WAGAYA no IDOL C1

PET MARVEL C1 Automatic Cat Litter Box User Manual

Model: C1 | Brand: WAGAYA no IDOL

1. Introduction

Thank you for choosing the PET MARVEL C1 Automatic Cat Litter Box. This smart litter box is designed to provide a clean and convenient solution for cat owners, featuring automatic cleaning, smart app control, and multiple safety functions. Please read this manual thoroughly before use to ensure proper operation and maintenance.

The PET MARVEL C1 Automatic Cat Litter Box, shown with its accompanying smartphone application for smart control.

2. Key Features

2.1 Top Open Design for Easy Access

The PET MARVEL C1 features an open-top design, making it easy for cats of various sizes to enter and exit. This design accommodates cats' natural habit of surveying their surroundings (360-degree view) before and during elimination.

The open-top design ensures easy entry and exit for cats, aligning with their natural behaviors.

2.2 Suitable for Cats 1.5-10kg, 6 Months and Older

The spacious and open litter box area provides comfort for large cats. For kittens under 6 months or weighing less than 1.5kg, activate the 'Kitten Mode' (disables automatic cleaning) for safe training.

The spacious interior accommodates cats from 1.5kg to 10kg, ensuring comfort for various sizes.

2.3 Durable High-Performance Pad

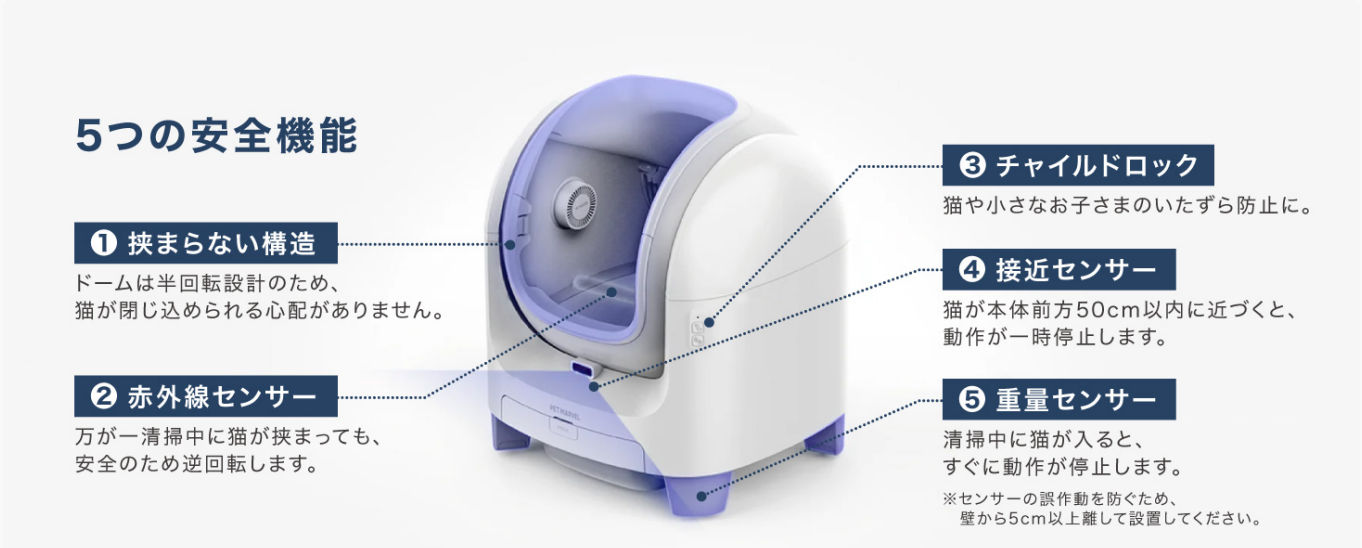

The litter box features a high-performance pad made from 400D Oxford fabric with PVC coating and polyester material. This pad is designed to prevent leaks, resist litter adhesion, and withstand scratching.

The robust pad material ensures durability and hygiene.

2.4 Five Safety Functions

- **Anti-Pinch Structure:** The dome's semi-rotating design prevents cats from being trapped.
- **Infrared Sensor:** If a cat enters during cleaning, the unit reverses for safety.
- **Proximity Sensor:** Operation temporarily stops if a cat approaches within 50cm of the front.
- **Weight Sensor:** Operation immediately stops if a cat enters during cleaning. (Note: Place the unit at least 5cm from walls to prevent sensor malfunction.)
- **Child Lock:** Prevents tampering by cats or small children.

Multiple sensors and design features ensure the safety of your pet.

2.5 Smartphone App Control and Management

Manage and configure your litter box via the dedicated smartphone app (compatible with iOS/Android). The app requires the product to be connected to a 2.4GHz Wi-Fi network.

- **Five Cleaning Modes:** Automatic, Manual, Schedule, Sleep, Kitten.
- **Cat Health Management:** Monitor litter box usage frequency and activity logs. (Note: Actual weight may vary depending on where the cat stands.)
- **Multi-Cat Management:** Manage multiple cats by weight. (Note: A weight difference of approximately 500g or more is required for cat identification. Activity logs display weight, not names.)

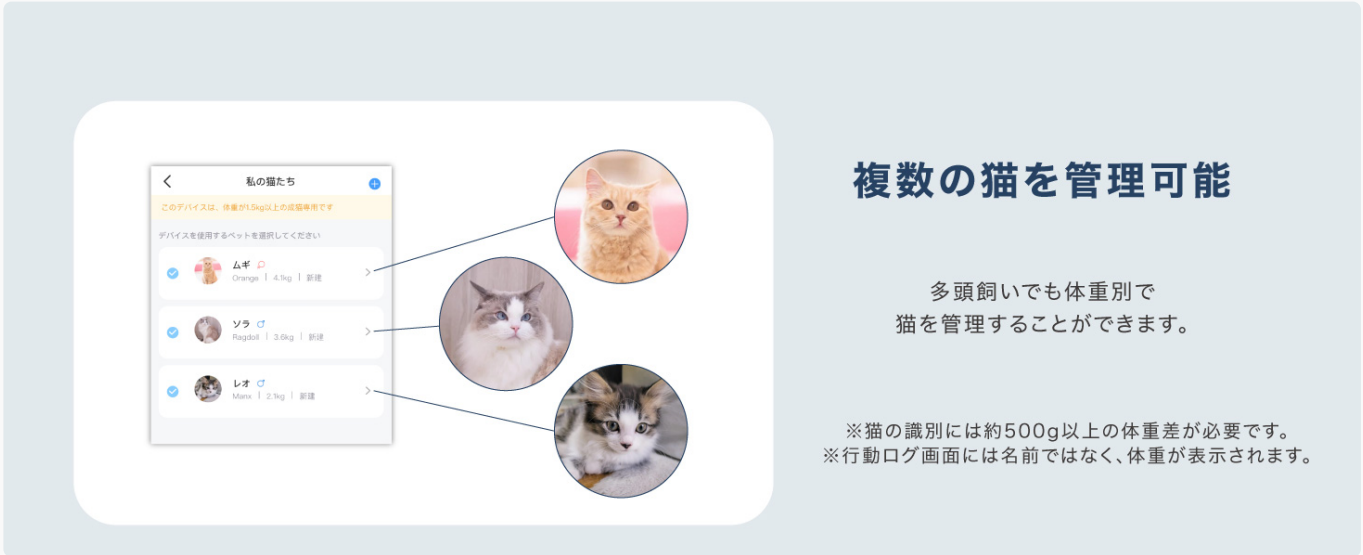

- **Information Sharing:** Share device information with other smartphones for family monitoring.
- **Remote Operation:** Control the unit remotely via Wi-Fi.
- **Real-time Notifications:** Receive alerts for cleaning completion, low litter levels, or full waste bin.

The app provides comprehensive control over cleaning modes.

Monitor your cat's health and litter box usage through the app.

Manage multiple cats and track their individual usage.

Remote operation allows control from anywhere with Wi-Fi.

Receive real-time notifications for various status updates.

2.6 9L Large Capacity Waste Bin

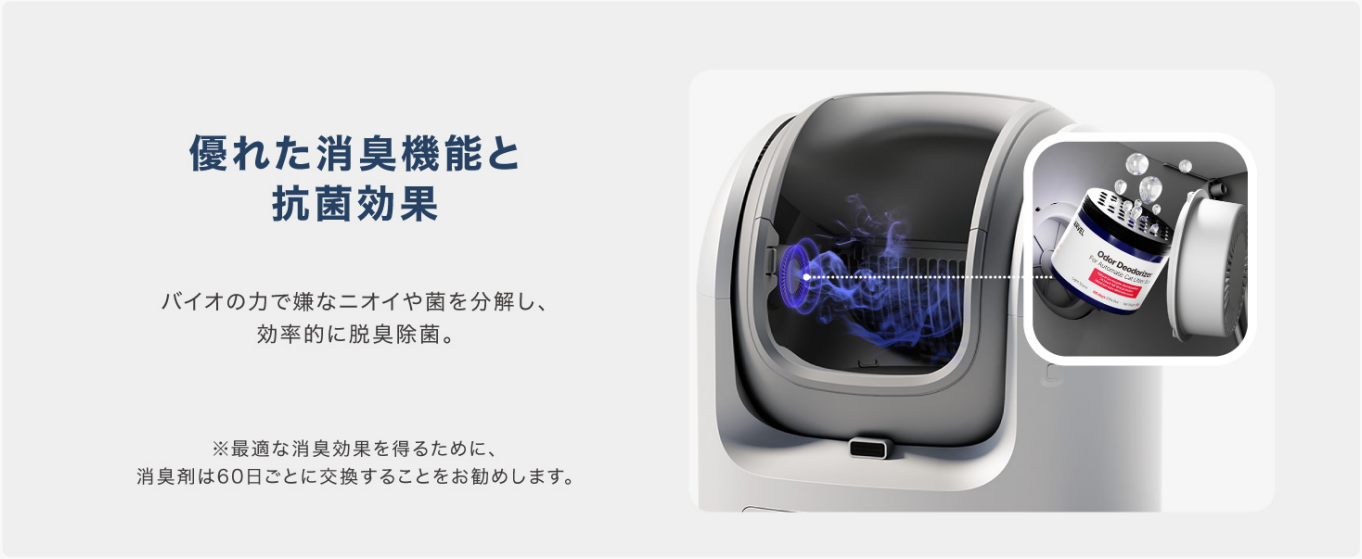

The 9L large capacity waste bin can hold approximately 10-15 days of waste for one cat, making it ideal for extended absences or travel. Using dedicated garbage bags allows for quick and clean disposal without direct contact with waste.

The large waste bin reduces the frequency of waste disposal.

2.7 Excellent Deodorization and Antibacterial Effect

Utilizing bio-power, the unit efficiently decomposes unpleasant odors and bacteria, providing effective deodorization and sterilization. For optimal deodorizing effect, it is recommended to replace the deodorizer every 60 days.

The integrated deodorization system keeps the area fresh.

2.8 Compatible with Clumping Cat Litters

The PET MARVEL C1 is compatible with various clumping cat litters, including bentonite, mineral-based, mixed, and tofu litters. It can be used regardless of the size of the litter particles. Please note that non-clumping litters such as wood or silica gel cannot be used.

Supports a wide range of clumping cat litters.

2.9 Quiet Operation

Designed for sensitive cats, the litter box operates with minimal noise, approximately 45dB. During nighttime, you can set it to 'Sleep Mode' to stop automatic cleaning, ensuring a peaceful environment.

The quiet design ensures comfort for both cats and owners.

3. Setup Guide

3.1 Unpacking and Initial Placement

Carefully remove all components from the packaging. Place the unit on a flat, stable surface, ensuring it is at least 5cm away from any walls to prevent sensor interference. Connect the power adapter to the unit and plug it into a power outlet.

3.2 Wi-Fi Connection

The PET MARVEL C1 supports 2.4GHz Wi-Fi networks only. It is not compatible with 5GHz networks. For stable connection, avoid using pocket Wi-Fi devices if possible, as they may lead to unstable connections.

1. Download the dedicated PET MARVEL app from your smartphone's app store (iOS/Android).
2. Follow the in-app instructions to register your device and connect it to your home 2.4GHz Wi-Fi network.
3. Ensure your smartphone is also connected to the 2.4GHz network during the initial setup process.

4. Operating Instructions

4.1 Cleaning Modes via App

- **Automatic Mode:** Adjust the delay time (1-60 minutes) before cleaning starts after your cat exits the litter box. Adjust based on your cat litter's clumping speed.
- **Manual Mode:** Initiate cleaning immediately from the app. You can also press the button on the unit directly.
- **Schedule Mode:** Set specific days and times for cleaning to begin.
- **Sleep Mode:** Disable automatic cleaning during specified hours (e.g., nighttime) to ensure quietness.
- **Kitten Mode:** Disables automatic cleaning, suitable for training kittens under 1.5kg or 6 months old.

4.2 Adding Cat Litter

Cat litter can be easily added from the top without disassembling the main unit. The unit also features a manual litter discharge button on the side. Litter discharge can also be operated via the app.

Refilling cat litter is convenient and mess-free from the top.

5. Maintenance

5.1 Disassembly and Cleaning

The unit can be easily disassembled in 3 steps for cleaning. All parts except the main unit (which contains precision machinery) are washable.

1. Remove the top cover.
2. Push up the handle lock.
3. Remove the drum.

Simple disassembly for thorough cleaning.

5.2 Replacing Waste Bags

The frequency of waste bag replacement varies depending on the individual cat and litter box usage frequency. When the app notifies you that the waste bin is full, replace the bag. Use dedicated garbage bags for easy and hygienic disposal.

5.3 Replacing Deodorizer

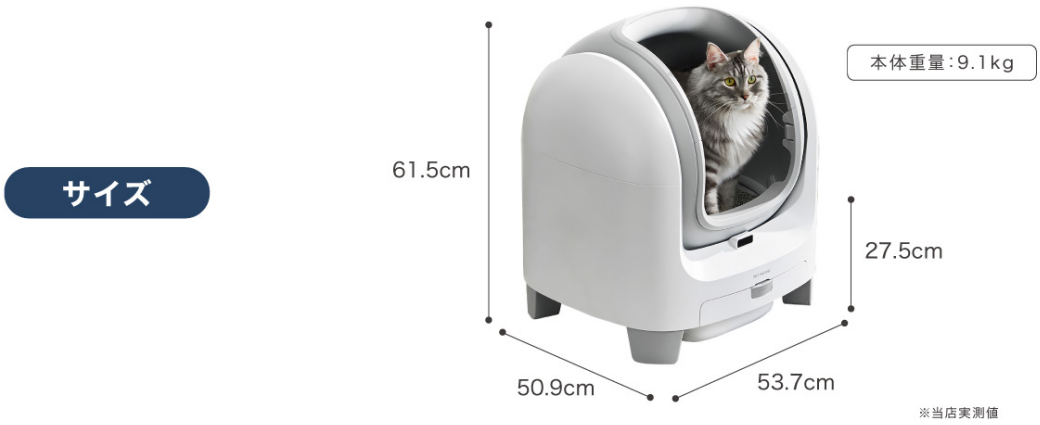

For optimal deodorizing effect, it is recommended to replace the deodorizer cartridge every 60 days.

6. Troubleshooting

Issue	Possible Cause	Solution
Unit not cleaning automatically.	Kitten Mode is active, or a cat is still inside/near the unit.	Check app settings for Kitten Mode. Ensure no cat is detected by sensors.
Wi-Fi connection unstable.	Connected to 5GHz network or using pocket Wi-Fi.	Ensure connection to a 2.4GHz Wi-Fi network. Avoid pocket Wi-Fi for stable connection.
Sensors malfunctioning.	Unit placed too close to a wall.	Ensure the unit is placed at least 5cm away from walls.
Odor persists after cleaning.	Deodorizer needs replacement.	Replace the deodorizer cartridge (recommended every 60 days).

7. Specifications

Feature	Detail
Product Model Number	C1
Color	White
Applicable Cat Weight	1.5kg ~ 10kg
Applicable Cat Age	6 months and older
Communication Method	Wi-Fi (2.4GHz)
Power Consumption	24W
Rated Input	DC12V/2A
Waste Bin Capacity	9L
Main Materials	Acrylonitrile Butadiene Styrene (ABS), Polypropylene (PP)
Product Dimensions (L x W x H)	53.7cm x 50.9cm x 61.5cm
Product Weight	9.1 kg
Country of Manufacture	China

Detailed dimensions of the unit.

8. Package Contents

The PET MARVEL C1 package includes the following items:

- Main Unit
- Power Adapter
- Garbage Bag Roll (20 bags)
- Deodorizer
- Instruction Manual

All components included in the product package.

9. Warranty and Support

For warranty information and customer support, please refer to the specific warranty card included with your product or contact the seller directly. Keep your purchase receipt as proof of purchase for any warranty claims.
