4. SETUP

4.1 Initial Charging of the Power Bank

1. Connect the provided USB-A to USB-C cable to the USB-C port on the power bank.
2. Plug the USB-A end of the cable into a compatible USB wall adapter (not included) or a computer's USB port.
3. The LED indicator lights on the power bank will illuminate to show the charging status. All lights will be solid when fully charged.

4.2 Checking Battery Level

Press the power button located on the side of the power bank. The LED indicator lights will show the remaining battery level:

- 1 LED: 0-25%
- 2 LEDs: 25-50%
- 3 LEDs: 50-75%
- 4 LEDs: 75-100%

5. OPERATING INSTRUCTIONS

5.1 Magnetic Wireless Charging (7.5W)

This feature is designed for iPhone 12/13/14/15/16 series and other MagSafe-compatible devices.

1. Ensure your iPhone is MagSafe compatible or has a MagSafe-compatible case.**Note:** Non-magnetic phone cases are not supported.
2. Align the power bank with the back of your iPhone. The strong magnets will automatically snap the power bank into place.
3. Charging will begin automatically. The iPhone screen will display a charging animation.

5.2 Wired Fast Charging (20W USB-C PD)

The USB-C port on the power bank supports 20W Power Delivery for fast wired charging of compatible devices.

1. Connect a USB-C to USB-C cable (not included, or use the provided USB-A to USB-C cable with an appropriate adapter) to the USB-C port on the power bank.
2. Connect the other end of the cable to your device's charging port.
3. Charging will begin automatically.

5.3 Charging Multiple Devices Simultaneously

The power bank can charge two devices at once: one via magnetic wireless charging and another via the USB-C port. Note that charging speed may be slightly reduced when charging two devices simultaneously.

7. SAFETY INFORMATION

To ensure safe operation and prolong the lifespan of your power bank, please observe the following safety guidelines:

- Avoid exposing the power bank to extreme temperatures (hot or cold), direct sunlight, or high humidity.
- Do not disassemble, modify, or attempt to repair the device.
- Keep the power bank away from water or other liquids.
- Do not drop, puncture, or apply excessive force to the power bank.

- Use only certified charging cables and adapters.
- The power bank features built-in protection against overcharging, overdischarging, overheating, overcurrent, overvoltage, and short circuits.
- If the power bank becomes excessively hot during use, discontinue use immediately and contact customer support.

8. MAINTENANCE

- Clean the power bank with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use.
- If storing for an extended period, charge the power bank to approximately 50% every three months to maintain battery health.

9. TROUBLESHOOTING

9.1 Device Not Charging

- Ensure the power bank is sufficiently charged. Check the LED indicators.
- For wireless charging, verify your device is MagSafe compatible or has a MagSafe-compatible case. Ensure proper alignment.
- For wired charging, check that the USB-C cable is securely connected to both the power bank and your device. Try a different cable if necessary.
- Restart your device and try again.

9.2 Slow Charging

- Ensure you are using a 20W PD compatible adapter for wired fast charging.
- Charging two devices simultaneously may reduce individual charging speeds.
- Environmental factors (e.g., extreme temperatures) can affect charging efficiency.

9.3 Power Bank Overheating

- It is normal for the power bank to generate some heat during charging.
- If it becomes excessively hot, discontinue use immediately. This could indicate a malfunction or an issue with the connected device.
- Ensure proper ventilation and avoid covering the power bank during use.
