DRINTON DTL-SL-01

DRINTON 2 Burner Electric Cooktop Instruction Manual

Model: DTL-SL-01

Brand: DRINTON

1. INTRODUCTION

Thank you for purchasing the DRINTON 2 Burner Electric Cooktop. This portable infrared cooktop is designed for versatile countertop cooking, offering high power and compatibility with all types of cookware. Please read this manual thoroughly before operating the appliance to ensure safe and efficient use. Keep this manual for future reference.

2. IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions before using the cooktop.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.

- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- The cooktop surface remains hot after use. Allow it to cool completely before cleaning or storing.
- There may be an odor during the first use, which is normal. Ensure adequate ventilation.

3. PRODUCT FEATURES

The DRINTON Electric Cooktop is equipped with advanced features for a superior cooking experience:

- **Ceramic Infrared Heating Technology:** Provides efficient and even heating without electromagnetic radiation, making it safe for all users.
- **Adjustable High Power (100W - 3500W):** Each burner offers a wide power range, controlled by a simple rotating knob for precise temperature management.
- **Advanced Cooling System:** Features a built-in cooling fan, stainless steel base, and side cooling slots for rapid heat dissipation after use. The fan continues to operate until the unit reaches a safe temperature.
- **Multiple Cooking Functions:** Includes 3 preset functions (Fried, BBQ, Steam) and a 4-hour timer (10-240 minutes) for convenient and controlled cooking.
- **Easy-to-Clean Glass Surface:** The durable, scratch-resistant, and heat-resistant crystal glass surface can be easily wiped clean with a damp cloth.
- **Safety Design:** Equipped with overheat protection and an adjustable temperature range of 140°F - 480°F (60°C - 250°C) for safe operation.
- **Portable Design:** Features carrying handles on both sides for easy movement and storage.

4. SETUP

1. **Unpacking:** Carefully remove the cooktop from its packaging. Retain packaging materials for future storage or transport if needed.
2. **Placement:** Place the cooktop on a stable, flat, heat-resistant surface. Ensure there is adequate ventilation around the unit, especially around the cooling vents. Do not place it directly against a wall or in an enclosed space.
3. **Power Connection:** Ensure the voltage of your power outlet matches the cooktop's requirements (110V). Plug the power cord into a grounded electrical outlet.
4. **First Use Odor:** During the first use, a slight odor may be present. This is normal and will dissipate with subsequent uses. Ensure the area is well-ventilated.

5. OPERATING INSTRUCTIONS

5.1 General Operation

1. **Power On:** Plug the cooktop into a suitable electrical outlet. The display will light up.
2. **Select Burner:** The cooktop has two independent burners. Each burner has its own control knob and touch panel.
3. **Power/Temperature Adjustment:** Rotate the knob to adjust the power level (100W - 3500W) or temperature (140°F - 480°F). The display will show the selected setting.
4. **Power Off:** Turn the knob to the 'OFF' position or press the 'ON/OFF' button. The cooling fan will continue to run until the unit has cooled down.

5.2 Preset Functions

The cooktop includes convenient preset functions for common cooking tasks:

- **Fried:** Optimized setting for frying.
- **BBQ:** Ideal for grilling or barbecuing.
- **Steam:** Suitable for steaming food.

To use a preset function, select the desired burner and press the corresponding function button on the touch panel.

5.3 Timer Function

The integrated timer allows you to set cooking durations from 10 to 240 minutes.

- **Setting the Timer:** With the burner active, press the 'Timer' button. Use the '+' and '-' buttons or rotate the knob to set the desired cooking time.
- **Timer Completion:** Once the set time elapses, the cooktop will automatically turn off.

6. COOKWARE COMPATIBILITY

The DRINTON Electric Cooktop is designed to be compatible with all types of cookware, unlike induction cooktops that require magnetic materials. This includes:

- Iron pots
- Stainless steel pots
- Casseroles
- Aluminum pots
- Copper pots
- Glass pots
- Grill pans
- Ceramic pots
- Woks
- Steak plates

7. CLEANING AND MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and optimal performance of your cooktop.

1. **Before Cleaning:** Always unplug the cooktop from the power outlet and allow it to cool completely. The cooling fan will continue to run until the unit is safe to touch.
2. **Glass Surface:** Wipe the crystal glass surface with a soft, damp cloth. For stubborn stains, use a mild non-abrasive cleaner specifically designed for glass cooktops. Do not use abrasive pads, harsh chemicals, or steel wool.
3. **Base and Sides:** Wipe the stainless steel base and sides with a damp cloth. Dry thoroughly.
4. **Do Not Immerse:** Never immerse the cooktop in water or any other liquid.
5. **Storage:** Store the cooktop in a dry place when not in use.

Easy to Clean

8. TROUBLESHOOTING

If you encounter issues with your DRINTON Electric Cooktop, refer to the following table:

Problem	Possible Cause	Solution
Cooktop does not turn on.	Not plugged in; power outage; faulty outlet.	Ensure cooktop is securely plugged in. Check circuit breaker. Try a different outlet.
Cooktop not heating sufficiently.	Incorrect power/temperature setting; cookware not suitable (unlikely for this model, but check for flat bottom).	Increase power/temperature setting. Ensure cookware has a flat bottom for optimal contact.
Odor during first use.	Normal manufacturing residue burning off.	Ensure adequate ventilation. Odor will dissipate after initial uses.

Problem	Possible Cause	Solution
Cooling fan continues to run after turning off.	Normal operation to cool down the unit.	This is expected behavior. Do not unplug until the fan stops and the unit is cool.
Error code displayed.	Internal malfunction or sensor issue.	Unplug the unit for 5 minutes, then plug back in. If the error persists, contact customer support.

If the problem persists after attempting these solutions, please contact DRINTON customer support.
