Dreo DR-HAF005 Pearl White

Dreo 11-Inch Air Circulator Fan User Manual

Model: DR-HAF005 Pearl White | Brand: Dreo

Introduction

The Dreo 11-Inch Air Circulator Fan is designed to provide powerful and quiet air circulation for your home or office. Featuring advanced TurboSilent technology and a unique airfoil design, it delivers cool air up to 60ft away, ensuring comfortable airflow throughout your entire room. Its versatile movement options and user-friendly controls make it an essential addition to any space.

Figure 4: Back View (Power Cord, Air Intake)

Setup

Unpacking

Carefully remove all components from the packaging. Ensure all packing materials are removed from around the fan unit before operation.

Your browser does not support the video tag.

Video 1: Unboxing and initial setup of the Dreo Air Circulator Fan.

Placement

Place the fan on a stable, flat surface. For optimal air circulation, position the fan in a location where its airflow can reach desired areas of the room, such as a desk, nightstand, or floor.

Power Connection

Plug the power cord into a standard electrical outlet. Ensure the voltage matches the fan's requirements.

Operating Instructions

Control Panel and Remote Control

The fan can be operated using the touch controls on its base or the included remote control. The remote control offers full functionality from a distance.

Control Functions

Button/Icon	Function
Power Button	Turns the fan On/Off.
+/- Buttons	Adjusts fan speed (4 levels).

Button/Icon	Function
Mode Button	Cycles through wind modes (Normal, Auto).
Timer Button	Sets the auto-off timer (up to 8 hours).
Oscillation Button	Activates/deactivates 90° horizontal oscillation.
Mute Button	Turns button press sounds On/Off.

Fan Speeds and Modes

The fan offers 4 adjustable speeds to suit your comfort needs. Use the Mode button to switch between:

- **Normal Mode:** Provides a constant airflow at the selected speed.
- **Auto Mode:** The fan automatically adjusts its speed based on the ambient room temperature, providing optimal comfort.

Your browser does not support the video tag.

Video 2: Demonstration of fan speeds and modes.

Oscillation and Tilt Adjustment

The fan supports 90° horizontal oscillation to cover a wider area. Press the Oscillation button to activate or deactivate this feature. For vertical airflow adjustment, manually tilt the fan head up to 120° to direct air precisely where needed.

Figure 7: Oscillation and Manual Tilt Capabilities

Timer Function

Set the fan to automatically turn off after a specified period using the Timer button. The timer can be set for up to 8 hours, allowing you to conserve energy and enjoy uninterrupted comfort.

Quiet Operation

Designed for silent comfort, the Dreo fan operates at an ultra-quiet 28dB. The LED display also features a 60-second auto screen-off function to ensure an undisturbed environment, especially during sleep.

Maintenance

Cleaning the Fan

To ensure optimal performance and clean air, regularly clean your fan. The detachable front grille and blades make cleaning simple and hassle-free.

- Unplug the fan before disassembling.
- Remove the front grille by following the instructions on the fan unit (usually involves unscrewing a single screw at the bottom).
- Carefully remove the fan blades.
- Wipe the grille and blades with a soft, damp cloth. For stubborn dirt, use a mild soap solution.
- Ensure all parts are completely dry before reassembling.

Storage

When not in use for extended periods, store the fan in a cool, dry place, preferably in its original packaging to protect it from dust and damage.

Troubleshooting

Common Issues and Solutions

Problem	Possible Cause	Solution
Fan does not turn on.	Not plugged in; Power outlet malfunction; Power button not pressed.	Ensure the fan is securely plugged into a working outlet. Press the power button.
Weak airflow.	Fan speed is too low; Grille or blades are dirty.	Increase the fan speed. Clean the front grille and blades as per maintenance instructions.
Unusual noise.	Fan is not on a stable surface; Obstruction in fan blades.	Place the fan on a flat, stable surface. Unplug and check for any obstructions.
Remote control not working.	Battery is dead; Obstruction between remote and fan.	Replace the remote control battery. Ensure there are no obstructions.

Specifications

Feature	Detail
Brand	Dreo
Model Name	DR-HAF005 Pearl White
Product Dimensions	10.71"D x 8.35"W x 11.81"H
