2. COMPONENTS OVERVIEW

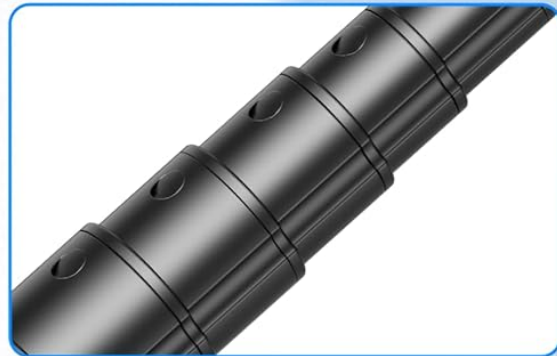

Familiarize yourself with the main parts of your SelfieShow C15 device:

- **Extendable Aluminum Pole:** The main shaft that extends for selfie stick use or tripod height adjustment.
- **Tripod Base:** Foldable legs at the bottom for stable freestanding use. Features anti-slip silicone pads.
- **Phone Holder:** Adjustable clamp to secure your smartphone. Detachable.
- **360° Rotatable Ball Head:** Allows for flexible angle adjustments of the phone holder. Includes a 1/4" screw for other accessories and a cold shoe interface.
- **Wireless Remote Control:** Bluetooth-enabled remote for capturing photos or starting videos from a distance. Stores securely in the handle.

3. SETUP INSTRUCTIONS

3.1 Remote Control Pairing

1. Ensure the remote control has a working CR2032 battery.
2. Press and hold the button on the remote control until the indicator light flashes, indicating it is in pairing mode.
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select "SelfieShow" from the list to pair. The indicator light on the remote will stop flashing once successfully paired.

Wireless Remote Shutter

3.2 Attaching Your Smartphone

1. Gently pull apart the phone holder clamps to expand them.
2. Insert your smartphone into the holder, ensuring it is securely gripped by both clamps. The holder accommodates phones between 2.5 to 3.7 inches (6.5 to 9.5 cm) in width.
3. Ensure your phone's buttons are not obstructed or pressed by the clamps.

Detachable Phone Clip & Widely Compatible

4. OPERATING INSTRUCTIONS

4.1 Using as a Selfie Stick

1. Hold the handle firmly.

2. Extend the aluminum pole to your desired length. The pole can extend from 9.8 inches (25 cm) to 49 inches (126 cm).
3. Adjust the phone holder's angle using the ball head to achieve the desired shot.
4. Use the paired wireless remote control to capture photos or start/stop video recording.

4.2 Using as a Tripod

1. From the collapsed position, gently pull the bottom handle downwards to deploy the tripod legs. Ensure the legs are fully spread for maximum stability.
2. Place the tripod on a flat, stable surface.
3. Extend the aluminum pole to your desired height.
4. Adjust the phone holder's angle using the ball head.
5. Use the paired wireless remote control to capture photos or start/stop video recording.

49,60"/126cm Tall Phone Tripod

freely adjust the height to meet your different needs

Figure 6: Visual guide demonstrating the adjustable height of the tripod from its folded state to various extended heights, up to 49 inches (126 cm).

4.3 Using the Cold Shoe and 1/4" Screw Mount

The SelfieShow C15 features a cold shoe interface and a standard 1/4" screw mount for expanded functionality:

- **Cold Shoe:** Located on top of the phone holder, this allows you to attach accessories such as external microphones or LED fill lights.

- **1/4" Screw Mount:** The ball head features a universal 1/4" screw, allowing direct attachment of compact cameras, action cameras (like GoPro), or other compatible accessories when the phone holder is detached.

5. MAINTENANCE

5.1 Cleaning

- Wipe the device with a soft, dry cloth.

- Do not use harsh chemicals or abrasive cleaners.
- Avoid exposing the device to excessive moisture.

5.2 Storage

- Store the selfie stick in a cool, dry place when not in use.
- Ensure the remote control is securely placed in its designated slot to prevent loss.

5.3 Remote Control Battery Replacement

The remote control uses a CR2032 coin cell battery. To replace:

1. Locate the battery compartment on the remote control.
2. Use a small coin or tool to open the compartment.
3. Remove the old battery and insert a new CR2032 battery with the positive (+) side facing up.
4. Close the battery compartment securely.

6. TROUBLESHOOTING

6.1 Remote Control Not Connecting

- Ensure the remote control battery is not depleted. Replace if necessary.
- Make sure Bluetooth is enabled on your smartphone.
- Try unpairing and re-pairing the remote control in your phone's Bluetooth settings.
- Ensure the remote is within the 30 ft (10 m) operating range of your phone.

6.2 Tripod Instability

- Ensure the tripod legs are fully extended and locked into position on a flat, stable surface.
- Avoid extending the pole to its maximum height in windy conditions or on uneven terrain.
- Verify that your smartphone is securely seated in the phone holder and balanced.

6.3 Phone Not Fitting in Holder

- Check that your phone's width is within the compatible range of 2.5 to 3.7 inches (6.5 to 9.5 cm).
- Remove any bulky phone cases if they prevent a secure fit.

7. SPECIFICATIONS

Feature	Detail
