close-up view illustrating the oleophobic coating on the Supershieldz screen protector, showing how water droplets bead up, indicating its resistance to smudges and fingerprints.

7. Troubleshooting

Here are solutions to common issues you might encounter:

Issue	Solution
Bubbles after installation	Small bubbles often disappear within 24-48 hours. For larger bubbles, gently lift the nearest corner of the protector and re-apply, pushing the bubble out with a squeegee or soft cloth. Ensure no dust is trapped underneath.

Issue	Solution
Dust trapped under protector	Carefully lift the nearest corner of the protector. Use a dust-absorber sticker to gently lift the dust particle from the screen or the adhesive side of the protector. Re-apply the protector.
Edges not adhering properly	Ensure the screen is perfectly clean and free of dust or oil, especially along the edges. Press firmly on the edges for a few seconds. If the issue persists, the protector might be slightly misaligned or the screen might have a subtle curve not fully compatible with flat protectors.
Reduced touch sensitivity	This is rare with Supershieldz protectors due to their design. Check your phone's settings for "Touch sensitivity" or "Glove mode" and enable it if available. Ensure the protector is fully adhered without air gaps.

8. Product Specifications

Specification	Detail
Brand	Supershieldz
Model Compatibility	Samsung Galaxy A26 (6.7 inch)
Material	Tempered Glass
