- **Wobbly Desk:** Ensure all assembly screws are securely tightened. Check that the adjustable leg pads are properly leveled on uneven floors.
- **Drawers Not Sliding Smoothly:** Verify that the drawer slides are correctly installed and free from obstructions. Ensure the drawers are not overloaded.
- **Parts Not Fitting During Assembly:** Double-check the part numbers against the assembly instructions. Ensure screws are not over-tightened in adjacent parts, which can cause misalignment. Loosen slightly if needed, then re-tighten once parts are aligned.
