4. Setup and Assembly

The LUXOAK bed frame is designed for easy assembly. It is recommended that two adults complete the assembly process, which typically takes less than an hour.

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and identify each part using the provided assembly instructions and parts list.
2. **Assemble Headboard and Footboard:** Follow the diagrams to attach the headboard and footboard components.
3. **Attach Side Rails:** Connect the side rails to the assembled headboard and footboard using the provided hardware. Ensure all connections are secure.
4. **Install Slat Support System:** Place the wooden slats across the bed frame. The closely spaced slats are designed to provide strong support for your mattress without the need for a box spring. Ensure the Velcro slats are properly aligned and secured for a noise-free experience.

5. **Final Tightening:** Once all parts are assembled, go back and ensure all screws and bolts are fully tightened. Do not overtighten.

For detailed, step-by-step visual instructions, please refer to the assembly guide included in your package.

5. Operating and Usage

No Box Spring Needed:

The bed frame features a robust slat support system that provides ample support for any type of mattress (foam, latex, spring, etc.). This design eliminates the need for a traditional box spring, enhancing comfort and potentially extending your mattress's lifespan.

Under-Bed Storage:

With 7.3 inches of clearance beneath the bed, this frame offers convenient under-bed storage space. This area is ideal for storing boxes, shoes, or other items, helping to keep your bedroom tidy and organized. The clearance also allows for easy access by robot vacuums for hassle-free cleaning.

6. Maintenance

To ensure the longevity and appearance of your solid wood bed frame, follow these maintenance guidelines:

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they can damage the finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth to prevent dust buildup.
- **Protection:** Avoid placing hot or wet items directly on the wood surface. Use coasters or protective pads if necessary.
- **Sunlight Exposure:** Prolonged exposure to direct sunlight can cause wood to fade or change color. Position the bed away from direct sunlight or use curtains/blinds.
- **Natural Wood Variations:** Solid wood is a natural material, and variations in grain, color, and texture (such as knots or slight color differences) are inherent characteristics and not defects. These natural features contribute to the unique beauty of your furniture.

7. Troubleshooting

Noise from Bed Frame:

The LUXOAK bed frame is designed with a noise-free system, utilizing Velcro on the slats to prevent creaking. If you experience any noise, please check the following:

- **Tighten Connections:** Ensure all bolts and screws are securely tightened. Loose connections are a common cause of noise.
- **Slat Placement:** Verify that all slats are correctly positioned and the Velcro strips are fully engaged with the frame.
- **Level Surface:** Ensure the bed frame is on a flat and level floor. Uneven surfaces can cause stress on the frame and lead to noise.
