6. MAINTENANCE

To ensure the longevity and optimal performance of your Pastigio Digital Clock, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the display and casing with a soft, dry, lint-free cloth. Avoid using abrasive cleaners, solvents, or spray cleaners directly on the screen.
- **Placement:** Keep the clock away from direct sunlight, extreme temperatures, and high humidity. Ensure it is placed on a stable surface or securely mounted.
- **Power:** Use only the provided power adapter. Disconnect power during electrical storms or when not in use for extended periods.

7. TROUBLESHOOTING

If you encounter any issues with your Pastigio Digital Clock, please refer to the following common problems and solutions:

- **Clock not turning on:**
 - Ensure the power adapter is securely connected to both the clock and a working electrical outlet.
 - Verify that the power outlet is functional by plugging in another device.
- **Display is blank or flickering:**
 - Check the power connection.
 - Try adjusting the brightness settings using the remote or back buttons.
 - Unplug the clock, wait 10 seconds, and plug it back in to reset.
- **Remote control not working:**

- Ensure the plastic battery tab has been removed.
- Point the remote directly at the clock's sensor.
- Replace the remote control battery if necessary.
- **Alarms or reminders not sounding:**
 - Verify that the alarm/reminder is enabled in the settings.
 - Check the volume level settings.
- **Time is incorrect after power outage:**
 - The clock is designed to maintain precise timing even after a power outage, so manual reset should not be required. If the time is incorrect, manually adjust it via the settings menu.
