KepStars MG-STR01

KepStars 33ft Star String Lights User Manual

Model: MG-STR01

INTRODUCTION

Thank you for choosing the KepStars 33ft Star String Lights. This manual provides detailed instructions for the safe and efficient use of your new RGB LED string lights. Featuring 66 individual star-shaped LEDs, these lights offer over 200 scene options, music and voice synchronization, and convenient control via a smart app or IR remote. Designed for both indoor and outdoor use, they are ideal for various decorative purposes.

PACKAGE CONTENTS

Please check the package contents to ensure all items are present:

- 33ft Star String Lights with 66 RGB LEDs
- IR Remote Control
- User Guide (this manual)

SETUP INSTRUCTIONS

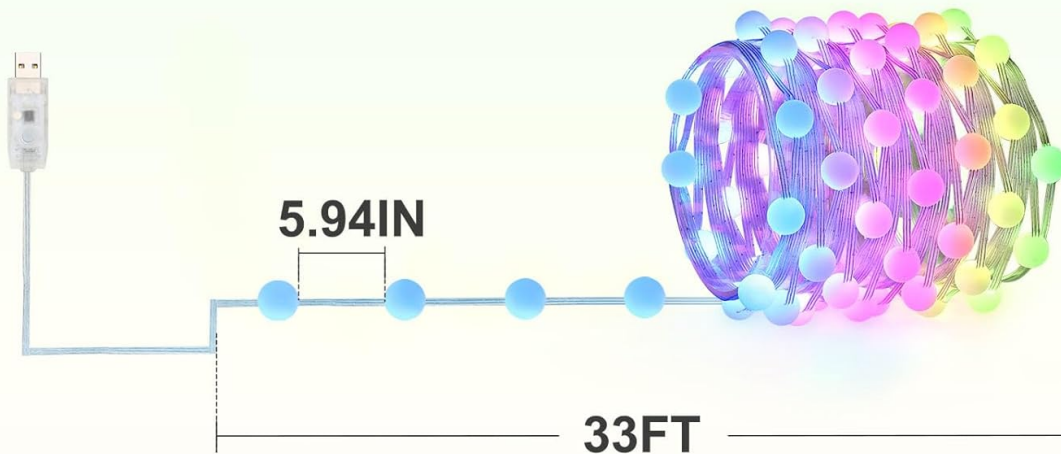

Follow these steps to set up your KepStars Star String Lights:

1. **Unpack the Lights:** Carefully uncoil the string lights, ensuring not to tangle the wire.
2. **Choose a Location:** Decide on your desired indoor or outdoor location. The lights are IP65 waterproof, suitable for outdoor use, but the USB controller is not waterproof and must be protected from moisture.
3. **Power Connection:** Connect the USB plug of the string lights to a compatible USB power source.

This can be a USB wall adapter, a power bank, or a computer USB port.

4. **Secure Placement:** Hang or arrange the lights as desired. Ensure the lights are securely fastened to prevent accidental falls.

OPERATING INSTRUCTIONS

Smart APP Control

The KepStars Star String Lights can be controlled via a dedicated smart application on your smartphone.

1. **Download the App:** Scan the QR code provided in the packaging or search for the "KepStars" app in your device's app store (iOS/Android).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Pairing:** Open the app. The app should automatically detect the string lights via Bluetooth. Follow the on-screen prompts to pair your device.
4. **Control Functions:** Once paired, you can:
 - Select from over 200 scene modes.

- Adjust brightness levels.
- Change speed levels for dynamic effects.
- Customize colors.
- Set timers.

IR Remote Control

Use the included IR remote control for quick adjustments. Point the remote directly at the USB controller for optimal response. The remote allows you to:

- Turn lights On/Off.
- Change colors.
- Select preset modes.
- Adjust brightness.

Music & Voice Sync

Activate the music and sound-activated mode through the smart app. The lights will synchronize with your favorite music or ambient sounds, creating a dynamic visual experience.

MAINTENANCE

Proper maintenance ensures the longevity of your string lights.

- **Cleaning:** Gently wipe the lights with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Water Resistance:** The string lights are IP65 waterproof, suitable for outdoor exposure to rain. However, the USB controller is **not waterproof** and must be kept dry.
- **Storage:** When not in use, carefully coil the lights and store them in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Replacement (IR Remote):** The IR remote uses 1 CR2 battery (included). Replace the battery when the remote's range or responsiveness decreases.

TROUBLESHOOTING

If you encounter any issues with your KepStars Star String Lights, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	No power, loose connection, faulty USB controller.	Ensure the USB plug is securely connected to a working power source. Try a different USB port or adapter. Check for visible damage to the cable or controller.
Remote control not working.	Low battery, obstruction, remote not pointed at controller.	Replace the CR2 battery in the remote. Ensure there are no obstructions between the remote and the USB controller. Point the remote directly at the controller.
App cannot connect to lights.	Bluetooth off, lights out of range, app issue.	Ensure Bluetooth is enabled on your phone. Move closer to the lights. Restart the app and try pairing again. Ensure no other device is currently connected to the lights.
Lights stopped working after a short period.	Power surge, internal fault, water damage to controller.	Disconnect and reconnect power. Ensure the USB controller was not exposed to water. If the issue persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Model Number	MG-STR01
Length	33 Feet (approx. 10 meters)
