## 2. SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and/or injury to persons.

- Read all instructions before operating the micro pressure cooker.

- Do not place the cooker on high heat without contents to prevent damage.
- Ensure the lid is properly secured and the micro-pressure relief valve is clear before cooking.
- Always allow pressure to release naturally or through the designated valve before attempting to open the lid.
- Use caution when handling hot surfaces and steam. Always use oven mitts or heat-resistant gloves.
- Keep out of reach of children.
- Do not modify the appliance or use non-original parts.

### 3. PRODUCT OVERVIEW

#### 3.1 Key Features

- Constructed from high-quality iron with a non-stick coating for durability and corrosion resistance.
- Large 8.45Qt (8L) capacity, suitable for preparing meals for 5-7 people.
- Equipped with an automatic micro-pressure relief valve for regulated pressure and quick lid opening.
- Features a heat-resistant glass lid with a secure locking buckle and an explosion-proof design for enhanced safety.
- Micro-pressure technology designed to shorten cooking time, retain flavors, and preserve nutrients.

#### 3.2 Components

The package includes the micro pressure cooker, a sponge brush, and all necessary accessories for assembly.

## **4. SETUP AND ASSEMBLY**

### **4.1 Initial Cleaning**

1. Before first use, clean the micro pressure cooker by boiling water with a mild detergent for 1-3 minutes.
2. Rinse thoroughly with clean water and dry completely.

### **4.2 Handle Assembly**

Attach the handles to the pot according to the included assembly instructions. Ensure all screws are tightened securely for safe handling.

## **5. OPERATING INSTRUCTIONS**

### **5.1 Stove Compatibility**

This micro pressure cooker is compatible with various heat sources, including:

- Open Fire
- Induction Cooker
- Electric Stove
- Gas Stove

## **5.2 Cooking Process**

1. **Prepare Ingredients:** Place your desired ingredients into the micro pressure cooker. Do not overfill; ensure there is adequate space for pressure to build and for the lid to close securely.

*Image 5: Micro pressure cooker filled with ingredients, ready for cooking.*

- Secure the Lid:** Place the heat-resistant glass lid onto the pot. Align the locking buckle and ensure the lid is firmly sealed. The automatic micro-pressure relief valve should be clear of obstructions.

*Image 6: Micro pressure cooker with the lid secured during cooking.*

- 3. Apply Heat:** Place the cooker on your chosen heat source. Start with medium heat. The micro-pressure technology will begin to shorten cooking time.
- 4. Pressure Release:** Once cooking is complete, remove the cooker from the heat. Allow the pressure to release naturally or follow specific instructions for quick pressure release if applicable to your model. The automatic micro-pressure relief valve will assist in regulating pressure.
- 5. Open Lid:** Only open the lid once all pressure has been safely released. The design allows for quick lid opening after pressure is gone.

## **6. MAINTENANCE AND CARE**

### **6.1 Cleaning**

- Clean the cooker with a soft sponge or cloth and mild detergent.
- Avoid using steel wool, abrasive cleaners, or harsh chemicals, as these can damage the non-stick coating.
- Promptly clean any grease or seasoning stuck on the outer wall to prevent discoloration.
- The cooker is dishwasher safe.

## 6.2 Non-Stick Coating Care

- To protect the non-stick surface, use silicone or wooden spatulas and utensils. Avoid metal utensils that can scratch the coating.
- Store the cooker carefully to prevent scratching the interior surface.

## 7. TROUBLESHOOTING

If you encounter issues with your micro pressure cooker, please refer to the following common troubleshooting tips:

- **Lid not sealing properly:** Ensure the lid is correctly aligned with the pot and the locking mechanism is fully engaged. Check the sealing gasket for any damage or misalignment.
- **No pressure build-up:** Verify that the lid is securely closed and the micro-pressure relief valve is not obstructed or damaged. Ensure sufficient liquid is added to the pot for pressure generation.
- **Food sticking:** Although the pot has a non-stick coating, using a small amount of cooking oil can further prevent sticking. Ensure heat is not excessively high.
- **Discoloration:** Promptly clean any food residue or grease from the exterior of the pot after each use to prevent staining.

For issues not covered here, please contact customer support.

## 8. SPECIFICATIONS

Feature	Detail
Brand	LYNICESHOP
Model Number	8L / 8.45Qt
Capacity	8 Liters (8.45 Quarts)
Material	Iron with Non-stick Coating
Color	WHITE
Finish Type	Matte
Product Dimensions (D x W x H)	10.24"D x 7.08"W x 10.24"H (28cm x 15cm)
Special Feature	Gas Stovetop Compatible
Control Method	Touch (Note: This refers to general interaction, not electronic controls)
Operation Mode	Automatic (Refers to automatic pressure relief, not electronic operation)
Dishwasher Safe	Yes
UPC	763492650008
