OPERATING INSTRUCTIONS

Using as a Portable Power Bank

1. Fold the device into its compact portable power bank form.
2. For MagSafe compatible iPhones, simply snap the phone onto the magnetic charging area.
3. For Apple Watch, place it on the integrated watch charging pad.
4. For AirPods, place the case on the wireless charging area.

5. Alternatively, use the provided USB-C cables to charge other devices via the USB-C ports.

Fast Charging with USB-C Cables

The included USB-C cables support Power Delivery (PD) and Quick Charge (QC) protocols for rapid charging. Connect one end of the USB-C cable to your device and the other end to a compatible power source (e.g., the Kysson power bank or a wall adapter). Ensure your device also supports fast charging for optimal performance.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank and cables. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the power bank frequently. Recharge it regularly, even if

not in use for extended periods.

- **Cable Care:** Avoid sharp bends or excessive pulling on the USB-C cables to prevent damage to the connectors or braiding.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging wirelessly.	Device not properly aligned; foreign objects on charging pad; device not wireless charging compatible.	Ensure device is centered on the charging area. Remove any metal objects or thick cases. Verify device supports wireless charging.
Power bank not charging.	Cable or adapter issue; power bank fully charged; faulty port.	Try a different USB-C cable and power adapter. Check LED indicators. Contact support if issue persists.
Slow charging.	Using a non-fast charging adapter/cable; device not supporting fast charging; multiple devices charging simultaneously.	Use a PD/QC compatible adapter and the provided Kysson USB-C cables. Ensure your device supports fast charging. Charging multiple devices may reduce individual charging speeds.
USB-C cable not transferring data.	Incorrect port; cable damage; device settings.	Ensure both devices are set to allow data transfer. Try a different port or cable.
