## 4. OPERATING INSTRUCTIONS

### 4.1 Opening the Umbrella

1. Ensure the umbrella canopy is loose and not tangled.
2. Locate the button on the handle.
3. Press the button firmly. The umbrella will automatically extend and open.
4. Ensure the canopy is fully extended and locked into place before use.

### 4.2 Closing the Umbrella

1. Press the same button on the handle. The canopy will retract.
2. Manually push the shaft down until it clicks into its fully closed position.
3. Wrap the Velcro strap around the folded canopy to secure it.
4. Place the umbrella back into its waterproof case for storage.

## 5. MAINTENANCE

- **Drying:** Always allow the umbrella to dry completely in an open position before folding and storing it in its case to prevent mildew and damage to the fabric.
- **Cleaning:** Wipe the canopy with a damp cloth and mild soap if necessary. Do not use harsh chemicals.
- **Storage:** Store the umbrella in its waterproof case in a cool, dry place when not in use.

## 6. TROUBLESHOOTING

- **Umbrella does not open/close smoothly:** Ensure the canopy fabric is not tangled around the ribs or shaft. Apply gentle pressure when opening or closing.
- **Canopy inverts in strong winds:** While designed to be windproof, extreme winds may cause inversion. If this occurs, gently pull the canopy back into shape. The fiberglass ribs are designed to flex without breaking.
