Totnz Countertop Ice Maker (Model GFIM27B) Instruction Manual

Portable Ice Maker with Self-Cleaning Function

PRODUCT OVERVIEW

The Totnz Countertop Ice Maker is designed to provide a convenient and efficient way to produce ice. This compact and portable unit can generate up to 26 pounds of ice per day and offers two different ice cube sizes to suit various needs. It features an intuitive control panel and an automatic self-cleaning function for ease of use and maintenance.

SETUP INSTRUCTIONS

- 1. Unboxing:** Carefully remove the ice maker from its packaging. Ensure all components, including the ice basket and scoop, are present.
- 2. Placement:** Place the ice maker upright on a flat, stable surface. For optimal performance and to prevent internal damage, allow the unit to rest in an upright position for at least 24 hours before plugging it in.
- 3. Handle Installation:** The portable carry handle can be easily attached by aligning it with the designated slots on the sides of the unit and securing it.
- 4. Power Connection:** Plug the ice maker into a grounded 120-Volt electrical outlet.
- 5. Fill Water Reservoir:** Open the lid and remove the ice basket. Fill the water reservoir with clean, potable water up to the 'MAX' fill line indicated inside the reservoir. Do not overfill.

COMPACT SIZE WITH CARRY HANDLE

Figure 2: The ice maker features a convenient carry handle for portability.

OPERATING INSTRUCTIONS

1. **Power On:** Press the **ON/OFF** button on the control panel to turn on the ice maker. The 'POWER' indicator light will illuminate.

2. **Select Ice Size:** Press the **SELECT** button to choose between 'SMALL' or 'LARGE' ice cubes. The corresponding indicator light will illuminate.
3. **Ice Production:** The machine will begin the ice-making cycle. It typically produces 9 ice cubes in 6-8 minutes, depending on room temperature and water temperature. The daily production capacity is up to 26 lbs.
4. **Ice Full Indicator:** When the ice basket is full, the 'ICE FULL' indicator light will turn on, and the machine will pause operation. Remove ice from the basket to resume production.
5. **Add Water Indicator:** If the water reservoir is low, the 'ADD WATER' indicator light will illuminate. Refill the reservoir to continue ice production.

6 MINUTES TO YOUR NEXT CHILL

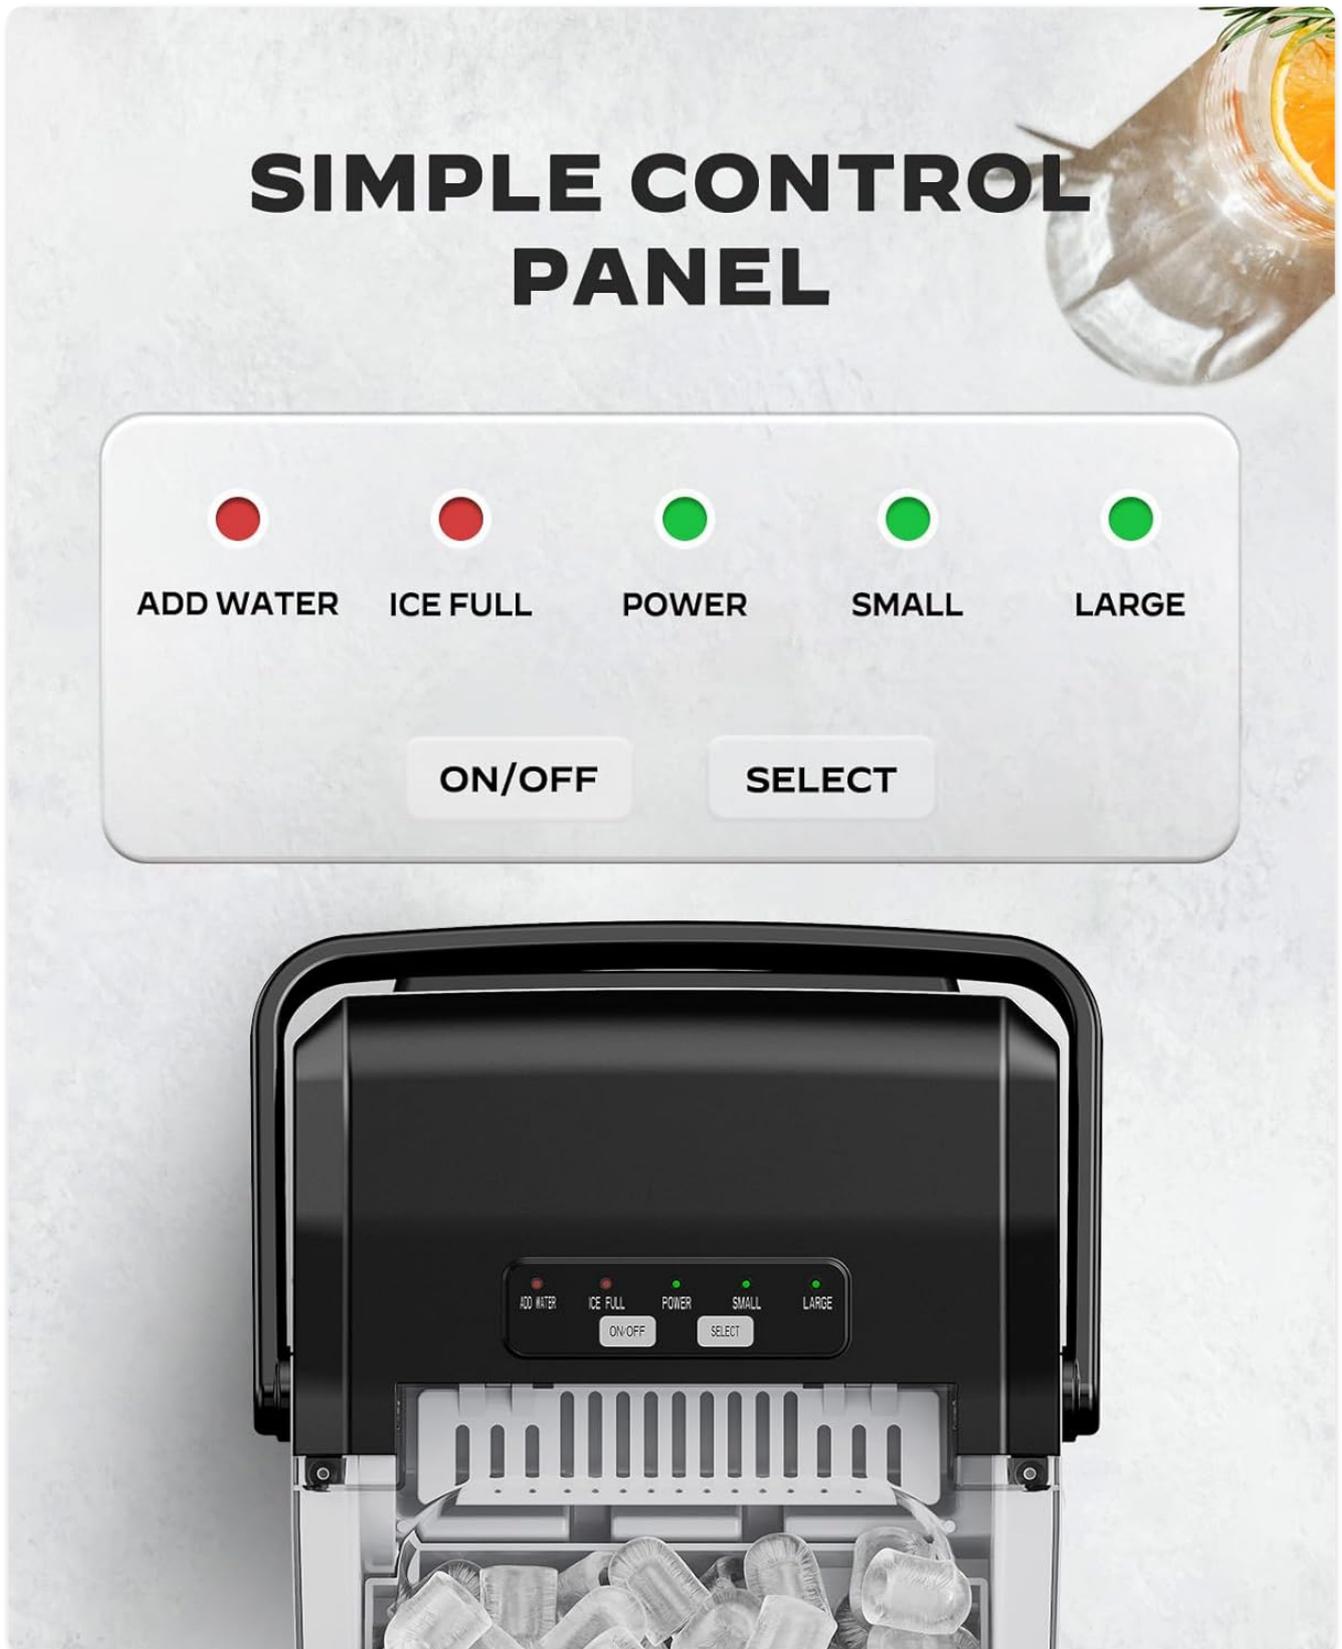

Figure 4: The ice maker produces two sizes of ice cubes: small (0.78"x0.95") and large (0.90"x1.01").

MAINTENANCE AND CLEANING

Automatic Self-Cleaning Function

The Totnz Ice Maker includes a 30-minute automatic self-cleaning cycle to ensure hygiene and optimal ice quality. It is recommended to run this cycle every half a month.

1. **Prepare for Cleaning:** Empty the ice basket and ensure the water reservoir is filled to the 'MAX' line with a mixture of water and vinegar (recommended ratio 5:1 water to vinegar).
2. **Activate Self-Cleaning:** With the unit powered on, press and hold the **ON/OFF** button for 5 seconds. The self-cleaning cycle will begin.
3. **Drain Water:** After the 30-minute cycle is complete, unplug the unit. Locate the drainage plug at the bottom of the ice maker and remove it to drain the cleaning solution. Replace the plug securely once drained.

General Cleaning

- Regularly clean the ice basket and water reservoir with mild soap and water. Rinse thoroughly.
- Wipe the exterior of the unit with a soft, damp cloth.
- Ensure the lid is kept closed to prevent dust and debris from entering the ice-making area.

AUTOMATIC SELF-CLEANING

Maintain your ice machine with ease

SPECIFICATIONS

Brand	Totnz
-------	-------

Model Name	ice maker
Model Number	GFIM27B
Product Dimensions	11.65"D x 9.45"W x 11.5"H
Capacity (Water Reservoir)	1.3 Liters
Daily Ice Production	Up to 26 lbs
Ice Production Time	9 cubes in 6-8 minutes
Ice Cube Sizes	Small (0.78"x0.95"), Large (0.90"x1.01")
Wattage	160 watts
Voltage	120 Volts
Refrigerant	R600a
Material	Plastic
Item Weight	14.82 pounds
Color	Ink Black
Noise Level	Around 45 dB
Included Components	Ice maker, Ice scoop

TROUBLESHOOTING

- **'ADD WATER' Indicator On:** The water reservoir is low. Refill with clean water up to the 'MAX' line.
- **'ICE FULL' Indicator On:** The ice basket is full. Remove ice to allow the machine to resume production.
- **No Ice Production:** Ensure the unit is plugged in, powered on, and the water reservoir is filled. Check that the selected ice size indicator is lit.
- **Ice Melts Quickly:** This ice maker is not a freezer. Ice will melt over time and the melted water will return to the reservoir for reuse. For longer storage, transfer ice to a freezer.
