Floor scales KERN BID/BID-D

Floor scale with EC type approval (M)¹ and the best price-to-performance ratio – now also as high-resolution dual-range balance

Do you know? Our floor scales are delivered in a robust wooden box. This protects the high-precision weighing platform from mechanical influences and ensures during transportation, KERN always stays steady.

1) Verification plug, for verified balances this enables you to separate the display device and operate without affecting the verification.

Industrial platform scale KERN IOC

Allround platform scale with a wide range of communication options and EC type approval (M)

Features:

- Industry 4.0: A wide range of optional data interfaces allows that it is easy to transfer weighing data to various networks, PCs, controllers, PLCs, etc.
- High stability: Thanks to a compact design, the platform scale is suitable for use in various locations: laboratory, production, quality control, etc.
- Accuracy: Weighing with a precision of 0.1 mg to 1 kg.
- Flexibility: The platform scale can be adapted to various applications: for example, for weighing of bulk materials, for weighing of large objects, for weighing of small objects, etc.
- Connectivity: The platform scale can be connected to various communication options: for example, for weighing of bulk materials, for weighing of large objects, for weighing of small objects, etc.

Technical data:
