**domi outdoor living 8x12FT Steel Roof Gazebo (B0DRCGWFP7)**

# Domi 8x12FT Wall-Mounted Hardtop Gazebo Instruction Manual

Model: 8x12FT Steel Roof Gazebo (B0DRCGWFP7)

## 1. INTRODUCTION

---

Thank you for choosing the Domi 8x12FT Wall-Mounted Hardtop Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor structure. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Image 1.1: The Domi 8x12FT Wall-Mounted Hardtop Gazebo provides a shaded outdoor living space.

This gazebo is designed to offer a comfortable outdoor oasis, providing protection from rain and UV rays. Its generous 8x12FT size offers ample room for various outdoor activities and gatherings, enhancing both aesthetics and functionality of your outdoor space.

## 2. SAFETY INFORMATION

---

Your safety and the safety of others are paramount. Failure to follow these instructions may result in serious injury or damage to the product.

- **Assembly:** This gazebo requires at least two to three adults for safe assembly. Ensure all parts are accounted for and in good condition before starting.
- **Anchoring:** The gazebo must be securely anchored to a solid, level surface using the provided hardware. Failure to properly anchor the structure can lead to instability and collapse in windy conditions.
- **Weather Conditions:** The gazebo is designed to withstand wind speeds up to 40 MPH and a snow load capacity of

- Galvanized Steel Roof Panels
- Privacy Curtains and Mosquito Netting
- Detachable Support Poles (for winter use)
- Anchoring Hardware (screws, bolts, expansion screws)
- Assembly Tools (basic wrenches, hex keys)

## 4. SETUP AND ASSEMBLY INSTRUCTIONS

---

Assembly typically requires 2-3 people and can take several hours. Review the entire instruction manual before beginning. Organize all parts and hardware for easier access.

### 4.1 Site Preparation

- Choose a level, solid surface for installation, such as a concrete patio or wooden deck.
- Ensure adequate clearance around the gazebo for assembly and future use.
- The gazebo is designed to be wall-mounted. Identify a suitable wall for attachment, ensuring it can support the structure.

# Wall-Mounted Design

It saves space while offering maximum coverage and protection

---

Image 4.1: The wall-mounted design saves space and provides maximum coverage. Ensure proper attachment to a sturdy wall.

## 4.2 Frame Assembly

- Assemble the main aluminum frame components according to the detailed diagrams in your physical manual. It is recommended to pre-assemble longer sections on the ground before lifting.
- Do not fully tighten all bolts until the entire frame is assembled and squared. This allows for minor adjustments.
- Attach the wall-mounted side of the frame to your chosen wall using appropriate hardware for your wall type.

Image 4.2: The sturdy aluminum frame provides stability, rust resistance, and UV resistance.

## 4.3 Roof Installation

- Carefully install the galvanized steel roof panels onto the assembled frame. Follow the sequence specified in your manual to ensure proper overlap and drainage.
- Ensure all roof screws are tightened as you go, especially for central pieces, as access may be limited later.
- The roof features a sloping design to prevent water puddling.

## 4.4 Anchoring the Gazebo

- Once the frame and roof are complete, securely anchor the gazebo's base plates to the ground. The pre-drilled anchoring bases are designed for easy installation.
- It is recommended to use expansion bolts for reinforcement, especially on concrete surfaces.

Image 4.3: The sturdy structure includes roofing reinforcement and pre-drilled anchoring bases for enhanced stability.

## 4.5 Curtains and Netting Installation

- Install the inner mesh curtains and outer privacy curtains onto the double-track system.
- The mesh curtains provide mosquito protection while maintaining air circulation. The privacy curtains offer privacy and retain warmth.

## 5. OPERATING INSTRUCTIONS

### 5.1 Using Curtains and Netting

The gazebo features a double-track system for the inner mesh curtains and outer privacy curtains. These can be opened, closed, or tied back as needed to control airflow, privacy, and protection from insects or elements.

## Fully Opened View

Enjoy the outdoor scenery

## Inner Mesh Curtain

Mosquito protection and maintaining air circulation

## Outer Privacy Curtain

Protect privacy and retain warmth

Image 5.1: The multi-functional curtains allow for a fully opened view, mosquito protection with mesh, or full privacy with outer curtains.

### 5.2 Detachable Support Poles

For enhanced stability during snowy or extremely windy conditions, install the provided detachable support poles. These poles are designed to provide additional structural integrity against heavy loads and strong gusts. Ensure they are properly secured according to the instructions in your manual.

## 6. MAINTENANCE

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning:** Clean the frame and roof panels with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

- **Drainage System:** Regularly inspect and clear the roof's drainage channels of leaves, branches, and other debris to ensure efficient water runoff and prevent pooling.
- **Fasteners:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary.
- **Fabric Care:** Clean curtains and netting according to their specific care instructions, typically using mild soap and water. Ensure they are completely dry before storing or folding to prevent mildew.
- **Winter Preparation:** In areas with heavy snowfall, install the detachable support poles. Consider removing curtains and netting during prolonged periods of severe weather to prevent damage.

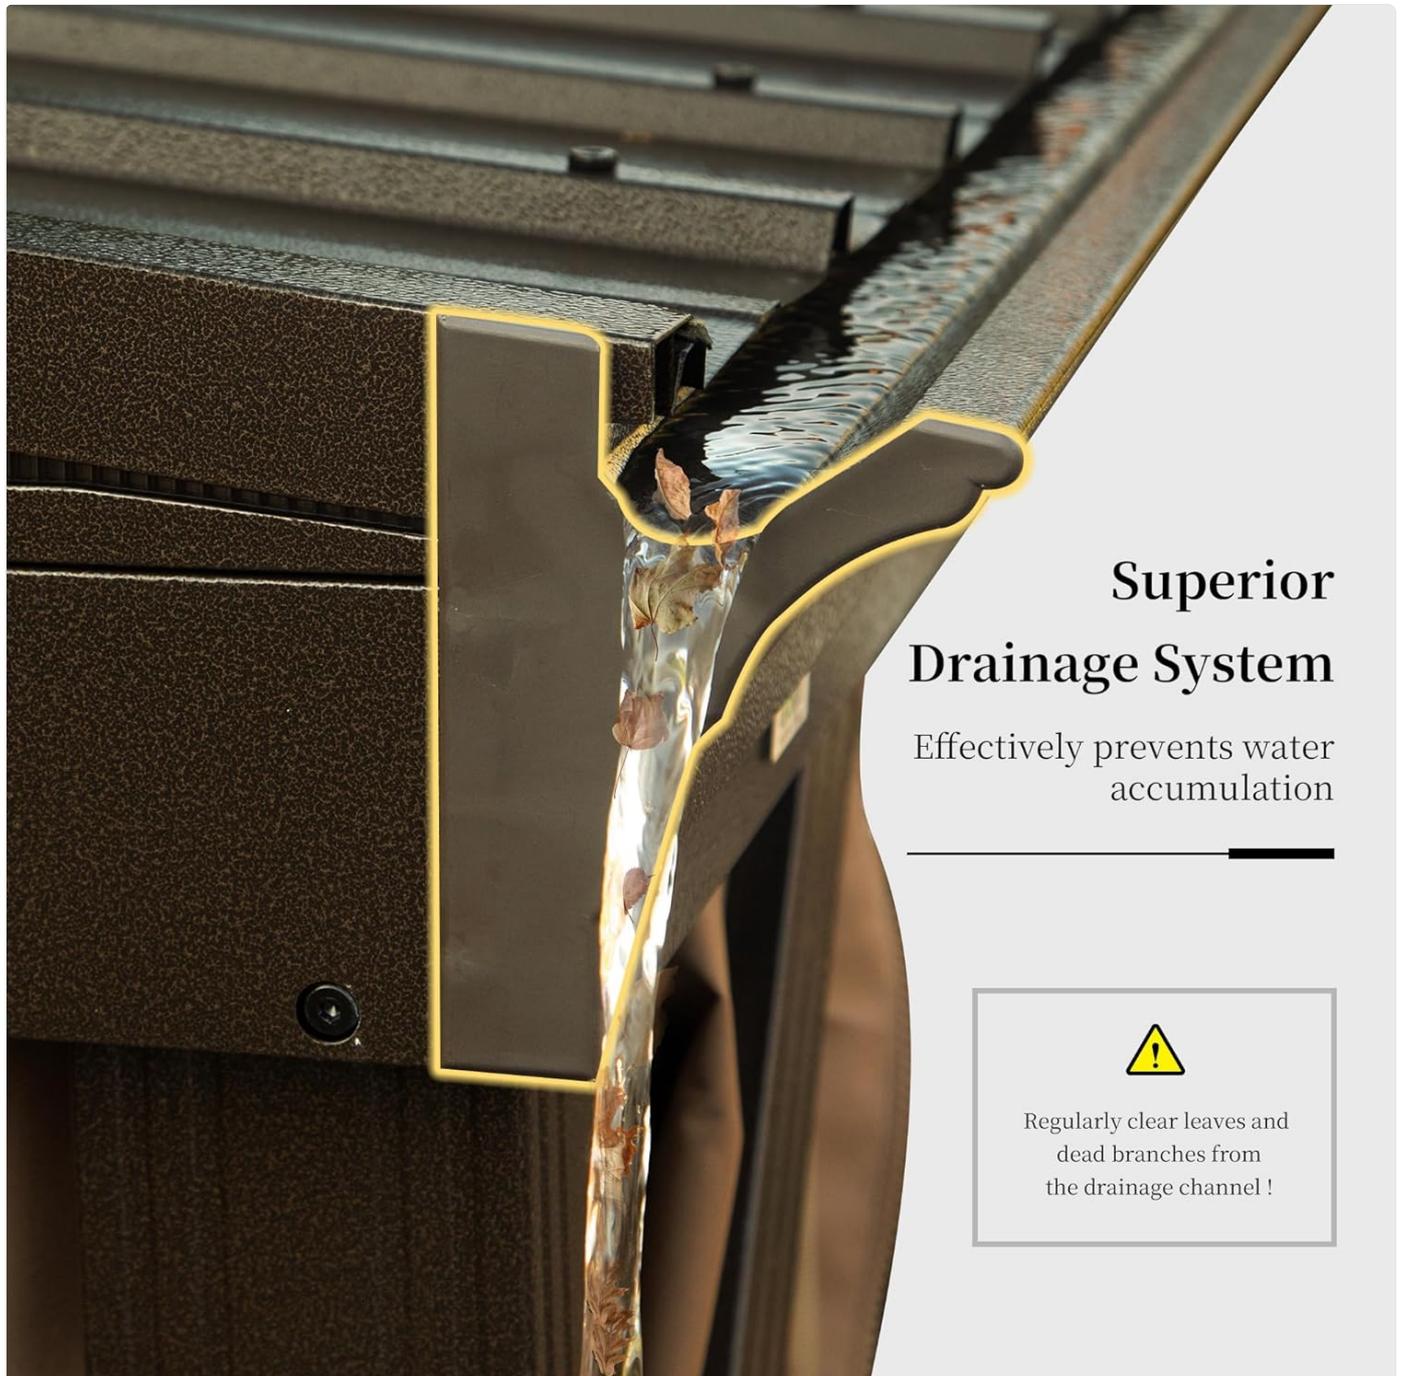

Image 6.1: The superior drainage system effectively prevents water accumulation. Regularly clear debris from the drainage channel.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter.

- **Gazebo feels unstable:** Ensure all anchoring points are securely fastened to the ground and wall. Check all frame connections for tightness. Verify that the detachable support poles are installed if applicable for current weather

conditions.

- **Water pooling on the roof:** Inspect the drainage channels for blockages (leaves, debris). Clear any obstructions to allow water to flow freely. Ensure roof panels are correctly installed and overlapped.
- **Curtains/Netting not sliding smoothly:** Check the tracks for debris or obstructions. Clean the tracks and ensure the curtain hooks are properly seated.
- **Gaps between components:** During assembly, ensure all parts are aligned correctly before fully tightening fasteners. Minor adjustments may be possible by loosening and re-tightening connections.
- **Damage from wind:** Ensure the gazebo is properly anchored. In high winds, it is recommended to tie back or remove curtains and netting to reduce wind resistance.

## 8. SPECIFICATIONS

Feature	Specification
Brand	domi outdoor living
Model	8x12FT Steel Roof Gazebo (B0DRCGWFP7)
Material	Galvanized Steel Roof, Aluminum Frame
Product Dimensions (L x W x H)	144"L x 96"W x 98.4"H (12'L x 8'W x 8.2'H)
Item Weight	227.5 Pounds
Water Resistance Level	Waterproof
Ultraviolet Light Protection	99% UV-proof, UPF 50+
Snow Load Capacity	22 LBS./Square foot
Wind Resistance	40 MPH
Assembly Required	Yes

**Snow Load Capacity:** 22 LBS./Square foot

**Wind Resistant:** 40 MPH
