WEMAX B0DRG7XFWP

WEMAX Google TV Projector User Manual

Model: B0DRG7XFWP

1. INTRODUCTION

Thank you for choosing the WEMAX Google TV Projector. This compact and versatile projector is designed to deliver a high-quality cinematic experience in your home or on the go. Featuring official Netflix licensing, native 1080P resolution with 4K support, and integrated Google TV, it provides seamless access to a vast library of entertainment. This manual will guide you through the setup, operation, and maintenance of your new projector.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the projector. Keep this manual for future reference.

- **Power Supply:** Use only the provided power adapter. Ensure the voltage matches the requirements specified on the adapter.
- **Ventilation:** Do not block ventilation openings. Ensure adequate space around the projector for proper airflow to prevent overheating.
- **Heat:** The projector may become warm during operation. This is normal. Avoid touching the lens or hot surfaces.
- **Eye Safety:** Do not look directly into the projector lens when the lamp is on. The bright light can cause eye strain or damage.
- **Placement:** Place the projector on a stable, level surface. Avoid placing it in direct sunlight, near heat sources, or in environments with high humidity or dust.
- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth. Do not use liquid or aerosol cleaners.
- **Servicing:** Do not attempt to repair the projector yourself. Refer all servicing to qualified personnel.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- WEMAX Google TV Projector
- Power Cord
- Remote Control
- Power Adapter
- User Manual (this document)
- Warranty Card

4. PRODUCT OVERVIEW

Projector Components

Familiarize yourself with the main components of your WEMAX Google TV Projector.

Figure 4.1: Front view of the WEMAX Google TV Projector highlighting its key features like Google TV, 1080P Native resolution, 4K support, Dolby Audio, Bluetooth, and WiFi connectivity.

Figure 4.2: Rear panel of the projector displaying the Audio 3.5mm port, HDMI ARC port, and USB port for connecting various devices.

Key Features

- **Google TV Integration:** Officially licensed Netflix, Prime Video, YouTube, and access to over 10,000 apps.
- **High Resolution:** Native 1080P with HDR10 and 4K content support for sharp, detailed visuals.
- **Smart Calibration:** Features Auto Focus, Auto Keystone Correction, Intelligent Obstacle Avoidance, and Intelligent Screen Alignment for effortless setup.
- **Audio:** Built-in 2x3W speakers with Dolby Audio support and Bluetooth connectivity for external audio devices.
- **Connectivity:** Dual-band 2.4G/5G WiFi, HDMI ARC, USB, and Audio ports for multi-device compatibility.
- **Durable Design:** Fully-enclosed light engine reduces black spots and extends lifespan to 40,000 hours.

5. SETUP

Initial Power-On and Placement

1. Place the projector on a stable surface, ensuring the lens faces the projection surface (wall or screen).
2. Connect the power adapter to the projector's power input and plug it into an electrical outlet.
3. Press the power button on the projector or remote control to turn it on.

Figure 5.1: The compact design of the projector allows for flexible placement in various environments.

Automatic Image Adjustment

The WEMAX Google TV Projector features intelligent projection technology for quick and easy setup:

- **Auto Focus:** The projector automatically adjusts the image clarity within approximately 4 seconds.
- **Auto Keystone Correction:** Distorted images caused by angled projection are automatically corrected for a rectangular display.
- **Intelligent Obstacle Avoidance:** The projection size and position will adjust to avoid objects in the projection path.
- **Intelligent Screen Alignment:** The projector can automatically align the image to fit precisely within a projection screen.

4-In-1 Intelligent Projection Technology

Figure 5.2: The 4-in-1 intelligent projection technology simplifies setup and ensures an optimal viewing experience.

Google TV Setup

Upon first use, follow the on-screen prompts to set up Google TV:

1. Select your preferred language.
2. Connect to your Wi-Fi network by selecting it from the list and entering the password.
3. Sign in with your Google account to access personalized recommendations, apps, and services.
4. Follow instructions to set up Google Assistant and other preferences.

Figure 5.3: The Google TV interface provides one-click access to popular streaming services.

6. OPERATING

Navigating Google TV

Use the remote control to navigate the Google TV interface. The home screen provides access to your installed apps, personalized content recommendations, and search functions.

- **Voice Control:** Press the Google Assistant button on the remote and speak commands to search for content, control playback, or adjust settings.
- **App Access:** Select icons for Netflix, Prime Video, YouTube, and other streaming services directly from the home screen.

Connecting External Devices

The projector supports various external devices:

- **HDMI:** Connect gaming consoles (Xbox, PS4/PS5), laptops, PCs, or DVD players via the HDMI ARC port.
- **USB:** Plug in USB drives for media playback.
- **Bluetooth:** Pair with external soundbars, speakers, or headphones for enhanced audio.
- **Wi-Fi Screen Mirroring:** Wirelessly cast content from your phone or laptop using the dual-band 2.4G/5G WiFi.

Figure 6.1: Seamless wireless connectivity for screen mirroring and external audio.

Adjusting Display Size

The projector can create a display from 40 to 120 inches. Adjust the distance from the projection surface to change the screen size. The automatic focus and keystone correction will adapt to the new size.

Table 6.1: Recommended Projection Distances

Screen Dimensions (SD)	Relative Distance (D)
40"	3.5 ft
60"	5.2 ft

Screen Dimensions (SD)	Relative Distance (D)
80"	6.9 ft
100"	8.7 ft
120"	10.5 ft

7. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

- **Lens Cleaning:** Use a soft, lint-free cloth specifically designed for optical lenses. Gently wipe the lens to remove dust or smudges. Avoid harsh chemicals or abrasive materials.
- **Ventilation:** Regularly check that the ventilation openings are clear of dust and debris. Use a soft brush or compressed air to clean them if necessary.
- **General Cleaning:** Wipe the exterior of the projector with a soft, dry cloth. Do not use liquid cleaners directly on the device.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

The WEMAX Google TV Projector features a fully-enclosed optical engine, which significantly reduces dust accumulation and helps prevent black spots on the projection, contributing to a longer lifespan of up to 40,000 hours.

Dust-Proof Fully Sealed Optical Engine

Prolongs projector lifespan with a durable 40,000-hour bulb

8. TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Power	Power cord not connected; Power outlet issue	Ensure power cord is securely connected. Try a different power outlet.
No Image / Blank Screen	Input source not selected; Cable connection issue; Projector in standby mode	Check HDMI/USB connections. Ensure correct input source is selected. Press power button to wake from standby.
Image is Blurry	Out of focus; Lens dirty	Allow auto-focus to engage. Clean the projector lens.

Problem	Possible Cause	Solution
Image is Distorted (Trapezoid)	Projector not perpendicular to screen	Allow auto keystone correction to adjust. Reposition projector if necessary.
No Sound	Volume too low; Muted; External audio device not connected/selected	Increase volume. Check mute setting. Ensure Bluetooth speaker is paired or HDMI audio is correctly routed.
Wi-Fi Connectivity Issues	Incorrect password; Router too far; Network interference	Verify Wi-Fi password. Move projector closer to router. Restart router and projector.
Remote Control Not Working	Batteries low/dead; Obstruction between remote and projector	Replace batteries. Ensure clear line of sight to the projector's IR receiver.

9. SPECIFICATIONS
