4.4 Screen Zoom Function

The projector includes a 50%-100% zoom function, allowing you to adjust the screen size without moving the projector. This feature can be accessed via the remote control or settings menu.

5. MAINTENANCE

To ensure the longevity and optimal performance of your TMY Projector, follow these maintenance guidelines:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Avoid abrasive materials or harsh chemicals.
- **Cleaning the Exterior:** Wipe the projector's exterior with a soft, dry cloth. Do not use liquid cleaners directly on the device.
- **Ventilation:** Ensure that the ventilation openings are not blocked to prevent overheating.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct

sunlight and dust.

6. TROUBLESHOOTING

If you encounter issues with your TMY Projector, refer to the following common problems and solutions:

- **No Power:**
 - Ensure the power cord is securely connected to both the projector and a working electrical outlet.
 - Check if the power outlet is functional.
- **No Image / Blurry Image:**
 - Verify the projector is powered on and the lens cap is removed.
 - Allow the automatic focus and keystone correction to complete. If still blurry, manually adjust focus using the remote.
 - Ensure the projection surface is suitable and the projector is within the recommended distance.
 - If using an external source (HDMI), ensure the correct input source is selected.
- **No Sound:**
 - Check the volume level on the projector and any connected external audio devices.
 - If using Bluetooth speakers, ensure they are properly paired and connected.
 - If using internal speakers, ensure external Bluetooth output is not selected.
- **Remote Control Not Responding:**
 - Ensure the batteries are correctly inserted and not depleted.
 - Point the remote directly at the projector's IR receiver.
- **WiFi Connection Issues:**
 - Ensure your WiFi network is active and within range.
 - Double-check the WiFi password.
 - Restart the projector and your WiFi router.
 - If the connection times out, try moving the projector closer to the router or reducing interference.
